

MAYOR READS HIS MESSAGE

Chief Executive Outlines Duties Which Confront the New Council.

COMMITTEES ARE NAMED FOR THREE YEARS

First Step is Taken Toward the Repeal of the Bicycle Lamp Ordinance.

The newly elected council held its first regular meeting Tuesday night with President Carr in the chair. The first business of importance was the reading of the mayor's address, which was as follows: To the Honorable the City Council of the City of Omaha, Gentlemen:—By the complimentary suffrage of our fellow-citizens we have been called to occupy positions of important trust and high honor to the city council and I to serve for another term as chief executive of our city. We have passed through an election contest waged with more than usual zeal and characterized indeed with arduous bitterness. To all contestants has come a cooling time and certainly those of us who have won the battles to have no room for ill-will or animosity. So far as I am concerned, while regretting that partisan zeal or personal antagonism should have prompted continuous bitter and libelous attacks upon myself, I have no ill-will or resentment of ill-will which will in any manner influence me in my official actions or prevent me from doing my full duty and requiring the enforcement of law without fear, favor or partiality. To enter in this contest I have probably made my full share of mistakes. I am frank to admit, but during the bitter political contest I have never been the least bit concerned with the public welfare and morals that personal enemies and politicians have endeavored to make my country with which I was treated by my distinguished opponents and my knowledge my high appreciation of the complimentary vote I received for a second term as mayor of Omaha.

Officials Are Not Partisans.

In our official capacity we who have won in this contest are neither republicans, democrats nor partisans. We are the people, bound by our oaths and our honor to do everything in our power to promote the substantial interests of our city, moving our great charge along the paths of economical prosperity and assured morality. Such property can best be induced by a careful husbanding of all resources, an economical management of municipal finances and an honest performance of every duty, such moral can best be secured by the reasonable enforcement of obedience to the law, the control and regulation of the vicious and the maintenance of the public order. It is no small thing to be thus entrusted with vast public interests and to be called upon to direct a great corporation, in which every taxpayer is a stockholder, vitally interested in the honest, economical and judicious management of the affairs of the city. They have the right to expect that we will give our best and our undivided attention to the performance of our respective positions.

Important Issues at Stake.

As we stand at the threshold of this new term, we are confronted with unusual responsibilities. A large amount of public work, under contract, remains to be done, such as the completion of the sewer, water, gas, and electric lines, and the construction of the new city hall. The city is also faced with the question of the water works, which is one of the most important of our public utilities. The city has also a large amount of property to be disposed of, and the city council has the honor to be called upon to make a decision upon the same. The city is also faced with the question of the water works, which is one of the most important of our public utilities. The city has also a large amount of property to be disposed of, and the city council has the honor to be called upon to make a decision upon the same.

Each Bond Should Be Balanced.

One of the first matters which should receive the consideration of your honorable body is the condition of the finances of the city. The extent and nature of the outstanding obligations of the city should be carefully considered and all necessary steps should be taken to maintain the credit of the city and to provide for the outstanding obligations of the city. It is suggested that the city should issue bonds in such a manner that each bond should be balanced by a corresponding asset. This would ensure that the city is not overburdened with debt and that the public interest is protected.

Hotels Buy "Scrap Iron"

Hotels Buy "Scrap Iron" - Upon advice received from the police of Kansas City several of the principal hotels of Omaha have been warned against two confidence men who are said to have worked upon the hostesses of the Kaw city a new business house in Kansas City, introduced the trick by asking the clerks of the hotels to change silver money for bills. They had three packages of coins wrapped in paper, each package bearing its own name and address, "E. J. Johnson, 715 Walnut street." One package contained \$5 in quarters, another \$10 in halves and a third \$20 in dollars. This request was repeated every day for a week. Each day the hotel clerks would open the package and count the money before passing over the bills. Finally, however, the "con man" made a point to call at a very busy time. They submitted the packages marked with red ink in the usual way, but the clerks hadn't time to investigate, so they gave the bills without opening the parcels. Later on it was discovered that the packages contained round iron disks. The Kansas City hotels are reported to have lost \$250 in this way.

Dr. RYAN WRITES ADVISELY ABOUT A CERTAIN TONIC.

