

AS TO INSURANCE REBATES

Deputy Bryant Says the Laws Need Amendment on This Point.

REBATES DESTROY THE MUTUAL FEATURE

Prohibition Party Alleges It Cost Just \$79.75 to Conduct Its Campaign in Nebraska This Fall.

LINCOLN, Dec. 1.—(Special.)—Deputy Insurance Commissioner Bryant has received many inquiries recently as to whether there is some way of preventing insurance agents from rebating or reducing premiums on life insurance policies. The point was raised in the case of the Indiana State Life Insurance company, tried before the insurance commission several months, it being argued that rebating destroyed the mutuality of an insurance company. In some states there are stringent laws on this subject, but there appears to be no provision in the Nebraska statutes prohibiting insurance agents from offering cut rates to insureds. Speaking of this, Deputy Commissioner Bryant today said:

"I think the insurance laws of the state need amendment. In regard to the rebate law the only objection I see to it is that it is hard to frame such a law that cannot be evaded. It is something like laws against gambling. No country and no age ever framed a law that was successful in preventing gambling. I am, however, opposed to rebating and it would be the proudest moment of my life to frame such a law that would be efficacious."

Prohibition Party's Expenses.—The prohibition party has filed with the secretary of state its statement of expenses and receipts during the recent campaign. It cost the party \$79.75 to make its campaign in Nebraska. The heaviest expense was for literature, \$38 being spent in this way. The traveling expenses of the secretary of the state central committee amounted to \$24.25. The receipts amounted to \$134.77, leaving a balance in the treasury of \$55.62.

C. C. Creveling of Blair, who has been a contributor to the party for many years, donated \$50, the national campaign committee advanced \$25, S. D. Fitch of this city gave \$19.50 and J. Kilburn and Mrs. Rebecca Brown each gave \$10.

Holin Case Again.—Attorney General Smyth left today for Washington, where he will represent the state in the case of Henry Holin, the defaulting treasurer of the city of Omaha. The application of ex-Clerk Elias Baker for the appointment of a receiver for the estates of Sam E. Low and Joseph H. Mallalieu, both of whom acted as clerk of the district court after the expiration of Mr. Baker's term, will be considered by the court next week and it is expected that there will be some sensational developments in the case. Sam E. Low was elected as successor to Elias Baker four years ago and upon his death several months ago Joseph Mallalieu, the acting ex-deputy, was appointed to fill the position. He also died and Charles E. Boettcher was subsequently appointed. The action begun by Baker is really in connection with the Mallalieu estate, although the legal forms require the bringing in of the Low estate to settle the question of liability. Mr. Baker alleges that Mallalieu neglected to turn over to him certain fees that he was entitled to. He proposes to probe the matter to the bottom and find out to a certainty what became of his money.

THE OLDEST MAN IN AMERICA Tells How He Escaped the Terrors of Many Winters by Using Peruna.

MR. ISAAC BROCK, BORN IN BUNCOMBE CO., N. C., MARCH 1, 1788.

Born before United States was formed. Saw 22 presidents elected. Peruna has protected him from all sudden changes. Veteran of four wars. Shook a horse when 90 years old. Always conquered the grippe with Peruna. Witness in a land suit at age of 110 years. Believes Peruna the greatest remedy of the age for catarrhal diseases.

a great many things by experience. I think I have done so.

"One of the things I have found out to my entire satisfaction is the proper remedy for ailments that accrue directly to the effects of the climate. For 111 years I have withstood the changeable climate of the United States.

"I have always been a very healthy man, but of course subject to the little affections which are due to sudden changes in the climate and temperature. During my long life I have known a great many remedies for coughs, colds, catarrh and diarrhoea. "I had always supposed these affections to be different diseases. For the last ten or fifteen years I have been reading Dr. Hartman's writings. I have learned much from his book, one thing in particular: That these affections are the same and that they are properly called catarrh.

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine.

"I believe it to be valuable to old people, although I have no doubt it is just as good for the young. I should be glad if my sincere testimony should become the means of others using this remedy, because I have it to be the greatest remedy of this age for catarrhal diseases.

"When epidemics of the grippe first began to make their appearance in this country I was a sufferer from this disease.

"I had several long sieges with the grippe. At first I did not know that Peruna was a remedy for this disease. When I heard that in grippe was epidemic catarrh, I tried Peruna for the grippe and found it to be just the thing.

"It has saved me several times from a siege of the grippe. I feel perfectly safe from this terrible malady so long as I have Peruna at hand. I hope that Dr. Hartman may live to be as old as I am, to continue the good work of teaching the people the value of his great remedy, Peruna.

Very truly yours, Isaac Brock.
