The trade was little slow at first and both sides were standing not when the telegraph company coited a message from Chicago reporting that market as closing los lower. Quite number of the salesmen naturally mad haste to sell at the prices that they had been bid. The telegraph company ver soon discovered the mistake and change the message to loc higher, but net soo enough to prevent a good many hogs bein sold at early morning bids. The result was that the hogs sold all the way from 500 higher, but net soo enough to prevent a good many hogs bein sold at early morning bids. The result was that the hogs sold all the way from 500 higher, but net sold season. It will be noted from the table of average prices above that the mor if the decline of the last three days was made up so that the market today was made up so that the market today was not the private of the sale three days was made to the control of the decline of the last three days was made up so that the market today was not the private of the sale three days was made up so that the market today was not the private of the sale three days was made to the sale three days was made to the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days was not the private of the sale three days and the private of the sale three days and the private of the sale three days and the sale three days and the sale three day

SENIORS ALLOWED FREE HAND Board of Education Will Not Interfere with Socials Given Outside Its Jurisdiction.

Superintendent Pearse says that neither the Board of Education nor the school authorities have any objection to the hop, play or musical which the senior class of the High school proposes to give at the Metropolitan hall. The only stipulation is that such functions shall not interfere with the regular school work. The board does not wish to assume the chaperenage of the socials and so refused to allow them to occur either at the High school or at the board rooms. If they are conducted elsewhere, however, and it is clearly indicated that the board is in no way responsible for the children outside of school hours, no objection will be interposed. The Alumni association has previously relieved the board of any weight of responsibility by holding its annual reunious in Metropolitan hall. The Cadet Officers' club also has refused the board's hospitality and has given its yearly hope at the Millard hotel.

were submitted by George H. Maxwell of Chicago, chairman of the executive committes of the National Irrigation association, who addressed the club at its monthly meeting last week on the subject, and who came west again this week at the invitation of the club to submit his plan. It contemplates the adoption of a national policy embodying the following points:

Resolutions Adopted.

"All the remaining public lands to be held and administered as a trust for the benefit of the whole people of the United States and no grants of the title to any of the public lands to be hereafter made to any state or territory or to anyone but actual settlers and home-builders on the land.

"The preservation and development of our national resources by the construction of storage reservoirs by the federal government for flood protection and to save for use in aid of navigation and irrigation the ficed waters which now run to waste 111's and cause overflow and destruction.