Dr. RYAN WRITES ADVISELY ABOUT A CERTAIN TONIC. WHITE CROSS MEDICAL WORKS, Chicago Opera House Bldg., Chicago, Feb. 6, 1890. Val. Blatt Brewery Co., Milwaukee. GENTLEMEN:—In regard to your inquiry as to results obtained from the use of your MALT-VIVINE, in the several hundred cases where I have used it as an adjunct in the treatment of Typhoid fever, Pulmonary tuberculosis, Anemia, General debility, etc., will say that it is invariably proven to be of the greatest benefit and as a tonic, tissue builder and general reconstructive. I can and do most earnestly recommend it to my brother physicians and the public at large. Respectfully, T. HENRY RYAN, M. D.

BLATZ MALT-VIVINE

BLATZ MALT-VIVINE (Non-Intoxicant) MAY BE OBTAINED FROM ALL DRUGGISTS

working together with splendid efficiency for the good of the city.

Plans of Designating Politicians.

I regret very much that scheming politicians should have determined to gain control of the city government. I do not believe that the supreme court of Nebraska will be willing to trample upon the law and deny to the city of Omaha the inalienable right of self-government and to elect its own officers in the fire and police departments of the city of Omaha. The Board of Fire and Police Commissioners, however, is composed of members who have resided in Omaha for many years and who have the interests of the city at heart. They will not be moved by partisan motives, but will do all in their power to advance the efficiency of the departments under their charge without regard to partisan interests. I have no objection to the members of this board and I trust that they will serve the public as faithfully as have their predecessors in office.

Appointment of Committees.

The chair then announced the committees to act during the ensuing three years: Judiciary—Haskell, Mount, Whitcomb, Zimman, Burkle, finance—Mount, Whitehorn, Burkle, paving—Zimman, Mount, Carr, street improvements and viaducts—Hoye, Lobeck, Tristler; fire, water and police—Karr, Haskell and Hoye; street lighting—Trotter, Haskell and Whitehorn; public buildings and bridges—Lobeck, Hoye and Zimman; rules—Burkle, Mount and Lobeck. The proceedings were interrupted briefly by the presentation of another large bunch of roses to President Carr. The card bore the compliments of Julius S. Tooley and other republicans. Harry Zimman's desk was also decorated with a large floral tribute presented by citizens of the Third ward to the "Baby of the Ticket." The exchange of a few complimentary sentences followed the presentation.

Repeal of Bicycle Ordinance.

An ordinance was introduced by Lobeck and read for the first and second times providing for the repeal of the bicycle ordinance. The ordinance in question provides that owners of bicycles, tricycles, velocipedes, etc., must attach a lamp to their vehicles after dark. The repealing ordinance is introduced in response to the general demand of bicycle owners. The city engineer has had opened bills for the sale of \$25,000 in paving bonds, as required by ordinance, and found only one proposal, that of T. E. Price for \$600. He advised that Price's guaranty check be returned and some other arrangement be made for the disposal of the bonds. In this connection an offer was made by George & Co. of this city to purchase the whole issue at 4 per cent instead of 3 1/2 and the denominations raised from \$50 to \$1,000. The matter was referred to the finance committee.

Payments Must Be Repaired.

The condition of Sixteenth street from Douglas street to Cuming was the subject of a brief discussion. It was pointed out that the pavement is full of dangerous holes and that no contractor is willing to make the necessary repairs. The city engineer reported that the Kingman Implement company a permit for an elevated sidewalk in front of its proposed warehouse. It was claimed that irreparable damage would be done by adjoining property out of proportion to the benefit conferred on the Kingman company. An ordinance was later read for the first and second times granting the implement company the desired privilege and the two documents were referred to the committee on streets and viaducts.

Gordon Scores a Point.

A concurrent resolution was introduced allowing the claim of Police Judge Gordon for \$1,300 for each of the years 1898 and 1899, the amount being for salary not previously considered his due. The matter was referred to finance and claims. Mayor Moore, acting as mayor, returned without his approval the resolution granting to J. A. Beverly \$300 for services alleged to have been rendered the city while Beverly was attending the state legislature. The veto was sustained. Mayor Moore vetoed the ordinance providing for the condemnation of property for the opening of Browne street from Twenty-fourth street west. He took the position that the appraisal was void, inasmuch as St. A. D. Balcombe, one of the appraisers, was not present at the session of the board. The veto was sustained and another ordinance was introduced providing for the appointment of new appraisers.

