Holcomb Makes Ante-Election Agreement with Douglas County Heeler.

CLERKSHIP OF THE SUPREME COURT

Story is Circulated at Lincoln by Certain Populists, But Edmisten Continues to Make a Fight for the Place.

LINCOLN, Nov. 15 .- (Special.)-In connection with the free-for-all race for the appointment of clerk of the supreme court to succeed D. A Campbell it is said by prominent fusionists in this city that before elec- selecting the candidates for municipal posttion Silas A. Holcomb agreed with democratic leaders in Douglas county to give the office to Lee Herdman in the event of his GOOD PROFIT FOR FARMERS own election. This assertion does not carry much weight in the face of the fight that is being made for the place, but it is said further that Edmisten was not advised of the deal and that consequently he is now uncons lously making a useless fight. Some of Edmisten's friends say he is not a candidate have already been made upon Holcomb in his behalf it would appear that they are was accustomed to such things and would be perfectly at home in the contest.

Insurance Controversy.

The legal controversy as to the liability to the state of the insurance companies that paid fees to Eugene Moore as auditor is becoming more complicated and the test case now pending before the supreme court promises to be hotly contested by both sides before a decision is allowed to stand. In a good profit on them for the farmers. the brief and argument of the defendant in the case of the State of Nebraska against the Home Insurance Company, filed today in the supreme court, three points are raised by which it is hoped to relieve the insurance companies of all further liability.

The argument opens with the assertion that the brief of the state contained no positive argument in support of its claim and that the attorney general proceeded upon the assumption that because Moore was not convicted under section 124 of the criminal code, as auditor of public accounts, of embezzlement of the insurance fees in question, and because the sureties upon his official bond are not liable to the state for his defalcation with regard to moneys which he, as auditor, had no right to receive.

The first of the three points raised by the Home Insurance company is that under the constitution of Nebraska the auditor had no right to perform services for the defendant and other insurance companies unless the state treasury. The second point is that the state is estopped to claim from the defendant insurance company compensation for services of the auditor which he could not legally perform unless the fees therefor were paid in advance into the state treasury.

The last of the three points raised is that Moore did not receive payment of the fees in question as auditor of public accounts, but as agent of the state. That agency is established through the election of the state to claim from him the money thus received by him as the money of the state, whereby his assumption of agency was ratified by the state.

Bessey on Foot Ball.

High school has taught the people of Lincoln a lesson that will not be soon for-gotten. On the day of the great foot ball contest between the elevens representing the Omaha and Lincoln High schools, the state metropolis, all wearing purple acres will be sold at the same time. and white ribbons, paraded the streets of enthusiasm. In the afternoon all of them witnessed the defeat of their team on the university campus. They shouted encouragement to their players until time was called at the end of the game and they left the field, not blaming any one for the defeat, but still cheering the representatives of their own school. It was a goodnatured crowd that came down to Lincoln is the subject of much comment.

Very different is the spirit manifested by the students of the university and the High school in this city. Lincoln never sent such a delegation to Omaha to attend a foot ball game, although both the High school and the State university teams have played there many times. The recent game between the Nebraska and Iowa university teams in Omaha was not witnessed by over ten people from Lincoln. When an excursion was proposed, the students were enthusiastic, but when the time came for purchasing the tickets their enthusiasm

In an address to the students of the State university Chancellor Bessey spoke of the delegation from Omaha and expressed the hope that Lincoln or the university might show as much enthusiasm. On this subject he said:

When the great game between Nebraska and Kansas comes off next Saturday, I wish you students of the University of Nebraska would pattern after the students who came rules. Scheller is in the pink of condition. down from the High school at Omaha 200 strong, and from the High school of Lincoln 300 or 400 of them. They got up more enthusiasm to the square rod than the whole university has usually done. Now, young men and women, do not be afraid to cheer and yell when our boys make a good play. Do not forget to cultivate the feeling of loyalty and patriotism. You are fortunate, more fortunate, perhaps, than you deserve, that you are in this university. Think of it as the biggest thing you have been in and do not fall to express your patriotic feeling. Do not have any favorites on your own team. Shout for every man who makes a good point. Shout for him whether you know him or not. Put on your ribbons, your society ribbons, your class ribbons, your fraternity but more than all of these, and greater than these, put on the university ribbons of scarlet and cream.

Advocates Out-Door Exercise. Chancellor Bessey is an advocate o every outdoor exercise that is healthful and he places foot ball almost at the top of the list. He is able to find a great lesson in the game of foot ball, and along this line

he said: You players are learning lessons of endurance. Some one has said that the battle of Waterloo was won on the field at Eton. It means that these qualities of endurance, pluck and grit were acquired on the foot ball field. Let us, who do not engage in foot ball for one reason or another, profit by their example. It is cultivating in us all a high regard for those qualities on which there is still a premium show and fair last night in the church. and will be a premium as long as man is Resse's Concert orchestra furnished the on earth. You who are lookers-on should music. Chrysanthemums of all sizes, shapes learn from this splendid exhibition of pluck and almost every color were in profusion a great lesson.

DO I NEED ELECTRICITY?

If you have stomach, liver or kidney trouble, suffer from pains in your back, or rheumatism, lack of sexual vigor, easily to become tired or fatigued, you need electricity.

You do not need something to stimulate the nerves, but you need something to supply this deficiency of nerve vitality. You need something to cause the organs to perform their proper functions; that is, you need force in the nervous system and in the blood, something to equalize the circulation of the blood and restore your vitality.

There is one thing, which is nature's own remedy, that will do this, and that is Electricity, when it is properly applied. It will permanently restore your nerve force circulation, then your organs will get that vigor that nature intended them to, and health is yours.

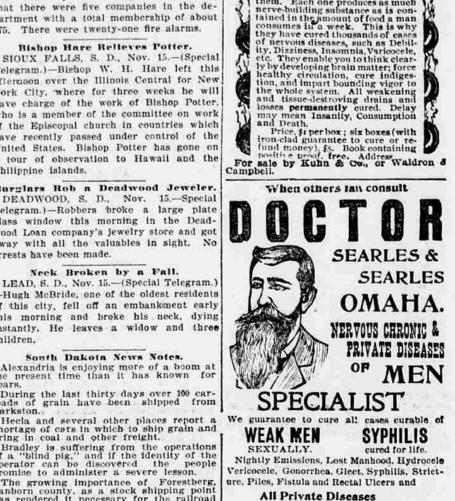

OR. BENNETT'S ELECTRIC BELT

It places a steady, even, mild current in the system while you sleep. The weakened nerves gradually absorb the current, the circulation is equalized throughout the whole system, and you got up invigorated. Its effect is permanent and not temporary relief.

The reason Dr. Bennett is successful in treating cases of this kind is that, instead of the bare metal electrodes, used on all other belts, which burn and blister, he uses a SOFT SPONGE ELECTRODE, his exclusive patent, the only belt in the world that has it, which allows a heavy current of Electricity to enter the system without any un-pleasantness or burning. It has cured thousands of patients, after all other remedies have failed. It is arranged particularly to suit each case, and is a permanent cure for Rheumatism, Kidney, Liver and Bladder Troubles, Lost Manhood, Constipation, etc. Guaranteed the strongest Belt made. Write or call and get literature upon this matter. You will candidly be told whether Electricity will help you or not. Sold only by
