The democratic caucuses last night resulted in a signal victory for Mayor Jennings despite the fight put up in most of the precincts by ex-Chief of Police Frank Bixby and his coterie of followers. The Bixbyites were completely routed and they failed to secure a single delegation, Mayor Jennings even winning out in Bixby's own precinct. It now looks as if Mayor Jennings will go into the democratic convention to morrow night with the support of practically every one of the fifty-four delegates.

The principal fight made by the Bixbyites was in the First, Third and Fifth wards and in those precincts a comparatively large vote was cast. In the Second and the Fourth wards Jennings had everything his own way, while in the First precinct of the Sixth Ward the opposition made something of a fight, but not sufficient to at any time cause any alarm among the supporters of Jennings.

SALOON WAR AT CEDAR RAPIDS. Prohibitionists Will Fight the Secur-

ing of New Consent Petition. CEDAR RAPIDS, Ia., March 5 .- (Special.)

-This city is just now in the throes of the bitterest saloon war ever known in the city. At the recent decision of the supreme court, holding that the present petitions of consent were invalid and that new petitions would be n reessary in order to permit the saloon men to reap the benefits of that law, the prohibition element, which is quite strong, was thoroughly aroused and a powerful organization has been perfected to prevent the securing of another petition of consent. The salcon men will commence tomorrow on the work f securing a new petition and declare they will have little trouble in securing 50 per toms. cent of the voters. In accordance with a lemand made by the prohibitionists they have agreed to close their saloons and keep them closed from the time they commence ompleted it. Otherwise, the prohibitionlets announce they will at once begin prosecutions against the saloon men and that they will push the same in the courts. The saloon men, with a desire to avoid prosecutions, will not break their pledge.

"I have tried fattening every kind of poultry," said Mr. Loomis, "and I have never had any success with anything but ducks. Just before the holidays I tried to fatten 5,000 chickens. They were bought from farmers in all parts of the country. We put them into a large enclosure and tempted them with feed by the barrel. It did not require long to see that they were shrinking every day. I soon found that they would not cat food that was greedily devoured while on the farm. Most of their time was spent on the roosts. The hone would not come down and the roosters were engaged in constant fight. The result was I lost a nice bunch of money on them. Then I tried turkeys. The result was just as disastrous.
