Predicted Increase in Visible Drives Wheat Down One-Half Cent.

CORN, OATS AND PROVISIONS DROP

May Wheat at One Time Reaches Seventy and One-Eighth Cents on Continent Inquiries-Bulls Early Cheerful.

CHICAGO, Dec. 6.-Wheat was firm early today, but weakened on predicted increase in visible, closing 150 under yesterday. Corn declined with wheat and on freer country offering, closing lairie down. tiats closed 4c lower. Provisions weakened with corn and on profit taking, closing The

of small receipts. May, accordingly, tacked to onto yesterday's closing price, opening at 50% wester The continent inquired for cereal and another brace was taken. May divancing to 10% the That mark proved to be the climax of its glory. The market the the climax of its glory. The market cased off a bit on profit taking and later turned weak, when Bradetreet's report put the predicted decreace in the visible among the errors of listory, averring that instead the errors of listory, averring that instead the errors of listory, averring that instead there would be an increase of 1,390,000 bu. Recent purchasers let go in a hurry and May closed at the bottom, '40 under yesterday, at 525,000/40. Primary receipts were 771,700 bm, compared with 1,480,000 bu, a year ago. The effect of this decrease was largely counteracted by the shipments from the same points, 227,500 bm, again+1,053,200 bm, last year. Local receipts were only 25 cars, 15 of contract grade. Minneapolis and Duluth reported 329 cars, against 549 last week and 1,200 the corresponding day last year. Scabbard clearances in wheat and flour were equal to 580,000 bm. New York reported 10 loads taken for export.

Corn was steady early, the strength of the wheat market and light receipts being the influence. The market weakened later, country acceptances of last night's bids being somewhat freer. This, taken with the weakenes of wheat, was sufficient to cause some liquidation and the price lost more than double its early gain. Primary receipts were 468,700 bm, compared with 618,500 bm, the corresponding day last year. Local receipts were 186,700 bm, compared with 618,500 bm, the corresponding day last year. Local receipts were 186, ans. Clearances were liberal and a fair export business was reported at the scabbard, May opened a shade higher at 224,000,000 km, in the 172,600,000 km, in the price was little life to the trade. The shipping demand was poor, clearances were light and local receipts only 118 cars. An increase of 1,000,000 km, in the visible was reported. May opened 4,500 km the trade, The shipping demand was poor, clearances were light and local receipts only 118 cars. An increase of 1,000,000 km, in the visible was reported. May opened 4,500 km, or 110,000 km, in the bring the profits of the p be the climax of its glory. The market

initial strength was due principally to hog receipts, considerably under last year's, but this advantage was offset latter by a less pressing demand from outside and the anxiety to realize on the late advance. Packers sold product, traders buying on the decline. May pork sold from \$5.524 to \$9.55, closing 2½c under yesterday at \$9.82½; May lard, from \$5.47½ to \$5.52½\$5.55 and finished 2½c under at \$5.47½, and May ribs from \$5.27½ to \$5.35, closing 2½c down at \$5.27½. that of railroad securities. The break in prices of the industrials approached demonstrials of the industrials approached demonstriated by the middle period of the afternoon. Meantime the railroad stocks almost without exception held tenaciously to their prices. Late in the day the bears began to cover and wrought some very began to cover and wrought some very marked recoveries in the industrial it. At the same time the railroads, which had been almost stagnant, displayed some signs of animation and rose generally above yet terday's level. Net gains in a few railroads, reached a point.

The late recovery in stocks was coincident with an easing in the call money rate calling loans and the movement of the industrials suggested that they were in distributed by the money lenders industrial collatorial apparently being displaced to a greater extent than other classes. The bears were very active and made bold onsiaught on the industrial list, uncovering stooloss orders on a large scale.

The easing of the money rate aroused the supposition that the banks had strengthened their position to a satisfactory extent, promising some relief from the calling of loans. As it was evident that the short interest had been largely extended the room traders turned to the bull side on the general theory that the three days' decline in prices had reached far enough. They had some success in forcing the shorts to cover and the demand from that source became rather urgent.

Quilte a number of the industrials showed declines of 314 to 7 points and the subset.

some success it forcing the shorts to cover and the demand from that source became rather urgent.

Quite a number of the industrials showed declines of 3½ to 7 points and the subsequent rally brought them up from 1½ to 5 points. Sugar was decidedly erratic, owing to the sitting of the directors to act on the dividend. After an early advance there was decided weakness and only a momentary check to the fall, when the regular dividends were announced. It fell off afterward to 149% and after rallying over 3 points eased off again, closing with a net gain of a small fraction. The increase in the dividend rate on Atchison preferred, though not entirely unexpected, had a straightening influence on the rall road ist. Some strength was imparted to the international stocks by the support accorded in market. Continued large shipments of currency to the south and a loss of over \$1,995, 600 by the banks to the subtreasury on yester erday's subtreasury operations are reported.
