Wheat is Easy Early, but Reacts with Corn.

CORN QUIET, CONCEALING TRUE CONDITION

Wheat Develops Strength Late in Seasion-Long Line of Outs is Let Out -Provisions Hold Their Own Greater Part of Day.

CHICAGO, Feb. 19 .- Corn sold to a standtill without weakening, reacted on coverover Saturday. Wheat was easy early, ut reacted with corn and unfavorable weather in France, May closing firm &c. up. Oats closed a shade and provisions 25/2c

A good part of the session corn concealed its condition under an appearance of quiet cadiness. May opened a shade under Saturday at 50,5000c, attributable to the cariness of wheat. There was no great denand, but offerings were absorbed readily and May clung for hours around 34%c Near the close offerings became scarce and he impression that the market had been sold to a standstill gained general credence. Under heavy buying to cover May shot up from 30 to 35%335 to, at which the market closed, ac over Saturday. The cash demand was slow. Receipts here were

cash demand was slow. Receipts here were strongers, 221 cars over the estimate.

The strength developed by wheat late in the session was attributable to the bulge in the coarse cereal. The opening was easy on the Liverpool decline and the increase in wheat and flour on passage, May \$46% in the coarse cereal. The opening was easy on the Liverpool decline and the increase in wheat and flour on passage, May \$46% in wheat and flour of the onlis, which palled the price up to 68%. Trude was dull, however, and a little profit taking sent May back to initial figures Shorts covered and May advanced to 68% of \$400 ceres. At which it closed, \$400 ceres \$400 ceres and \$400 ceres with 650,000 bm last year. Minneapolis and Duluth reported 721 cars, against 660 a year ago. Receipts here were 65 cars, 2 of con-

igo. Receipts here were & cars, 2 of con-tract grade.

A long line of outs was let out today which was largely influential in holding that market easy. The trade was not large. Near the end the corn bulge was felt and outs, supported by some sympathetic cov-oring, closed firm, May a shade up at 23% if 23%. Receipts here were 280 cars, 140 over

the estimate.

Provisions held their own the greater part of the day, because hog receipts were under the estimate and turned firm with corn at the close. Trade was not large and fluctuations were narrow. May pork sold from \$16.92\(\frac{1}{2}\) to \$11.005(11.02\(\frac{1}{2}\) and closed  $73\(\frac{1}{2}\) for over Saturday at $11.005(11.02\(\frac{1}{2}\) for m $16.92\(\frac{1}{2}\) for $6.07\(\frac{1}{2}\) and May ribs from $6.00 to $6.02\(\frac{1}{2}\) for $6.00\(\frac{1}{2}\) with the close $2\(\frac{1}{2}\) c improved at $6.07\(\frac{1}{2}\) and May ribs from $6.00 to $6.02\(\frac{1}{2}\) for $6.00\(\frac{1}{2}\) for $6.00\(\frac{1}{2$

MOVEMENTS OF STOCKS AND BONDS. Outside Public Still Refuses to Mau-

NEW YORK, Feb 19.—The outside public still refused to manifest any interest in the stock market today and operations continued wholly in the hands of professional traders. This element made an attempt to force a continuance of last week's reaction, using as their main argument the drain being made upon the cash resource of the banks. The statement of the subof the banks. The statement of the sub-treasury operations showed a loss already since Friday to that institution of \$1.421.000. This showing helped the bears in an earry raid on the market, which wiped out the opening gains and carried prices generally below Saturday's closing trading. One or two stocks suffered from individual causes and helped on the reaching. Partille Mail. and helped on the reaction. Pacific Mail. People's Gas and Third Avenue showed continued weakness and Pennsylvania was continued weakness and Fennsylvania was depressed on reports of a new car trust involving many militon dollars. The bears did not succeed in bringing out any large offerings and were driven to cover on the development of aggressive strength in sev-eral stocks, including Sugar, Rubber, Chi-cago, Indianapolis & Louisville, Tobacco, General Electric, Lackawanna and Third

The most potent factor in the rally was The most potent factor in the raily was the large increase in carnings for the second week in February shown by a number of railroads. Norfolk & Western made the most striking exhibit, with an increase over the corresponding period of last year of \$132,558, which is nearly 96 per cent. This resulted in a large absorption of the stock at an extreme advance of 2% and had a sympathetic effect on all the bituminous coal-carrying roads, contributing to the raily in Pennsylvania and Battimore & Ohlo, Toledo & Ohio Central showed an increase in carnings of 75 per cent for the Ohlo. Toledo & Ohlo Central showed an increase in earnings of 75 per cent for the second week in February. These evidences of the large demand for bituminous contwers coupled with reports of increasing use of anthracite in steam production because of difficulty in obtaining soft coal. The anthracite group showed the effect of this influence and of published forecasts of the annual statement of Lackawanna, which is to be published tomorrow, intimating a high percentage of carnings for the year.

which is to be published tomarrow, hit mating a high percentage of carnings for the year.

In addition Ontario & Western showed an increase of 14 per cent in earnings for the week. In the southern group Louisville & Nashville made a showing for the week which was 54 per cent better than that of last year, the increase in gross amounting to \$185,345. All the returns received show striking gains, though those enumerated are the largest. The cotton-carrying roads especially showed recovery from the recent low level of earnings and were advanced in price in consequence.

The tonic effect of these extraordinary earnings proved too much for the bears and they were forced to cover. The continued ease of call money, which ranged from 2 to 2½ per cent, neutralized the alarmist view of the money market outlook. Some slight effect was produced also by the reports of further British successes. by the reports of further British successes in South Africa. Eric Telephone rose buoy-antly some 8 points. Dealings were not on a large scale and the market fell dull before the close, but held quite firm near the top.

Business in bonds showed some falling off in volume and price changes were mixed. Total sales, par value, \$1.55,000. United States old 4s and 5s advanced 4s and the 2s He; February, 35c; May, 35c/36343c; 34%c.

HOGS-Today's market was 507% higher than on Saturday, but it was not particu-

larly active at the advance. The receipts consisted of only twenty-seven cars, which were not enough to interest buyers very much, and at the same time sellers were holding on for pretty stiff prices, so that the hogs did not sell cuite as quickly as they might otherwise, still most everything was sold and weighed up at an early hour. The market closed weak. The general run of good mixed logs sold at \$4.50\c, with some of the better loads at \$4.50\c, and a top at \$4.00\c, on Saturday the hogs sold very largely at \$4.50\c, 1.73\c, with a top at \$4.824\c. It will be noted from the table of average prices above that the week starts out with the market 23-245\c, ligher than it was one week ago and 174-5120\c, higher than two weeks ago.
