A similar meeting for Franklin county middle-of-the-roaders will be held in Bloomington on Friday. Other meetings for the same purpose hre announced for various counties on later dates. It is the intention of the organizers of the movement to have at least one or two meetings every week and in that way create as much interest as possible.

The national reform party has but one The national reform party has built one plank in its platform and it declares for direct legislation under the system known as the initiative and referendum. It ap-peals to the dissatisfied elements in the populist and democratic parties and prom-ises better government, from municipal councils to the national congress. It is urged that under the initiative, the people can compel the submission to themselves of any desired law, when, if it receives a majority of the votes cast, it is thereby en-acted. Under the referendum the people could compel the submission to themselves of any law which has been adopted by any legislative body, when, if such law fails to treceive a majority of the votes cast, it is thereby en-acted. Under the referendum the people could compel the submission to themselves of any law which has been adopted by any legislative body, when, if such law fails to treceive a majority of the votes cast, it will be thereby rejected from the statute books. REVERSE SOUTH DAKOTA CASE

Lower Court Ordered to Investigate Earnings of Milwauker Road. WASHINGTON, Jan. 22.-The United States supreme court today decided the case of the Chicago, Milwaukee & St. way company against the railroal commis He

sioners of the state of South Dakota The case involved the state law providing

a maximum rate for the railroads. The circuit court of the United States for the District of South Dakota dismissed the bill, but today's opinion reversed this judgment and remanded the case with instructions to the lower court to investigate the carnings of the road in the state, so as to

arrive at the equities of the case. Justice Brewer delivered the opinion. He

referred to the perplexity of cases involving an inquiry into the reasonableness of rall road rates, adding that neither the findings of the circuit court for the district of South Dakota. In which the case was tried, nor the facts as stated in its opinion were sufficient to warrant a conclusion on the peint of reasonableness. We are also of opiniot he said, "that the process at which the

court came to its conclusion is not one which can be relied upon. It is obvious that the amount of gress receipts from any husiness does not of itself determine whether such business is profitable or not. The gross receipts may be large, but if the explicates are larger surely the business is not profitable."
