From the transcript of the proceedings of the board, duly certified to by its secre-tary, it appears that on the 18th day of September five ballots were taken to de-termine the choice of a school house site, and that upon no one of said ballots did the site in controversy receive more than three of the seven votes of the board. This action on the part of the board indicates that a majority does not now regard the Oakland avenue site as the most centrally leasted.

To introduce our stock of holiday goods on second floor we will sell at half price for two hours, from 7 to 9 p. m., each night this week from our entire stock of decorated glassware, consisting of an endless variety of trays, awater bottles, vases, candlesticks, puff boxes, card trays, pin trays, etc.

This case has been decided upon the evidence of the members of the board themselves to the duties of boards of directors. Considerable stress is laid in the application for a rehearing upon the claim that the owner of the proposed site, as well as the persons employed by the board to grade the same, may involve the district in litigation. In our opinion this is a matter that it is not our province to consider in determining the question of a rehearing. Every person doing business with a municipal corporation is presumed to know that he is dealing with a creature of the law whose powers are limited, and the members of the board themselves to the duties of boards of directors.