Teeth Made from Paper.

Teeth of paper made at least in dentistry. By a peculiar process they are rendered better than any other material. Paper teeth may be fine, but we will venture that most people prefer their own, and this may be accomplished by keeping the stomach healthy with Hostetter's Stomach Bitters. The condition of the stomach invariably affects the teeth. The Bitters will strengthen your stomach, cure dyspepsia and biliousness.

COMMERCIAL CLUB BANQUET

Another of These Pleasant Functions Enjoyed by Omaha Business Men.

IRRIGATION AND CORNMEAL DISCUSSED

Endorsement of Bill Pending in Congress for Appropriation to Reclaim Western Arid Lands by Irrigation.

Omaha business men, after partaking of one of the usually successful banquets given in the Commercial club, entertained the members of the Commercial club on Tuesday evening. The subject of the evening was irrigation and cornmeal. The banquet was given in the dining room of the Commercial club Tuesday night. The reclamation of the arid lands of the west by means of irrigation and the propagation of corn and other crops in arid sections were the subjects under consideration. W. D. McHugh acted as toastmaster and introduced as the first speaker Hon. George R. Maxwell of Chicago, executive chairman of the National Irrigation association. Mr. Maxwell's subject was "The Greater West." In part, he said: "Omaha is the center of the United States in geographical location, but is on the extreme western edge in point of population. If the waters that run waste in winter floods and are lost in the evaporation of the western half of the United States would support a larger population than the whole United States contains today. The last census showed a population of 58,000,000 in the eastern half of the United States and only 4,900,000 in the western half. "The future development of this country depends upon the development of the country that lies to the west, and this is impossible unless we harness the rivers and carry their waters to the arid lands that they may produce crops to be turned into wealth for the country. "The necessity of irrigation. The speaker then took up the irrigation question, showing how necessary it is that the government encourage western irrigation by providing funds for its institution on a scale necessary to insure ultimate success. He mentioned the fact that the government provides levees to protect the land on the southern Mississippi river banks from overflow and asked why it would not be equally as constitutional for the government to adopt a similar practice with regard to the vast quantities of water that go to waste every winter in the western states by overflowing summer reservoirs for their retention until summer droughts made necessary their distribution. He asserted that the government should be equally obligated to protect western crops from droughts as it is to protect southern crops from overflow. "The government," he said, "owns one-third of the area of the United States. Of this great area, aggregating 640,000,000 acres, 100,000,000 acres are capable of reclamation by irrigation. This vast territory lies right west from this city. Omaha is now the central gateway and always will be. The increased population of the west must be tributary to Omaha. Upon the business and commercial men of this city the responsibility of providing the means for settlement of this territory is especially incumbent. "The argument advanced by Mr. Maxwell for bringing about the desired ends he summed up thus, briefly: "Let the government build the storage reservoirs and the main line canals, and let the settlers build the smaller distributing systems, by banding themselves together in co-operative organizations." Mr. Maxwell denounced the water right and irrigation district systems as being failures and impracticable. "Storage Reservoirs. Captain Chittenden of Sioux City, who represents the United States government engineering department, was expected to respond to the toast, "Storage Reservoirs." He was unable to be present, and accompanying his regrets forwarded a letter on the subject, which was read by F. E. Sargent, Captain Chittenden stated that in the last twenty-four years the government has spent upwards of \$11,000,000 for the purpose of improving the navigation of the Missouri river. Further expenditure of money for this purpose, he asserts, is useless, as the navigation features of the river are not capable of development. Future appropriations should be devoted to more important matters, two of which suggest themselves as being of pre-eminent importance—the protection of land in the Missouri valley and its development. He deplored the annual destruction caused by the overflow of the river and stated that inasmuch as the government controls the agency by which this damage is committed—the Missouri river—it should feel the equal necessity of protecting private interests from the destruction brought annually. He recommended the construction by the government of storage reservoirs, which would not only keep the water from committing damage, but would permit its utilization for irrigation purposes and the consequent improvement of the west. At the conclusion of the reading of the letter John Steel moved that the Commercial club of Omaha endorse the appropriation at present pending in congress for reclaiming greater arid lands by means of irrigation. The motion carried unanimously and Secretary Utt was instructed to notify the members of Nebraska's senatorial and congressional delegations. As to Cornmeal. Colonel C. J. Murphy of Brussels, Belgium—"Cornmeal" Murphy—said an interesting reminiscence talk of the introduction of corn and cornmeal into the countries of the old world under his direction as a commissioner representing the Agricultural department of the United States. He spoke of the difficulties connected with the beginning in Berlin and in Brussels, but mentioned that American corn is now one of the staple exports to European countries. Hon. Peter Jansen of Jansen, Neb., was a visitor of the club and the conclusion of the regular program Toastmaster McHugh called upon him for a few remarks. Among other things Mr. Jansen said: "As you perhaps all know, I have been appointed as one of the United States commissioners to the Paris exposition, and I assure you that I am proud to represent the United States. We foreign-born citizens do not like to be called German-Americans and Russian-Americans. We feel that we are George Washington-Americans. In contemplation of my trip to Paris I feel that one of my most pleasant privileges will be to stand up for Nebraska whenever the opportunity presents itself. If any Nebraska comes over to Paris during the exposition I will try to find a hole in the fence large enough for him to crawl through. I intend to do all within my power to make the corn exhibit at the exposition a success, for I consider it one of the most important of our products and think it should be brought more and more to the attention of foreign nations. "M. B. Smith, Butler, Mich., says, "De Witt's Little Early Risers are the very best pills I ever used for constiveness, liver and bowel troubles." Danish Sisterhood. Local lodge No. 6, Danish Sisterhood of the United States, gave an entertainment at the Commercial club Saturday evening, which was largely attended. The occasion was a success every particular. The winners of prizes and the characters they represented were as follows: Miss Lena Nielsen, fairy of the woods;

