WASHINGTON, March 20 .- When the house met today Hull of Iowa, chairman of the committee on military affairs, reported back from that committee the following the ground that the state senate passed fa- ticularly with the United States officials resolution introduced by Sulzer of New York:

"Resolved, That the secretary of war is hereby directed to inform the house of rep recentatives as early as possible what forti fications Great Britain is creeting, construct ing and completing along the northern frontier of the United States, especially at Puget sound and other places on the Pacific ocean contiguous to the state of Washington and the district of Alaska."

The committee recommended that it lie upon the table. The resolution had been referred to the War department, Hull said, and came back with the following endorsement:

"The information the department possesses on this and like cases has always been held to be confidential and for good and sufficient reasons has not been made public.

"It is remarked, however, that Great Britain, so far as the department is informed, is in no instance erecting fortifications tres- sonal, conveyed in the mortgage or pledge, passing on our rights.
