Corn Pit Causes Big Sensation of the Day.

COARSE CEREAL TAKES FRANTIC JUMPS

Fortunes Are Made and Lost in the Wild Seramble-Other Markets Are Dominated by the Strength in Corn.

Corp took the lend of the speculative ensational day. Interest in the coarse ereal has not been so general in years as real has not been so general in years as ern, at mark, translation was today. Predictions were made that 13%@14%c. RICE—Firm; domestic, fair to extra, 4%@1 market would follow cotton and "go within a short time, basing the pre-

wild" within a short time, basing the predictions on the chances of unfavorable conditions during the planting season.

The greater part of the session the pit was a stringgling mass of frantic men, none more frantic than the shorts, who were compelled to cover at heavy losses. Fortunes were made and lost in that wild scramble for the cereal, which the statisties showed was getting rather scarcer in many sections. May opened \$20\sections over the same and the statistics showed with the statistics showed with sections. The government report, which seemed to be the market, showed \$7.000.000 hushels less in farmer's hands than there was a year ago. The quantity on occan passage decreased \$200.000 bushels and is now down to \$343.000 bushels. The visible increased over 1.000.000 bushels. hushels. The visible increased over 1,000,000 hushels but the supply is now 21,060,000 compared with 34,032,000 a year ago. The world's shipments were small and Liverpaol was up 3d. This array of information furnished the stimulus for the initial gain and the awakening of shorts and others. The price till thoclock did not vary much from opening figures. Then it began to shoot up. Nothing could stop it, apparently, and as the anxious shorts bid higher and higher men in other pits quit their work to look on, if not to participate. The demand seemed limitless, although the advance carried the cash article out of line with the export bids. May touched 35% 53% on the bulge and closed 1% cover Saturday at 37% 18c. Receipts here were pas cars and at primary points 75,000 bushels, against 515,000 a year ago. The visible increased over 1,000,000

The corn market began to move upward rom 20'-c about four months ago. It betuated narrowly for weeks, gaining a oft all the time until ten days ago it eached 343.c. Saturday the close was at se for May.
wheat market was dominated by the The wheat market was dominated by the corn strength. The statistics were bearish. There was a large increase in the world's shipments and on passage and receipts were heavy. Cables were steady, making about the lonly independent support the market had, throughout a session, when it was drowned out of the commercial orchestra by the noise in the corn pit. The cash demand was checked by the advance and altogether the trade was not important, being merely a feeble reflection of the corn market. Primary receipts were \$87,000 bushels, compared with \$68,000 last year. Mimeapoils and Duluth reported \$92 cars, against 737 cars last week and 557 a year ago. Local receipts were \$5 cars, 1 of contract grade. Atlantic port clearances in wheat and flour were equal to \$28,000 bushels. New York reported 10 loads taken for export. May opened unchanged at \$55% with corn, closing %c over Saturday at \$644 https://doi.org/10.1000/10.1000.

The trade in oats was not important, but the market was helped by the corn strength. Receipts here were 380 cars. May ranged from 23%c to 24c and closed 142%c higher at 24c. trength. with the enactment of the new currency law, which is to be sent to the president tomorrow.

There were occasional periods of duliness in the market apparently with a view to testing it. The quick subsidence of activity without any reaction in prices and the firmness of the resistance to decline confirmed the confidence of the bulls and started prices upward again. The closing was quite active and strong near the top level. Net gains in the principal active industrials and specialities including Sugar, Tobacco, People's Gas, Anaconda, the iron and steel stocks and the New York public utilities ranged from 2 to over 4 points, the latter in Sugar. In the railroad list St. Paul was the leader both in point of activity and strength, rising an extreme 24. The other grangers, the southwesterns and a number of the trunk lines and southern railroads gained a point or over.

A feature of the trading was the number of three-day contracts recorded on the tape, indicating the anticipation of casier money with the operation of the new financial bill. There was a generous sprinkling of transactions in fractional lots all through the list, indicating an investment demand which had no small part in the feeling of confidence evinced by the speculative contingent.

A background of strength to the whole market was afforded by the large absorption of railroad bonds, especially those of the higher grade. This must undoubtedly be attributed to the pressure for reinvestment of funds which have been realized by

the higher grade. This must undoubtedly be attributed to the pressure for reinvestment of funds which have been realized by investors who have sold government bonds at the high prices prevailing, the banks buying them to use for security for circulation. It seems to escape notice that this is in a measure an anticipatory employment of the extended circulation, since the capital of the national banks, which has gone for the payment of these bonds, looks to banknote issues for its release and re-employment. London was a liberal buyer of stocks in this market and considerable sentimental influence was exerted by the large subsortptions reported to be made in New York to the new British loan. It is argued that those subscriptions indiby the large subscriptions reported to be made in New York to the new British loan. It is argued that those subscriptions indicate an abundance of capital and they will represent also a quickly convertible foreign credit upon which the country can draw in case of need in the money market. Reports of railroad earnings for the first week in March were encouraging. A good effect was produced also by the statement of exports for February of agricultural products, the large increase in value of cotton exports for the month giving it the record for February.

The bond market was active and strong throughout. Total sales, par value, \$2,26,-00. United States 3s. coupon, and new 4s. registered, declined \$5, st. coupon, \$5 and the old 4s \$5 in the bid price.

The Commercial Advertiser's London financial cablegram says: There was a happy tone to the market here today and light increase in business for the new account, but speculation did not develop as was expected, but contangoes were rather stiffer, indicating that speculation is increasing. Interest is now centered in the war loan, which has already been subscribed twenty times over. The London list was closed today, but this has not yet been authoritatively ennounced. The premium fluctuated today between 2% and 2%, clesing at 2%. Consols ranged between 101% and 101%, closing at 1017-18. Americans opened strong and kept firm. Business in them was brisker than for some time. New York offered support and expecially in St. Paul and Atchison and the closing was cheerful at the top. The contango in this department was 565% and the account was increased. Both London and New York bought Anacondas strongly all day, but there was no explanation of the movement. Tintos also went up on French buying. The bank received £124,000 from Holland and bought £29,000 in bars. Call and time money were in strong demand, all loans due the bank were renewed and a very large fresh loan and discount business was done, estimated at £1,500.00, on a searcity of funds, due to war loan deposits.

Th t is argued that those subscriptions indi

Wool Market.

LONDON, March 12.—WOOL.—The wool sales were continued today, with offerings of 9.4% bales. Prices for good wools showed a small improvement and a large quantity of Queensland Geelong merinos were in demand. The American buyers purchased the best Geelong clipped. Cross-breeds were fairly represented, the home trade taking the bulk. New clipped Punta Arenas in good condition showed a small decline under the December rates. The catalogue offered was moderate and the attendance good. The French and German huyers secured the most of the merinos. The following is the sale in detail: New South Wales, 2.100 bales; scoured, is 4½d@ is 11½d; greasy, 7d@1s 2d. Queensland, 900 bales; scoured, is 7½d@1s 1½d; greasy, 9½d @1s. HOGS-There was a fair run of hogs for the first day of the week, but of the number reported in there were nine double-decks from Sloux City direct to a packer. The market was a shade higher than on Saturday. The demand was good, but sellers had their ideas pretty high and were holding on for every cent that there was in it, so that the movement was not very active. Still everything was disposed

of in good season. The hogs sold very largely at \$1.75, while on Saturday the long string brought \$4.70g4.72\(\frac{1}{2}\).
