PARIS, Dec. 16.—(New York World Cablegram—Special Telegram.)—The Straits of Gibraltar is the latest project of Jean Berthier, an engineer well known for carrying through successfully some audacious enterprises.

Taking the cost of the St. Gothard tunnel through the Alps as a basis, Berthier estimates the cost of the Gibraltar tunnel at \$22,000,000. The ground is solid rock, which is best for the purpose.

The underground tunnel now being constructed at Paris is said to be in two days ago in Champs Elysees near the triumphal arch L'Etiole.

LONDON, Dec. 16.—(New York World Cablegram—Special Telegram.)—London is mourning. Social activity ceases itself to entertainments conducted in behalf of the charitable war funds, which already amount to nearly \$3,000,000.

The general atmosphere of melancholy has been intensified by the dark and bitter weather. War funds have so completely absorbed the resources of the charitable that the ordinary Christmas collections for the poor have fallen on all sides.

MOROCCO A VANTAGE POINT

Russia Seeking to Buy Creta Stronghold on Moroccan Coast Facing Gibraltar.

(Copyright, 1899, by Press Publishing Co.)

LONDON, Dec. 16.—(New York World Cablegram—Special Telegram.)—My prediction of two weeks ago that Morocco is fast becoming the bone of a dangerous European international contention is now verified.

Russia is seeking to buy Creta, a stronghold on the Moroccan coast facing Gibraltar. The Creta is a small town, but it is a very important one.

Disastrous South African War Liable to Cost England's Queen Her Life.

(Copyright, 1899, by Press Publishing Co.)

LONDON, Dec. 16.—(New York World Cablegram—Special Telegram.)—It is a curious fact that the queen is now in a state of mind which is liable to cost her life.

The queen is now in a state of mind which is liable to cost her life. She is very nervous and is very much affected by the reverses in the war.
