THE LESSON OF THE ELECTION.

Now that the official canvass of the vote cast at the recent election in Nebraska has been completed, it is both interesting and instructive to institute comparisons and formulate conclusions. Out of a total vote a fraction over 219,000, 203,533 were cast on the office of supreme judge and only 193,305 were cast on the office of university regent.

IN 1898 THE TOTAL VOTE POLLED WAS 193,320, or nearly 25,000 less than this year. The aggregate vote for governor last year was 190,608, or 13,000 less than cast for supreme judge this year.

ON THE SURFACE IT WOULD SEEM THAT the stay-at-home voters of 1898 had turned out this year and cast an almost solid vote for the fusion candidate.

THE PASSING OF THE OLD YEAR WILL ALSO witness the passing of the old emigrant shed that has served as a union depot in Omaha for about ten years.

POPCORNIC ORGANS ARE NOW TRYING to class Bryan with Dewey as two martyrs whom the plutocratic press has tried in vain to ruin.

Porto Rico and the Philippines and it is perhaps safe to assume that the policy outlined in the report of the secretary of war and recommended by the Philippine commission, which undoubtedly represents the views of the administration, will be closely followed. This contemplates the institution of civil government as rapidly as the people of the islands are capable of such government and every effort will be made to instruct and prepare them for it.
