PEURIA MINES NOT AFFECTED. Managers in that District Are Stockholders of Mines and Will Not Strike.

PEORIA, Ill., April 16.—One of the officers of the Central Illinois Soft Coal association, which controls all of the mines in the Eighth district, said this morning that the mines of the association would not be affected by the proposed managers' strike.

It is also reported here on good authority that the miners of the state will not support the managers in their demands, as the agreement as to come for the coming year provides against just such contingencies and precludes any strike on that ground.

Telegraphers' Strike Unchanged. ATLANTA, Ga., April 16.—The Southern railway telegraphers' strike in this vicinity seems to be unchanged. In his statement today President Powell offers \$100 reward for the person who, it is said, would a letter of warning to Mrs. J. R. B. Thompson, wife of Assistant General Superintendent Thompson of the Southern railway, preventing its discharge as a member of the order.

CHEATTANOOGA, Tenn., April 16.—So far as the four divisions of the Southern railway seem to be concerned the strike situation is quiet today. The striking operators claim a number of accessions to their ranks, while on the other hand the Southern railway officials state they are having no trouble in running trains on schedule time.

STEEL WORKERS SHUT DOWN. JOLIET, Ill., April 16.—Three of the four local plants of the American Steel and Wire company have suspended operation entirely. The order came suddenly and was a total surprise. Over 1,000 men are affected. The cause of suspension and how long it will last is not known. The stockholders will be working as usual.

TEN THOUSAND SEE MEMPHIS DERBY

Racing Season Opens in New York with a Good Card at Aqueduct—Attendance Large as Result on Other Courses.

MEMPHIS, Tenn., April 16.—Under threatening skies and on a muddy track, H. J. Scoggin's bay colt, Florizar, by Imp Florist-Carolina B, took the lead in the ten-thousand-dollar Memphis derby at a mile and an eighth in a gallop from John F. Schorr's F. W. Brode, which beat P. Tomlinson & Co.'s The Conqueror for the place by a length. The race, which was worth \$7,000 to the winner, was run in two and a half minutes on a track so heavy as that of today. More than 10,000 people visited Montgomery park to see the derby and five other well-billed races contested.

The derby was the fourth race on the card. In the ring J. C. John's T. Peallant colt, Thrive, was held a slight favorite over F. W. Brodie, their prices being 5 to 2 and 2 to 1 respectively. The Conqueror was next in demand at three, while Florizar was held at 8 to 1. The race was called at 4 o'clock and little time was lost at the start. Upon the second break Florist Fitzgerald sent the field away in splendid order, with Thrive in the lead and just in front of Florizar, with Brode. The Conqueror and Arthur Behan closed up. Thrive immediately increased his lead, while Vandusen took Florizar back to last position. Passing the quarter-mile, The Conqueror by a length, with Brode lapped in third place. Thrive made the running around the first turn until well straightened out in the back stretch, where The Conqueror passed him and led the field to the far turn, closely followed by Thrive and Brode.

At this point Van Dusen was seen to make his ride and upon turning into the stretch Florizar was a length before The Conqueror, who in turn led Brode by a neck. The race from this point on was a gallop, so far as Florizar was concerned, the Scoggin colt winning easily by half a dozen lengths. F. W. Brode was second under a vigorous ride, a length before The Conqueror. Thrive finished fourth, three lengths before Arthur Behan.

REMEDIES FOR TRUST EVIL

House Committee Drafting Measures Directed Against Combines.

CONGRESS TO BE GIVEN FULL POWER

Number of Extensions to the Sherman Act Proposed—Chairman of Committee Talks of Proposed Legislation—Its Features.

WASHINGTON, April 16.—Two measures directed against trusts were determined today by the special subcommittee of the house judiciary committee. The house special subcommittee has spent many days examining the various remedies proposed for the relief of the country from the evils of trusts. As agreed upon the remedy is two-fold, namely, a constitutional amendment, giving congress full power to deal with trusts, and a new anti-trust law, making the following extensions of the Sherman act: First—Requiring the branding or marking of trust-made goods shipped out of a state, so as to be easily identified as the product of a trust.

Second—Prohibiting the interstate traffic of trust-made goods not so branded and making them subject to seizure and condemnation.

Third—Requiring corporations having a capital over \$1,000,000 or doing an annual business of \$1,000,000 to file a report of their affairs with the secretary of state.

Fourth—Providing the process of injunction against combinations sending trustees made goods from state to state or to foreign countries.

Fifth—Prohibiting the use of the mails to conceal or promote trusts.

Justice of the Supreme Court, chairman of the judiciary committee and of the special subcommittee on trusts, gave out the following summary of the measures: "The subcommittee of the committee on the judiciary today agreed to report to the full committee a proposed constitutional amendment which provides that congress shall have power to define, regulate, control, prohibit or dissolve trusts, monopolies or combinations, whether existing in the form of a corporation or otherwise, and which further provides that the several states may continue to exercise such power in any manner not in conflict with the laws of the United States.

The necessity for this amendment grows out of the fact that it is held by the supreme court of the United States that manufacture and production are no part of interstate commerce and cannot be reached under the interstate-commerce clause of the constitution, even though monopoly in manufacture indirectly effects and controls interstate commerce. Therefore, monopoly in manufacture is not restrainable by congress, even when it concerns an article of necessity to all the people of the states and fixes the price at will."