MISS ANNIE ANDERSON, fishwoman; Miss Doris Anderson, French king of the sixteenth century; Miss S. H. H. traveling showmaker; Miss M. J. H. old country farmer; Miss M. J. H. mark; Christian Sogard, clown with a goat; A prominent feature of the evening was the singing of "The Evening Star" by Miss Hannah Martensen.

NESTOR OF MODERN JUDAISM

Dr. Simon of Temple Israel Talks of the Life and Works of Dr. Wise.

Talking of Rabbi Wise, whose death occurred at Cincinnati Monday, Rabbi Simon of Temple Israel, a graduate of the Hebrew Union college, of which Rabbi Wise was founder and president, said: "Dr. Wise was the Nestor of modern Judaism. As a young man he saw the necessity for a reform movement among the Jewish people of Albany, N. Y., his first charge in this country, and when he preached reform his congregation threw him bodily from the house of worship. From Albany he went to Cincinnati, where he remained ever since, preaching at B'nai B'rith and has brought that congregation to reform. In the beginning of his career he saw the necessity of a revision of the prayer book, so he edited what is now known as the "Minhag American," a prayer book in the English language, containing the essential prayers of the Jewish people. He has eliminated all prayers referring to the Messiah and the return to Palestine. He preached to his congregation that George Washington was the Messiah and that America is the Jewish state of modern times. He abolished the observance of the orthodox Jews and brought the service up to modern times; teaching his people that while they should be intensely Jewish they should also be intensely American. "The spirit of the Cincinnati congregation spread over the country. There may have been brainer men and better orators in the reformed Jewish movement than Dr. Wise, but to his indomitable will is due the growth of the idea. When the Reform movement was in its infancy, there was no uniformity of service among the various congregations, so he insisted upon a union among them for the purpose of uniform service and co-operative work, so there was organized the Union of Reform Congregations, of which he was the head. In addition to his duties as rabbi he was president of the Hebrew Union college and professor of philosophy in that institution, editor of an American and of a German paper and writer and publisher of several theological works. He served the college he founded without salary, and his charities were large. In fact he had to be protected from himself. He has been known to give his shoes to a tramp and appear at a wedding in carpet slippers. He had expected to retire to a residence in Cincinnati, the title was held by the congregation so that he could not mortgage or sell his home to give to the poor. He was a devoted Jew, but his devotion was of a high order. The walking benediction of Judaism. He was blessed in that he lived to realize his ideal in the reformation of Judaism. "S. Goetz of Omaha was well acquainted with Dr. Wise. When Dr. Goetz entered his employ in the office of the Israelite, and there learned the printer's trade. He speaks of the charity and never failing humor of the deceased rabbi and says the Reformed Jewish movement will feel his loss for years.

