Cowie May Be Expelled. The board feels some embarrassment with reference to its attitude toward Member Cowie, whom it was rather expected would \$30,000 tender his resignation following the revelations of Detective Buckminster and others. Cowie, however, appeared at the last meeting and participated in the proceedings in his usual aggressive fashion. Several members of the board consider that his action was not in good taste, and one or two have gone to the length of saying that they will refuse to be present at further meetings from the body.
