CITY PUTS ON THE GARB OF MOURNING

relegrams of Condolence Pouring In -Estate of the Dend Man Estimated at from Two to Three Millions.

NEW YORK, Nov. 22 .- The funeral of the late Garret A. Hobart, vice president of the United States, will take place on Saturday, The morning services at the residence will be attended by only the members of Mr. Hobart's family, President McKinley and his cabinet and Mr. Hobart's most intimate friends. At the Church of the Redeemer in Paterson the public service will be held at 2:30 o'clock in the afternoon.

The body will not lie in state in the city hall, as was desired by the city authorities, but on Friday afternoon the casket will be open in the library of his home and for three hours the public may view the face of the late vice president. The body lies in a handsome casket of oak, the plate bearing this inscription: "1844. Garret A. Hobart.

Four companies of regulars from Governor's island will take part in the funeral services and will probably act as an escort from the residence to the church. The military will also act as an escort to President McKinley and his party.

It is expected that President McKinley and his cabinet, the supreme court justices and other officials from Washington will arrive before noon on Saturday.

A special train bearing the senators and representatives and other United States officials will start from New York and committees will be on hand to take charge of those arriving.

Mr. Hobart was a member of the order of Ancient Free and Accepted Masons of high only partial and will take some time to comrank, a Thirty-second degree Scottish Rite Mason and a Knight Templar.

In reply to inquiries of representatives of various Masonic bodies, it has been explained to them that the family deems it best not to have a Masonic funeral. Up to the present the names of the pallbearers have not been announced. Mr. Hobart two months ago, when he feared something might happen, named six of his most intimate friends in New Jersey and it is believed that these will act as his pallbearers.

Mrs. Hobart is bearing up well under her great trouble and today was able to see a few of her most intimate friends, including Attorney General Griggs and Mrs. Griggs and Rev. Dr. David Magie, who will deliver the funeral oration.

President McKinley and cabinet will leave Paterson immediately after the interment of the remains of Vice President Hobart in Cedar Lawn cemetery and the United States senators will return on the same train with him. The services in the house will probably be conducted by Rev. Magie of Paterson, Rev. Dr. Hamlin of Washington and the blind chaplain of the senate, Rev. Dr. Milburn.

The musical part of the program will be in charge of the Orpheus club of Paterson and A. Hobart Smock of New York, a relative of the vice president.

It is understood Mr. Hobart left a will. naming as his executors Colonel Barbour and E. T. Bell, his friends, and it is more than likely they are two of the pallbearers. City Draped in Black.

VOTING BY MACHINERY.

The Coming Method of Registering the Popular Will. A New York letter to the Philadelphia Press gives an account of the astonishing rapidity with which the results of the voting

were made known at Utica. It says: Perhaps the most striking test was that made by the proprietor of the Utica Observer, E. Prentice Bailey. There were twenty-one election districts in the city of Utica, a city with a population of a little over 60,000. Within fourteen minutes after the polls were closed, Mr. Bailey was able to print and put upon the streets in an extra edition of the Observer an accurate and complete account of the result of the election. Wheelmen brought to the office the

returns from each of these districts. There was no necessity for slow and tedious counting of the ballots. When the polls were closed and the mechanism of the mado was to open the machine and there in ory more persistently than four positives indisputable figures was told the detail and In a larger way it might be urged that culin the aggregate the result of the voting ture and civilization consist in great part in each district. The machine cannot be of the ability to listen to and observe things tampered with, cannot be made to beat itself at variance with and even repugnant to without at once frustrating completely the one's private belief, and to do so without purpose of the would-be corrupter of the acrimony. Magnanimity is one of the rarest ballot. If it break down the record that is and most noble of human characteristics, made up to the moment of the collapse remains and a new machine can be substituted. It is simplicity itself. The voter touches the appropriate keys and the machine does the rest, does the counting, and is as accurate as is the adding machine now so universally used in the largest banks of this city.

'authors' tickets" for two years, and has set up a series of subscriptions for all the the aters in Paris at "prices that defy competition," as his circular announces.
