If you read the papers you are no doubt aware that things are costing more now than they have for some years past. The cause of this does not matter so much as the fact that we have to pay more for every article, even the cheaper grades. We have been advised to advance all prices, while the factories advance, and while it may appear

poor business not to do so, we have not vet done so.

We have large supplies on hand bought several months ago, and can therefore make you prices that we know are right. The styles are right, workmanship right and if you are ever dissatisfied with anything you get here, come in and we will gladly meet your views in all and every case.