Another measure amends the act of July 2, 1890, by an act to protect trade and commerce against unlawful restraints and monopolies and known as the Sherman act. The act provides that the penalties fixed by that act and added thereto five new sections. The new sections relate to producing and manufacturing corporations and associations organized and managed for the purpose of controlling or monopolizing manufacture or production, or so conducting their business as to monopolize manufacture. It provides that corporations and associations organized and carrying on business for such a purpose shall mark goods shipped with the name of the manufacturer, and that the same shall not be transported or carried without such name when not marked, either upon the goods themselves, the packages containing the same, or cars in which they are shipped.

Articles of commerce not so marked may be seized and condemned, when made a part of interstate commerce. It is further provided that corporations and associations organized with a capital stock of \$100,000 or over, or doing business for such a purpose shall file a report of their affairs with the secretary of state of the United States before being permitted to transport their product into any other state or territory, file with the secretary of state of the United States a report making substantially the same showing now required of railroad and other companies engaged in interstate commerce.

It further provides that corporations and associations formed for carrying on their business for the illegal purpose aforesaid shall be restrained from carrying on interstate or foreign commerce, and also provides that when such corporations and associations are adjudged illegal within the meaning of the act and its officers and members shall be prohibited the use of the mails in and of their illegal designs. Penalties are imposed for violations of the act and jurisdiction is conferred upon the circuit and district courts and it is made the duty of the attorney general and of the several district attorneys of the United States to institute all proceedings, civil and criminal, necessary to give effect to the provisions of the act, which is to take effect June 30, 1900.

LIMITING WORD CONSPIRACY

Senator Thurston Presents a Bill that May Have a Bearing on Future Railroad Strikes.

WASHINGTON, April 16.—Senator Thurston today introduced a bill to limit the meaning of the word "conspiracy" and also the use of restraining orders as applied to disputes between employers and employes, especially those engaged in interstate commerce. The bill provides that no agreement, combination or contract with reference to any trade dispute shall be deemed criminal, and also provides that those engaged in such acts shall not be indictable for the crime of conspiracy if such act committed by any one person would not be so punishable. It is also provided that no such act shall be considered in restraint of trade.

CLOSING OF STEEL MILLS

American Steel and Wire Company Magnate Says that Overproduction Necessitates a Shutdown.

NEW YORK, April 16.—John W. Gates of the American Steel and Wire company was seen today in reference to a dispatch from the west which stated that a number of the concerns in the main company had suspended operations. He confirmed the statement and said that twelve of the mills in the constituent companies have been shut down. They are located at Pittsburgh, Cleveland, Joliet, Ill.; Waukegan, Ill.; Decatur, Ill.; Newcastle, Ind.; and Anderson, Ind.

Mr. Gates said the cause of the closing down of the mills was overproduction. He said he was unable to state when the mills would resume operations, as they first would have to ascertain the extent of the overproduction. When asked as to his views as to the trade situation and outlook, Mr. Gates stated that the shutdown of the mills was the best evidence of the current situation.

Mr. Gates made another statement later, in which he said that the twelve mills which had been closed had a daily capacity of from 3,000 to 4,000 tons. He said that such business was an additional reason for the suspension of operations. The mills information is that the mills will be closed indefinitely. It is said that as many as 4,000 men, boys and girls will be affected by the shutdown. The reorganization will be promptly entered into.

STORY TOLD BY W. R. STIMSON.

New Facts in Connection with Coeur d'Alene Troubles Develop. WASHINGTON, April 16.—The Coeur d'Alene investigation was resumed today by W. R. Stimson, one of the former county commissioners of Idaho, on the stand to rebut features developed in the previous testimony. His evidence was to the effect that he was removed from office by the state and military authorities because they believed he would not serve their purposes. He declared in answer to questions that his removal was brought about by the legal and judicial "trick" of the Bunker Hill mine and the Standard Oil company. The witness presented a photograph taken at the time of the incident, showing the scene at the front of a saloon at Gem, with the glass windows riddled with rifle shots. These, he testified, were made by "Pinkertons and thugs," brought in by the mining companies to put down the union men. The most of Stimson's testimony related to minor circumstances in the affair under investigation.

SPANISH MINISTER TO WASHINGTON UNINTENTIONALLY INSULTED BY CHIEF DEWEY CELEBRATION COMMITTEE.

CHICAGO, April 16.—Mayor Harrison today received from Duke d'Arcos, the Spanish minister at Washington, the following reply to an invitation to attend the Dewey celebration in Chicago: "WASHINGTON, April 14.—Sir: I return to you here enclosed an invitation from the city of Chicago for the celebration of the second anniversary of the battle of Manila which, I take for granted, has been sent to me by mistake, as it is the first despatch I have met with since I am in the United States. It is impossible for me to believe that you have advisedly asked me, the representative of Spain, to go to your city and rejoice with you on the destruction of so many brave sailors—my compatriots. That would have been simply an insult; and, as I do not deserve it, and it cannot have been your intention, I am, I am perfectly sure, as I say, that all this is the result of an error. "I have the honor to remain, sir, very respectfully yours. In reply Mayor Harrison has written the following explanation: "The invitation was sent through the carelessness or ignorance of a clerk and extending sincere apologies for the unintentional discourtesy."

THAT KANSAS GOLD FIND

People in the Vicinity of Galena Greatly Excited—Prospectors Keep Location a Secret. GALENA, Kan., April 16.—The alleged discovery of gold-bearing ore in this vicinity has not provoked the wild enthusiasm that usually attends such finds. There is plenty of excitement and much interest was manifested, but there is not a rush of prospectors. This is to some extent due, however, to the fact that the prospectors have kept the location of the find secret. Reputable miners and assayers agree that the formation in Kansas is not favorable to the carrying of gold in sufficient quantity to make mining profitable, but the knowing ones recall Cripple Creek, where experts contended that it was impossible to exist in that formation.