COLONIAL TRADE OF OMAHA

No Goods from Porto Rico, but Cuba Sends Tobacco—Fate of Philippine Consignment.

Customs officials of the port of Omaha have little official interest in the result of the Porto Rican tariff bill now pending in congress, as within the memory of the men now connected with the service, no goods from that island have been shipped in bond to this city. Omaha stands on the same terms to the Hawaiian islands, all goods from there reaching this city having its duty paid at other ports. The only goods from the Philippine islands which ever came to Omaha in bond were re-exported to Manila last month. The goods consisted of cigars and tobacco brought here by some persons connected with the Philippine village at the Greater America exposition. They were shipped here under the belief that they would be admitted duty free and when about \$1,500 was demanded of the consignee before the goods would be turned over to him he paid the duty and the goods, but let the tobacco and cigars remain in bond until they were shipped back. Cigars and tobacco from Obba are frequently relieved at the port of Omaha, but do not remain in bond. There is, however, a bale of raw rappers now in the warehouse which came all the way from the island of Sumatra.

ANNIVERSARY OF COMENIUS

Bohemians of Omaha Will Celebrate the Birth of the Great Educator This Evening.

The three hundredth and eighth anniversary of the birth of the great educator, Comenius, occurs today and will be celebrated by the Bohemian community of Omaha in the evening in the Bohemian Turner hall, South Thirtieth street, near Dorcas. The entertainment will begin promptly at 8 o'clock. Part I of the program will consist of an overture by Mrs. L. Svachka; decoration of the Bohemian community, by Mrs. L. Svachka; song: poem of Statopluk Cech, "Komeny'sk"; Miss L. Kadavy; Bach's "Romanza," cello solo, with piano accompaniment, Messrs. S. B. Lotovsky and J. Svoboda; introductory speech on J. A. Comenius by Rev. John Pijal of Western Omaha; jubilee song, by the chorus of the Tet Jed Sokol, A. Korisko, leader; solo, from Smetana's opera, "Hubicka," Mrs. M. Buresh; English oration, C. G. Pearce, superintendent of public schools; dues from F. A. "Fly Away, Birding," Miss M. Sorensen; song, by the chorus of the Tet Jed Sokol, A. Korisko, leader; solo, from Smetana's opera, "Hubicka," Mrs. M. Buresh; piano, J. Svoboda; scene, with songs, by girls and boys; oration, "Comenius as a Pedagogue," by Mr. S. L. Kostovsky; trio, "Black Horses," by J. Boukal, F. Svachka and A. Schiller; "Pity the Newborn," by Bertha Tobias; children's play, "What is Your Chosen Profession?"; Schuber's "Serenade," cello solo, accompanied by piano, Messrs. S. B. Lotovsky and J. Svoboda; Part III—"The Bohemian Country," chorus of male and female voices, with soprano solo by Mrs. M. Buresh, Mr. F. Svachka, leader; either trio, "Hymns of Various Nations," by the Novak brothers; oration, "Comenius as a Patriot," by Mr. V. A. Jung; duet, "We Are Bohemians."

STOMACH TROUBLE

DRIES UP THE SOURCE OF NUTRITION! "Health is impossible and every trouble is due to a disordered stomach." Blood, bone and muscle must be made through the stomach and only by the action of the digestive glands are you able to derive health and strength—nutrition, from your food. Look at this picture! The openings of these gastric glands are about one one-thousandth of an inch in diameter, and when by the least indigestion the stomach is swollen and inflamed, it is only natural that these glands are seriously affected and the flow of the very necessary digestive juice gravely interfered with. The stomach lining becomes dry and hard and the secretions of dyspepsia are wholly or partly closed, making perfect digestion impossible. Beware! Take heed before it is too late!

Dr. Kay's Renovator

Dr. Kay's Renovator cures all stomach troubles because it acts directly upon the cause of every stomach trouble, it acts directly upon the swollen glands and renews the flow of the all-important digestive juice, simply because it is the perfect concentration of all the properties most widely known and recommended as correctors of organic troubles by the leading hospitals and medical experts of London, Paris and New York. HENRY B. IRISH, M.D., editor, "Omaha World-Herald" had the worst form of dyspepsia. After three of Nebraska's best physicians and scores of patent medicines had failed to help him, he tried Dr. Kay's Renovator with the result as he wrote: "It is now eight months since I used Dr. Kay's Renovator and I now have no symptoms of my old stomach trouble." Refreshing substitutes. Remedies actually "Just as Good" as Dr. Kay's Renovator are not made or sold by anyone anywhere. At druggists or from us, \$2 and 1.00; six for \$5. Address us for free medical advice, sample and book. DR. H. B. KAY MEDICAL CO., Saratoga Springs, N. Y.

AMUSEMENTS

"Other People's Money"

"Other People's Money" A new star to this section of the country is in the person of Honorable Leroy, who was introduced to Omaha play-goers at Hays' theatre Monday night, and while he appeared before an audience rather limited in size, owing to the inclement weather, he made a favorable impression. As a delineator of character, Mr. Leroy is clever, and with a proper choice of material, he can much better advantage. "Other People's Money" is an old piece of cloth merely re-dyed and given a new name. However, it furnishes fun of the light order, which just now is in greater demand than that which requires more depth of thought to be appreciated. Mr. Leroy's engagement closes with two performances today, a special matinee and the regular evening performance. "Mortality Statistics." The following births and deaths were reported at the office of the Board of Health during the twenty-four hours ended at noon Tuesday: Births—W. H. Best, 905 South Sixteenth; boy; Henry Snow, 429 Burdette, girl; Clyde C. Sundblad, 204 South Seventh, girl; John Meloy, 602 North Twenty-second, twin boys; William Spencer, 2611 Binney, girl; Fred Bradford, 204 Grace, girl; Holger Arr, 611 Pacific, girl; Samuel Wirtzinger, 234 Langdon Court, girl; W. H. Hatteroth, 425 Farnam, girl. Deaths—R. V. Van Aernam, 2226 North Eighteenth, 72 years; Irene Agnes Hoffman, 1919 Dodge, 22 years; Mary E. Baldwin, 2562 Harney, 58 years; George Dewey Mulgrove, 1 year; Clotilda Werner, 326 California, 24 years.

TRIUMPH OF SCIENCE.

Reader, do you know what real cocoa is? To economical housewives and wide-awake people generally, the best cocoa and the best Van Houten are synonymous terms. The cocoa manufactured by that well-known firm is a preparation from the best cocoa beans, and contains all the valuable nutritive and stimulating properties natural to cocoa. The cocoa-bean contains an alkaloid called "Theobromine," which is the principle of the "cup that cheers, but does not enervate." The great difference between the stimulating properties of alcohol, and that of theobromine is, that the use of the former causes a subsequent depression, which is proportional to the amount of stimulation it has previously brought about; the use of theobromine, on the other hand, (theobromine) is unattended by such unpleasant after-effects. Of course, only a certain amount of cocoa, such as Van Houten's will work in the aforesaid manner. That cocoa has been described as "A triumph of science!" It is absolutely pure, entirely soluble, and easy of assimilation and digestion by the weakest stomach. It costs but a trifle, being less than one cent per cup; and it is the simplest drink to make ready, or whole catalogue of beverages. It smells so good, and tastes so delicious, that when you try it you will certainly exclaim: "Ah! indeed, it is a triumph of science!"

HAVE YOU TRIED VAN HOUTEN'S EATING CHOCOLATE?

Local lodge No. 6, Danish Sisterhood of the United States, gave an entertainment at the Commercial club Saturday evening, which was largely attended. The occasion was a success every particular. Svachka, leader; either trio, "Hymns of Various Nations," by the Novak brothers; oration, "Comenius as a Patriot," by Mr. V. A. Jung; duet, "We Are Bohemians."

STOMACH TROUBLE

DRIES UP THE SOURCE OF NUTRITION! "Health is impossible and every trouble is due to a disordered stomach." Blood, bone and muscle must be made through the stomach and only by the action of the digestive glands are you able to derive health and strength—nutrition, from your food. Look at this picture! The openings of these gastric glands are about one one-thousandth of an inch in diameter, and when by the least indigestion the stomach is swollen and inflamed, it is only natural that these glands are seriously affected and the flow of the very necessary digestive juice gravely interfered with. The stomach lining becomes dry and hard and the secretions of dyspepsia are wholly or partly closed, making perfect digestion impossible. Beware! Take heed before it is too late!

