In his pursuit he has ridden his horse through the whole of northwestern Nebraska, and has enjoyed many stirring adventures. He is the only man in the state today who makes his living regularly by slaying wild beasts. This class of men has been regularly disappearing from this state, driven further west by the advance of civilization. Trapping used to furnish occupation for a large number on the streams of the western part of the state, but all of that numerous class of dare-devils have been swent further into the mountain fastnesses by the farmer and stockman. Popular Judge Caldwell is Smooth-Faced Now. The newspaper pictures which have given Judge Caldwell of Arkansas a luxuriant growth of populist whiskers have had their inspiration in the sense of propriety of the enterprising artists, says a Washington let-ter. Because the populists, or some of them, have announced their intention to select Judge Caldwell as Bryan's running mate, the artists take it for granted that he must necessarily be one of the whiskered variety. Efficacy of Cuticura.

I was a sufferer for eight years from that most distressing of all diseases, Eczema. I tried some of the best physicians in the country, but they did me

little good. The palms of my hands were cov- " ered, and would become inflamed; little white blisters at first would appear, then they would peel off, leaving a red, smooth surface which would burn like fire, and itch; well, there is no name for it. On the inside of the upper part of both my limbs, great red blotches, not unlike hives, would appear, and as soon as I became warm, the burning and itching would begin. Night after night I would lie awake all night and scratch and almost go wild. I got a box of CUTICURA Ointment, a bottle of CUTICURA RESOLVENT, and gave them a thorough trial,

and after a few applications I noticed the redness and inflammation disappear; before I had used one box there was not a sign of Eczema left. I can truthfully assert that \$2.00 worth of CUTICURA REMEDIES cured me.
