A DAILY NUISANCE.

A Simple Remedy Which Will Interest Caturrh Sofferers.

In its early stages catarrh is more of nuisance than a menace to the general health, but sooner or later the disease extends to the throat, bronchial tubes and even to the etomach and intestines. Catarrh is essentially a disease of the

appearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements and which so far has been remarkably successful in curing catarrh is Stuart's Catarrh Tablets.

These tablets act upon the blood and mucous membranes only. They can hardly be called a secret patent medicine as they are composed of such valuable remedies as Sanguinaria, Hydrastin, Eucalyptol and similar cleansing antiseptice, which cure by eliminating from the blood and mucous surfaces the catarrhal poisons.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges taken internally, allowing them to dissolve slowly in the mouth. In this way they reach the throat, fauces

and the entire alimentary canal. If desired they may also be dissolved in water and used as a douche, in addition to the internal use, but it is not at all necesclements parents. Mr. and Mrs. George Schwartz.