Dr. Kay's Renovator

Dr. Kay's Renovator cures all stomach troubles because it acts directly upon the cause of every stomach trouble, it acts directly upon the swollen glands and renews the flow of the all-important digestive juice, simply because it is the perfect concentration of all the properties most widely known and recommended as correctors of organic troubles by the leading hospitals and medical experts of London, Paris and New York. HENRY B. IRISH, M.D., editor, "Omaha World-Herald" had the worst form of dyspepsia. After three of Nebraska's best physicians and scores of patent medicines had failed to help him, he tried Dr. Kay's Renovator with the result as he wrote: "It is now eight months since I used Dr. Kay's Renovator and I now have no symptoms of my old stomach trouble." Refreshing substitutes. Remedies actually "Just as Good" as Dr. Kay's Renovator are not made or sold by anyone anywhere. At druggists or from us, \$2 and 1.00; six for \$5. Address us for free medical advice, sample and book. DR. H. B. KAY MEDICAL CO., Saratoga Springs, N. Y.

AMUSEMENTS

"Other People's Money"

"Other People's Money" A new star to this section of the country is in the person of Honorable Leroy, who was introduced to Omaha play-goers at Hays' theatre Monday night, and while he appeared before an audience rather limited in size, owing to the inclement weather, he made a favorable impression. As a delineator of character, Mr. Leroy is clever, and with a proper choice of material, he can much better advantage. "Other People's Money" is an old piece of cloth merely re-dyed and given a new name. However, it furnishes fun of the light order, which just now is in greater demand than that which requires more depth of thought to be appreciated. Mr. Leroy's engagement closes with two performances today, a special matinee and the regular evening performance. "Mortality Statistics." The following births and deaths were reported at the office of the Board of Health during the twenty-four hours ended at noon Tuesday: Births—W. H. Best, 905 South Sixteenth; boy; Henry Snow, 429 Burdette, girl; Clyde C. Sundblad, 204 South Seventh, girl; John Meloy, 602 North Twenty-second, twin boys; William Spencer, 2611 Binney, girl; Fred Bradford, 204 Grace, girl; Holger Arr, 611 Pacific, girl; Samuel Wirtzinger, 234 Langdon Court, girl; W. H. Hatteroth, 425 Farnam, girl. Deaths—R. V. Van Aernam, 2226 North Eighteenth, 72 years; Irene Agnes Hoffman, 1919 Dodge, 22 years; Mary E. Baldwin, 2562 Harney, 58 years; George Dewey Mulgrove, 1 year; Clotilda Werner, 326 California, 24 years.

TRIUMPH OF SCIENCE.

Reader, do you know what real cocoa is? To economical housewives and wide-awake people generally, the best cocoa and the best Van Houten are synonymous terms. The cocoa manufactured by that well-known firm is a preparation from the best cocoa beans, and contains all the valuable nutritive and stimulating properties natural to cocoa. The cocoa-bean contains an alkaloid called "Theobromine," which is the principle of the "cup that cheers, but does not enervate." The great difference between the stimulating properties of alcohol, and that of theobromine is, that the use of the former causes a subsequent depression, which is proportional to the amount of stimulation it has previously brought about; the use of theobromine, on the other hand, (theobromine) is unattended by such unpleasant after-effects. Of course, only a certain amount of cocoa, such as Van Houten's will work in the aforesaid manner. That cocoa has been described as "A triumph of science!" It is absolutely pure, entirely soluble, and easy of assimilation and digestion by the weakest stomach. It costs but a trifle, being less than one cent per cup; and it is the simplest drink to make ready, or whole catalogue of beverages. It smells so good, and tastes so delicious, that when you try it you will certainly exclaim: "Ah! indeed, it is a triumph of science!"

HAVE YOU TRIED VAN HOUTEN'S EATING CHOCOLATE?

Local lodge No. 6, Danish Sisterhood of the United States, gave an entertainment at the Commercial club Saturday evening, which was largely attended. The occasion was a success every particular. The winners of prizes and the characters they represented were as follows: Miss Lena Nielsen, fairy of the woods;

MISS ANNIE ANDERSON, fishwoman; Miss Doris Anderson, French king of the sixteenth century; Miss S. H. H. traveling showmaker; Miss M. J. H.
