there is a growing hostility to the menopolies which have grown up under a republican administration. It is safe to say that the American people would by a large majority pronounce against the attempt raise the standing army to 100,000, and it is equally certain that upon a direct vote upon the issue, a large majority of the people would pronounce against an imperialistic policy, which would develop here a colonial system after the pattern of European governments.

"If the rebuke administered to the republicans at the polls had been more severe the prospect of remedial legislation at the hands of republicans would be brighter. While it was sufficient to indicate that the people are not satisfied with the republican policies, it may not have been sufficient to stay the course of the republican party toward plutocracy and toward the European idea of a government built upon force rather than the consent of the governed-a government relying for its safety upon a large standing army, rather than upon a citizen

MONTANA BRIBERY HEARING

One of Clark's Attorneys.

Case is Regarded as Preface to Pro-

posed Action to Have Clark's Scat

in United States Senate

Declared Vacant. ANACONDA, Mont., Nov. 11.-This week has been taken up with the hearing of the gathering up nearly a market-basket pletely the arbitrary power of walking delecharges against John B. Wellcome, one of W. A. Clark's attorneys, who was Clark's

confidential man during the senatorial election last winter and is accused of having Radler, secretary; Robert Kerkow, treas- distributed at that time large sums of money in the alleged bribery of members of the legislature in the interest of Clark. The process pending in the supreme court is for the disbarment of Wellcome. Last Jaquary, in the joint session of the

legislature, \$30,000, chiefly in bills of the denomination of \$1,000, were passed to the presiding officer's desk. The testimony then taken was that Wellcome had given this money to three members of the senate, Whitesids, Clark and Myers. These three declared that they took the money for the purpose of exposing the bribery. Other members of the legislature were involved in the exposure. The matter passed to a grand jury, which was asked to find that either there was bribery in the interest of Clark tives and friends.

Not until the unions are broken up and a new co-operative association of employers and workingmen has been formed will the contest cease, it is asserted. The first active step in the campaign to destroy the existing unions was taken today, when fourteen manufacturers of sheet metal locked out from their factories over 400 employes. This action, it is expected,

will be followed by other manufacturers of the same commodity, it being avowed openly that the manufacturers wish to break up the union. Several of the manufacturers issued letters to their men setting forth the reasons that had led to the lockout. In the letter it is declared that the action of the company has been forced by the unjust demands of the unions made to the Sykes ceived a promotion by being transferred to Roofing company. When the men had been working ten weeks in Moline the new wage scale of the union went into effect and, as the company refused to raise their wages, the men at Moline went on a strike and the union was obliged to pay their fare back. The Chicago union demanded that the Sykes company pay the men their return fare and threatened a strike. The company refused to pay and a strike was ordered.

Since then the company has made overtures to the union for a settlement, but the men have refused to consider any proposition until the company agreed to pay the that they have been on a strike and pay the expenses that the union had incurred during the strike.
