DennisOther buyers CATTLE—Receipts of cattle today were quite large and the market as a whole was in pretty fair shape. The most of the cattle changed hands in good season and at prices that were entirely satisfactory to the

prices that were entirely satisfactory to the sellers.

Something like thirty loads of fat cattle for sale, the most of them on the commonish order. There were a few 81, good enough to bring \$5.0025.35, but a large 41, proportion of the cattle here were such as 42, are selling at \$4.5024.80. The demand on 67, the part of local packers was good and the market was fairly active at just about 63, steady prices. In other words there was no 79, material change in the situation as compared with vesterday. Some of the compared with vesterday. Some of the com-

ing, but everything that was in any way desirable changed hands early in the morning that was in any way desirable changed hands early in the morning that was a little changed to wark thought it a good steady market, but on the other hand, there a little lower in spots. Steady to a little draggy and a little draggy and a little lower in spots. Steady to a little enser would perhaps best cover the situation. Fat buils sold at about steady prices, that prices have been leaving them alone and that the market is accordingly easier than it was a few days ago.

Stockers and feeders sold in just about the same old notches. Good kinds are in active demand, but common stuff is slow every day. Buyers all seem to want well bred stock and the demand is principally for the heavy cattle, such as are ready to go feed immediately. Representative sales:
