FEARS THAT IT IS A GENERAL MOVEMENT

General Methuen Warns Boers Not to Use Dumdum Pullets and to Observe the Rules of War.

LONDON, Nov. 25 .- The news of the death of the khalifa and the final defeat of the dervishes has been received here with great joy as a welcome set-off to the serious situation in South Africa.

The gravest news from Capetown today comes from the northern part of the colony, where it is now evident numbers of Dutch farmers have risen and joined the invading Free State forces in the Herschell and Bark-

ley East districts. A dispatch from Queenstown, Cape Colony, General Gatacre's headquarters, announces realized the value of their services and yesthat "400 colonial rebels, including an ex- terday authorized the raising of a mounted magistrate of Barkley East, have joined the enemy," at the latter place, and that the whole force is reported to be marching on Dordrecht, whence it can operate and possibly intercept General Gatacre's advance to reoccupy Stormberg Junction, a strategic point from which General Gatacre can get in direct touch through the railroad with General French at Naauwpoort and thus,

Another dispatch says that refugees arriving from Queenstown ascert that Ladygrey has been occupied by the colonial fartners and that it is feared there that there is a general movement in favor of the who did similar services for captured

Warning to Boers. Such statements appear incredible, but they are now confirmed officially by the protest of General Methuen, who has sent a gift, as the Natalians already are claiming "I must ask you to warn your wounded for the colonial forces, but compensation for message to the Boer commander, saving:

not to shoot our officers. I must warn you the disturbance to trade and loss of propnot to use dumdum bullets or use the flag of truce treacherously. Such action is cowardly in the extreme and I cannot countenance it."

All accounts confirm the splendid charging of the British infantry, the Scots Guards entering the fight with drums beating and fife playing.

The letter adds: "We shall have to attack the khalifa this winter. There is no probability of his attacking Omdurman. But he will do his utmost to create risings and will attempt a raid along the west bank of the White Nile. He is known to have 3,500 riflemen, 7,000 spearmen and more cavalry. These are reported to be full of fanatical zeal. We shall probably find our chief losses due to fever, scarcity of water and the cattle fiv But, I assure you, that when we begin the khalifa will be vigorously pursued, to pre-

It is now definitely said that Valkyrie III will never be recom missioned by its prospective owner, to whom Lord Dunraven is arranging to sell it. YANKEES TAKE THE INITIATIVE

Vigorous Policy of United States Bringing About Definite European Action Regarding China.

LONDON, Nov. 25 .- As a result of the United States' request to the powers for assurances regarding the maintenance of the "open door" in China, the Associated cluded A. J. Balfour and other relatives. Press is able to say that negotiations have been entered into looking to a more permanent and important international agreesequence of Russia and France failing to in person. Chinese question still more vigorously. The morial service held in the chapel royal, St co-operation of Great Britain to this end, James', which was attended by the duke of it is asserted, was secured, and it is said Cambridge, the first lord of the admiralty, seemed utopian, yet today the Associated Press is informed on good authority there Only Nineteen Out of a Possible are fair chances of Great Britain, Russia, Germany and Japan, in conjunction with the United States, becoming signatories to a treaty delimitating the spheres of political influence in China and determining their fiscal policy in that quarter, based on the 'open door" pure and simple. Such is the scope of the arrangement. The projected territory, in other words districts, now controlled for instance, may change hands in return for other privileges.

France, apparently, has exhibited the greatest opposition to this plan so far, but assurances have been received from Russia, and its apparent willingness to enter into an agreement with the United States, as the leading factor, has given rise to the belief that France is not necessarily a political organization in Ireland now is the stumbling block, for if Russia entered into the agreement, France, it is asserted, is almost bound to follow, or render herself

powerless in the far east. It is understood that the United States, Great Britain and Japan have already arrived at a perfect understanding. Germany's understanding was greatly influenced by the emperor, who had frequent conferences on the eastern question while in England, with members of the royal family, after whom Joseph Choate, the United States ambassador. At the queen's banquet Mr. Choate conversed at length with the emperor, and it is said confined himself chiefly to the question of China. It is scarcely probable that any official or semi-official reference will be made to this important undercurrent which progresses publicly under the guise of merely giving assurances to the United States, until it has assumed such shape that no hitch is possible. In the event of the failure of the negotiations, through the refusal of Russia or Germany, it is likely the world will never know how near the great powers came to settling the greatest problem of the century.

KHALIFA KILLED IN BATTLE

Osman Digna, His Principal General, Escapes-Many Leaders Captured.

CAIRO, Nov. 25 .- Lord Cromer, the British minister here, has received the following dispatch from General Kitchener: "Wingate's forces caught up with the khalifa's force seven miles southeast of Godid and attacked it. After a sharp fight he took his position. The khalifa, who was surrounded by a bodyguard of emirs, was killed and all the principal emirs were killed or captured, except Osman Digna, who

escaped. The dervishes were utterly defeated, their whole camp was taken and thousands surrendered. A large number of women, children and cattle also fell into the hands of

the Anglo-Egyptian force. General Kitchener also wires: "Wingate's Arab scouts located the khalifa's position at Omdebrikas. Our force marched from Gedil in the moonlight and frequently had to cut its way through the bush. It arrived before dawn on rising ground overlooking the camp, their drums and horns before dawn and at 5:15 the Dervishes attacked. Our guns opened fire and soon the action became general. Half an hour later the whole line advanced and swept through the dervish posttion for over two miles till the camp was reached.

"The mounted troops pursued and captured most of the fugitives. The khalifa. with most of his men and the emir's bodyguard, made a gallant stand. - Among the emirs killed were the khalifa's two brothers and the mahdi's son.
