This means that many shipments which have heretofore taken the third-class rate will take first-class, others second-class, and on some consignments no change will be made. During the time that the straght third-class rate has been in effect the implement men have had an advantage over the regular western classification on shipments of this character. As soon as the schedule of different classes for the various shipments goes into effect, however, this existing advantage will be more than offset by the increased expense of transportation.

### RATES FOR THE HOLIDAY TRAVEL. Railroads Will Give Passengers Benefit of Half Fare.

Holiday rates on, all of the railroads become effective Saturday and already the local ticket offices are beginning to dispose of excursion tickets, which, however, will not be good for passage until the 23d inst.

On all lines west of the Missouri river there will be a rate of one fare for the round trip, with a maximum limit of 200 miles. East of the Missourl river the rates will be one and one-third fare for the round trip. The dates of sale will be December 23, 24, 25,

For students and teachers a more liberal opportunity is offered by the railroads to spend the holiday vacation at their homes. The one-way rate for the round trip applies to any point within the territory covered by the Western Passenger association and the return limit is extended to the date of the reopening of school. Tickets of this kind can only be obtained by the presentation of a certificate from a member of the faculty of the institution in which the student or teacher is a member, stating that the applicant is connected with the school.

Missouri Pacific Promotions. W. C. Stith, general freight agent of the Missouri Pacific, with headquarters at St. Louis, has been promoted to the position of freight traffic manager. This office has been restored after having been abolished for about four years. The last freight traffic manager of the Miseouri Pacific was C. A. Parker. When he left the road to accept an official position with the Western Trunk Line committee no successor was appointed and the office practically ceased to exist Mr. Stith will continue to make his head-quarters at St. Louis. J. C. Lincoln, aseistant general foright agent of the Missour Pacific, will assume the position vacated by Mr. Stith and the office of assistant will be abolished. Mr. Lincoln is a brother of David Lincoln, chief clerk in the transportation department of the Union Pacific.

Both Messrs. Stith and Lincoln are well known to Omaha railroad and commercial men and the news of their promotions was received with much pleasure.

Depot Nearly Completed. The finishing touches on the new union depot are rapidly nearing an end and the building will soon be in a completed condition. The elevators are now being placed in position and will early be in operation. The big entrance leading to the Tenth street viaduct will be completed about the same time It is believed that the steps leading from the viaduct to the depot platform will be but little used when the main entrance is thrown open and the elevators are ready for operation. As soon as the elevators are put in place the new gates will be erected, a the same contractors have this work under their direction. When the gates are in place the gate tendere, who have had nothing to do since the depot was opened, will refuse all persons admission to the tracks except those holding tickets.

Railway Notes and Personals. Darlow of the Union Pacific passen r department has returned from a visit Chicago.

W. D. Sanborn, general agent of the Burlington at San Francisco, is in the city. He is enroute to his old home at Gales-burg to spend Christmas. General Passenger Agents Lomax of the Union Pacific and Francis of the Burling-ton have returned from Chicago, where they attended the meeting held to discuss the transcontinental rate situation.
