comptroller and tax commissioner. At Jacksonian headquarters it was early conceded that Moore had carried the city by at least 500.

A large crowd filled the headquarters room of the County Democracy all evening and the conversation showed that they had given up hope of carrying the city with the returns from the first dozen precincts to report.

At 9 o'clock Chairman Gilbert of the committee said: "Things might be looking better, but we will concede nothing as yet; we have made gains in the Second ward and it is too early to tell the result. We are still counting the vote and will continue until the last precinct is in."

An effort was made at 11 o'clock last night to secure another statement from Chairman Gilbert of the democratic committee, but at the headquarters it was stated that he had sickened of hearing the returns and had gone home.

At republican headquarters a crowd of exuberant republicans congratulated one another. Chairman Allan was particularly gratified. The Bee office, too, was overrun with smiling republicans eager for election details.

ONE BOY KILLED BY SUCH PRACTICES

Case Brought to the Attention of the Prussian Diet—Proceedings Are Instituted Against the Professor.

BERLIN, March 6.—In the Prussian Diet today Baron von Pappenheim brought up the case of Prof. Neisser of Breslau, who he alleged, had vaccinated persons with syphilis serum, experimentally, in order to establish immunity.

The experiments, he said, had been made on adults and children. He sharply arraigned the medical profession generally for experimenting on human subjects, mentioning the case of a boy who had been killed as the result of such practices.

Representative members of all the other parties in the chamber endorsed the views expressed by Baron von Pappenheim. Prof. Virchow, however, took the position that Prof. Neisser only went too far in vaccinating persons without their consent.

Dr. Althoff, director of the ministry of education and worship, said Prof. Neisser's case was referred to the state's attorney for prosecution and soon after he was informed of what he had done, but after investigation the state's attorney had decided that the prosecution was barred by the statute of limitation.

LORD PAUNCEFOTE REMAINS English Government Decides to Keep the Ambassador at Washington.

LONDON, March 6.—6:07 p. m.—The Associated Press learns that the British government has decided that Lord Paunceforte will remain as ambassador at Washington indefinitely.

The decision to retain Lord Paunceforte as British minister to the United States is chiefly due to the unanimous declarations of the British press in favor of such a step, and although Lord Salisbury, previous to last Friday, had not considered the further prolonging of Lord Paunceforte's term, he apparently became so much impressed with the strength of the arguments regarding the ambassador's acute knowledge of the matters pending between the two nations that he asked him to do so to do so for a number of years.

No definite period was mentioned by Lord Salisbury, so it is probable that the dean of the diplomatic corps will not leave Washington this year, at any rate, at the end of which time the British government hopes for a settlement of the various controversies.

The Associated Press is informed that no communications of any kind have passed between the two governments in regard to Lord Paunceforte and that not even any unofficial intimation was given to Lord Salisbury by any representative of the United States that Lord Paunceforte's retention would be acceptable to the American administration.

WASHINGTON, March 6.—Lord Paunceforte today received a cablegram from Lord Salisbury notifying him that his retention would be continued at this important diplomatic post for the present at least. Reference was made to the pendency in the United States Senate of the Hay-Paunceforte treaty and of several other issues of great importance of which the present ambassador is in the forefront.

Just how many special deputies Sheriff Power had placed in this work, something hitherto unknown in elections in this city, but when The Bee submitted the inquiry to the sheriff he absolutely and peremptorily declined to state. He was asked for a list of the deputies employed, but declined to furnish it. Neither would he furnish The Bee with a copy of the oath administered to him, which is said in the obligation to bind the men appointed not to look the country over for any compensation for their rights, but on the contrary to look to the democratic committee for pay.

The great commotion raised by the Fekery about a large illegal registration was easily recognized as the initial step in a wholesale effort to carry on a wholesale intimidation of republican voters in the wards in which laboring men reside, a design unerringly proved by the fact that after all the bluster and bluff only two arrests were made, one of a man who has been in the city for over a year, and the other of a man who has lived in the city for about fourteen years.

This is the pitiable grip which required the entire regular force of the sheriff's office, an unknown number of special deputies and the united efforts of the poperic committee and their organ to get to the mill. But, while few arrests were made, it is probable that many ignorant voters, frightened by the threats of arrest from castles, their ballots or going near the polls.

Congressman Harmer Dies "Father of the House" Succumbs After a Long Illness at Philadelphia.

PHILADELPHIA, March 6.—Congressman Alfred C. Harmer of the Fifth Pennsylvania district, the "father of the house," died tonight at his home in Germantown, a suburb of this city. Harmer had been ill since last November, when he was stricken with a severe attack of kidney trouble. He recovered sufficiently to attend the opening of congress in December, but later was again confined to his bed. A few days ago he suffered a relapse and finally died this evening, when he died, surrounded by his wife, three sons and two daughters.
