

YEAR IS A PROSPEROUS ONE

Annual Report of Missouri Pacific Encouraging and Satisfactory.

NET EARNINGS CONSIDERABLY INCREASED

Increases in Freight and Passenger Business Over Preceding Year—Comparison of Travel to Omaha Exposition.

The nineteenth annual report of the Missouri Pacific Railroad company for the year ending December 31, 1899, which has just been submitted to the directors and stockholders, is encouraging in every particular. The satisfactory condition of affairs for the year covered by the report can readily be appreciated when a comparison with the year preceding is made. It shows that gross earnings were increased 1 per cent, operating expenses 2.4 per cent and the net earnings increased 11.6 per cent, with an increase of 9 per cent in the passengers and 8.2 per cent in the tons of freight carried.

Table with financial data: Total income, Charges against income, Interest accrued on bonds, Taxes, Rentals paid, Sundry amounts, Total charges, Surplus available, Dividends paid, Net surplus, Per cent of expenses to gross earnings, Comparison with the report of 1898 shows the following increases: Gross earnings, Operating expenses, Net earnings, Total income, Interest accrued on bonds, Taxes, Sundry charges against income, Dividend paid.

The only decreases are as follows: surplus available, \$23,227.78; net surplus, \$538,573.28; and a decrease of 1.8 per cent in the per cent of expenses to gross earnings. Vice President Warner says in the report: "The property has been well maintained and improved during the last year. With the general activity in industrial pursuits during the year there has been an increased demand for labor and material entering into the operation and maintenance of the properties, which has resulted in raising cost of same, tending to increase the expense of operation. Ninety-seven locomotives were rebuilt, as against eighty last year, at an increased cost of \$83,280.00.

In discussing the passenger situation, Vice President Warner says: "Passenger traffic has increased in a direct ratio with the advancing prosperity of the country; the volume of travel has also continued on account of activity in military matters and the year, as a whole, has been the most favorable one for passenger traffic, it being, however, unfortunately that full benefit of the increased travel could not have been enjoyed at normal rates, revenue having been depleted by complications in various directions. Omaha Exposition Travel. In 1898, on account of the Transmississippi Exposition at Omaha, the local passenger business amounted to 102,558 passengers carried, revenue amounting to \$130,487.25; while in 1899 only 12,706 passengers were carried to the Omaha exposition, the revenue received being \$10,909.95, a decrease in local passengers of 89,852 and in revenue of \$119,577.25. Something like \$30,000 was earned in 1898 in interline business to the exposition, while there was practically no interline business in 1899. The decrease in the passenger revenue from the exposition decreased the revenue in 1899 about \$150,000 as against the previous year." Despite this decrease the Missouri Pacific in 1899 carried 4,250,046 passengers, an increase over 1898 of 351,237.

Discussing the freight business, Vice President Warner mentions the celebrated controversy over packing house products to the southeast waged between Omaha and Kansas City roads last year as follows: "Freight traffic operations for 1899 show 775,157 tons carried in excess of last year. Packing house product shipments decreased 36,067 tons on the Missouri Pacific and 11,940 tons on the Iron Mountain, largely due to excessively low rates quoted by competing lines on export provisions, rendering its transportation of doubtful advantage. Disturbed rate conditions temporarily forced the schedule on this commodity to such abnormally unremunerative figures that it was considered prudent to withdraw for a time from the market."

New equipment was purchased during the year at a cost of \$1,685,152.20, as follows: 2,000 box cars, ten locomotives, one plow car, one passenger coach, one official car. ILLINOIS CENTRAL MEN GO WEST. Appointees for New Western Agencies. Captain J. P. Merry of Dubuque, assistant general passenger agent of the Illinois Central, was in the city yesterday. "Passenger traffic on our new Omaha line is much more satisfactory than we anticipated," said Captain Merry enthusiastically. "Business westbound is especially good and we are encouraged to believe that eastbound business will gradually be increased, especially when our new commercial agents get located in the western cities to which they have been appointed."

Wyoming Railroad Prospects. EVANSTON, Wyo., March 20. (Special.)—A large party of Burlington surveyors is in the field south of Evanston running lines for the extension from Gurneys to Salt Lake City. It is said that the entire line has been surveyed from Gurneys to this place, and now the increasing distance, Evanston to the Mormon capital, is being made ready for the graders. The surveyors have not yet decided which route they take from here west. One report has it that the road will be run through Ogden canyon, and another says it will pass through Red canyon.

Colonist Rates Abolished. The abolishment of colonist rates from the Missouri river to Portland and the substitution thereof of the regular tariff rates as determined upon by the presidents of western roads at their New York conference, went into effect yesterday and the former rate of \$25 has been displaced by a rate \$15 higher. Travel from Omaha to the northwest was noticeably lively on the morning trains, many passengers going through from Chicago and eastern points who had purchased their tickets early enough to secure advantage of the colonist rates.

Railroad Sale Approved. KANSAS CITY, March 20.—The sale of the Kansas City, Pittsburg & Gulf railroad to The Arkansas Construction company through

The reorganization committee was approved today by Judge Amos A. Thayer and Judge John F. Phillips, sitting in the federal court. T. E. Hill of New York and S. B. Ladd of this city protested against the confirmation of the sale, but was denied even the right to file a petition to intervene in the receivership case. The attorneys will appeal to the United States supreme court in behalf of the Arkansas Construction company, which has claims against the Kansas City, Pittsburg & Gulf for construction work amounting to more than \$2,500,000.

Railway Notes and Personalities. General Passenger Agent Francis of the Burlington is in Denver. General Agent Kuhn of the Northwestern is absent on a business trip in the west. W. H. Brillwell of Popka, general superintendent of the Rock Island west of the Missouri river, is an Omaha visitor.

HOW IT WILL AFFECT OMAHA

General Machinists' Strike in this City Will Put Nearly 2,000 Men Out of Work.

Local labor leaders are discussing the probable effect of the proposed general strike which will be ordered by the executive committee of the Machinists' union. "The general strike will not be ordered at all points at the same time," said the secretary of the Central Labor union, "but will probably be ordered first at those points where it will do the most to cripple the Chicago contractors, at Cleveland or Toledo, the belt affected by growing larger as the necessity of the fight at Chicago demands until it covers the whole country. So far we have had no communication on the subject from the general officers, but we expect to get some word from them at any time." In speaking of the trades and workmen of Omaha who would be involved in such a strike were ordered in this city, those familiar with the condition placed the number who would be directly affected at between 1,700 and 1,800, with at least five times that number who would be indirectly affected. In an indirect manner the trades directly interested besides the machinists would be the boiler makers, moulders, carbuilders, woodworkers, carpenters and laborers in the yards of the railroads. A strike at this time, it is said, would be a hard blow to the workmen of Omaha, who are generally well employed at good wages and who are looking forward to one of the most prosperous years in the history of the city.

Mrs. Calvin Zimmerman, Millsburg, Pa., says, "As a speedy cure for coughs, colds, croup and sore throat One Minute Cough Cure is unequalled. It is pleasant for children to take. I heartily recommend it to mothers." It is the only harmless remedy that produces immediate results. It cures bronchitis, pneumonia, grippe and throat and lung diseases. It will prevent consumption.
