Mrs. Joseph M. Evans, of Carterville, Mo., says:

"Two years ago I had dropsy of the left limb so severely that my
physicians said I could not recover—that it would be impossible to
give me any treatment that would afford permanent relief. I had
been sick about a year, and most of the time was bedfast. My husband spent over \$100 that year doctoring me, with the result that the
treatment of the physicians did me no permanent good. I steadily
grew worse.

"My brother insisted that I try Dr. Williams' Pink Pills for Pale
People. I did so with some reluctance and without much hope that
they would benefit me, but the effect was almost marvelous. The first
box effected a change for the better in my condition, and I continued
to improve steadily.

"I took about six months steady treatment, and kept them in the bouse and took them at intervals for a year or more afterward. The result is that I do not now feel a trace of my former ailments."

postage.

Now here is what happened last week: A woman having mailed a Sunday Illustrated Bee, did not put on the required postage, and having been apprised of the fact, went to the Omaha postoffice to pay the same. She was sent to the superintendent of mails, and in a very gruff and sarcastic tone was told that, "We don't have time to look out for papers that are mailed without sufficient postage; they are simply thrown in the waste basket."

Now this particular paper was properly addressed, also had the return card of the tender printed on same. Yet neither adaressee nor sender was notified of the insufficient postage, nor could the same be paid by calling at the office, as the papers are consigned to the "waste basket." Is this the way Uncle Sam runs his mails?
