

Once more! As We Buy, So We Sell

We have just bought and received the grandest bargains, and we'll sell them to you Saturday just as cheap in proportion as we bought them—

BECAUSE

the cold weather stays away so long, they could not sell their winter goods, they were overloaded, they needed money badly and quickly—

THAT'S WHY

a lot of manufacturers and jobbers sacrificed an immense amount of new fall and winter merchandise to us for our ever ready spot cash.

Bargains in Our Cloak, Suit Dept.

Almost December and the weather continues so warm that you neglect to supply yourself with those winter goods which you usually purchase in September.

SWELL KERSEY COATS from one manufacturer. We bought 200 fine Kersey jackets, mostly black and navy, double breasted and satin lined.

From another overloaded manufacturer we purchased nearly 1,000 SKIRTS, among which most worthy of mention are some new plaids, swell and beautiful big blocks and checks.

Also 200 ladies' GOLF COATS made of two faced plaid black woolen golfings and diagonal covers, unlined entirely, and with seams heavily satin bound.

From a celebrated suit manufacturer come 150 TAILOR-MADE SUITS, mostly silk lined throughout, all wool homespun and venetian cloth.

NEW YORK, Nov. 17.—R. G. Dun & Co's Weekly Review of Trade will say tomorrow:

The signs of shrinkage in the new demand for iron and steel products become more clear, and while prices of pig are maintained without change and billets are not quoted lower only because premiums for earlier deliveries are no longer paid, plates are quoted lower at the east, with some mills selling at 26 cents a Pittsburgh and sheets are sold by some mills at from 25 to 26 cents the regular price.

NEW YORK, Nov. 17.—Bradstreet's Financial Review tomorrow will say:

Speculation during the week almost entirely on the money market and the developments connected with it. Last Saturday's unexpected bank statement showing that the New York clearing house deposits continued to decline, and the legal reserve limit, created an unfavorable impression about the probable course of prices at the opening of the week.

While rates touched 10 1/2 per cent these were the extremes and the bulk of the borrowing at the stock exchange was on a much lower level than for a fortnight or so. Large amounts were loaned at 10 per cent or less and the money was offered in such a way as to indicate that the intention was to ease the market.

JUROR CREATES A SENSATION

Former Senator Lowe, sitting as Jurymen in Hillman Case, Holds Policy in Defendant Company. LEAVENWORTH, Kan., Nov. 17.—Former State Senator P. G. Lowe, who has, for the last five weeks, been sitting as a jurymen in the sixth trial of the famous Hillman insurance case, created a mild sensation when he arose in the jury box today and asked United States Judge Hook if it were proper for him to remain in the box, stating that he held a policy in one of the defendant companies. Judge Isham of Chicago had been making an argument for the insurance companies and stated that the defendant were mutual insurance companies, and that a man holding a policy in the company was not qualified for a jurymen. At this Lowe arose and put his question as stated. After recovering from their astonishment the attorneys representing each side, one at a time, waited objections to Lowe, and Judge Hook ruled that he was a proper jurymen and that the trial should continue.

ROARING EARS

Caused by Coffee Drinking. "I was twenty years old before I learned to like coffee, but about that age I was occupied when I felt the need of a stimulant of some sort and took up coffee in earnest. "When I tried leaving off coffee sick headache invariably followed every breakfast without coffee, so I stuck to it, but other troubles set in. A serious catarrhal condition set in and grew worse until I began to lose sleep and the ears began that peculiar roaring sound, which continued steadily. I finally lost the use of one ear altogether and the other one became very bad. "I am satisfied that coffee was the cause of the nervous troubles that showed in the loss of my hearing, for when I left it off and took up Postum Food Coffee my hearing began to improve and my general condition rapidly changed for the better. I feel less on a strain all the time." That terrible pulsation has practically left my ears; I sleep very much better; bowels are never constipated now as they were while I was using coffee. I am rapidly getting back to where I was seven years ago. You can imagine that I changed Postum Food Coffee very highly indeed." Chas. Worrall, 622 Lawrence St., Topeka, Kan.

MURDERED FOR HIS MONEY

Body of a Man Found in Skull Near Fort Scott, Kan., with Bullet Crushed. FORT SCOTT, Kan., Nov. 17.—The body of a man, believed to be that of a German farmer, about 35 years old, has been found in Mill creek, six miles from Fort Scott. The skull was crushed and there was a bullet hole in the temple, while a stay chain was tied around the neck and a sack of stones was bound to the legs. The man is believed to have been murdered for his money.

MYSTERY SURROUNDS MURDER

Son of Victim Arrested Charged with Crime, but Protests His Innocence. DEXTER, Mo., Nov. 17.—Much mystery surrounds the death of Rev. Jesse Moore, the Methodist minister, who was assassinated yesterday at his home near Pyle, six miles from Dexter. So far as known, the deceased minister had no enemies and was universally loved and respected. Although three sons slept in the same room with their father, all the members of the family declared they heard nothing of the shot. A shot gun was found on a rack on the rear porch, with one barrel empty, showing that it recently had been discharged. Before the coroner, Elijah, the oldest son, testified that last week his father loaned the gun to a neighbor whom he (Elijah) did not know. Elijah says he believes that this unknown neighbor last night returned with the gun, killed his father and placed the weapon in the rack. The jury rendered a verdict that the minister came to his death at the hands of some unknown assassin.
