Campbell Cannot Be Ousted from His Position Except for Cause-

Business of the Lincoln Postoffice.

LINCOLN, Nov. 19 .- (Special.) - Attention was called in The Bee several days ago to the fact that the popocratic aspirants for the office of clerk of the supreme court were a little premature in their candidacy, as the term of the present incumbent would not expire for over eighteen months. Those present clerk cannot be removed from office | hall last evening, which was much enjoyed for cause. The constitution of Nebraska, which appears plain on this subject, provides as follows:

"There shall be appointed by the supreme court a reporter, who shall act as clerk of the supreme court and librarian of the law and miscellaneous library of the state. whose term of office shall be for four years. unless sooner removed by the court, whose salary shall be fixed by law, not to exceed \$1.500 per annum."

Congressman Burkett will leave for Washington tomorrow. He will be accompanied by George Tobey of this city, who will act as private secretary for Burkett.

Postoffice Statistics.

An idea of the large volume of business transacted at the Lincoln postoffice may be ordinary interest by his old comrades in obtained from the report of Postmaster | West Point. Bushnell for the month ending November 6. In accordance with an order from the postmaster general all mail matter passing through the Lincoln postoffice during that period was weighed and comparison with a an unusual increase in the amount of business handled.

The mail clasifications in the weighing were first-class mail, letters and sealed matter paying postage, second class matter, third and fourth class matter, including merchandise and equipment, consisting of pouches, mail sacks and all property belorging to the department that was weighed with the mail. The total in these classes

was as follows for the month: First-class matter, 11,457 pounds; secondclass matter, 211,322 pounds; newspapers from in county, 1,252 pounds; third and fourthclars matter, 24,460 pounds; government free matter, 6,145 pounds; equipment, 41,333 pounds; total, 296,462 pounds.

This in tons is over five tons of letter mail, 106 tons of newspapers, twelve tons of merchandise and package mail, three tons of government free matter and twenty-one tona of equipment.

These figures also give an idea of the enormous amount of second-class mail carter handled and dispatched from the Lincoln postoffice.

The largest single day's business was on November 1, when 11,580 first-class letters were dispatched. These figures are for outgoing mail only. It is difficult to estimate the number of letters received and delivered from points outside of Lincoln. However, the incoming mail has been increasing in volume for the last few years.

The figures for the month are slightly above the average for the reason that the two political central committees sent out considerable mail during the period.

Island.
Barlow S. Weeks of the New York club says he expects the amendments as pro-posed by the legislation committee of the union to be passed. The amendment most affecting that club places the same restric-tions upon college athletes as upon others. This, if passed, will prevent the club from getting such star athletes as Kraenzlein, Grant and others, who do not live in the metropolitan district.
Thore who are pushing the matter say that the growth of athletics has been re-tarded by not placing eligibility restrictions upon college men. It is their opinion that by requiring every athlete to be an active member of a club at least four months and a bona fide resident of the district at least six months before competing, interest in athletics will not be confined solely to New York, but will spread throughout the country. They think also that the sport will be purified. CHICAGO, Nov. 19 .- The Union Stock vards and allied interests have on foot a plan to hold in Chicago about next November an international livestock exposition, which to that industry will be what the world's fair was to all industries. The promoters claim that the co-operation of Chicago business men is assured and that the different breeders' associations which meet here this week will lend moral and financial aid to the plan. Germans Buy American Grain. KANSAS CITY, Nov. 19.—The Journal says: Alfred Duttenhofer, who is at the head of a grain firm, with houses at Mann-heim and Duisburg, Germany, has just closed deals with several local grain firms, involving a purchase of several hundred thousand dollars' worth of southwestern wheat, and left last night for Galveston, where he will make arrangements for the shipment of the grain to Europe. "The failure, or partial failure, of the Russian wheat erop." Mr. Duitenhofer said. "was responsible for his visit to Kansus City. The quality of Russian wheat is so pror this year that Germans do not care to use it." FIRE RECORD. Life Lost in a Hotel Fire. WAGONER, I. T., Nov. 19 .- The St. Charles hotel and six other buildings were

destroyed by fire last night. The hotel was filled with guests and there were several narrow escapes. One guest, a Fort Smith traveling man named Whiteside, was burned

missing. The property loss is \$20,000.
