or determine, or participate in the determination of any of the questions involved in this action, for the following reasons, to-wit:

1. That said Silas A. Holcomb, now a judge of this court, prior to his election as such judge, and while governor of the state of Nebraska, was directly interested and copreerned in the questions involved in this action and directed Constantine J. Smyth, as attorney general of the state of Nebraska, in the name of and on behalf of the state of Nebraska to bring the certain action in the nature of quo warranto proceedings referred to and set forth in the answer of said respondents filed herein, and prior to the commencement of said action had frequent interviews with said attorney general and expressed his judgment and belief to said attorney general and to others that such action should be commenced and ought to be decided by the supreme court in favor of the members of the Board of Fire and Police Commissioners appointed by himself as governor and against any board of fire and police commissioners which might be appointed or confirmed by the mayor and council of the city of Omaha, and in support of this objection the said respondents filed herein and also refer to said original action referred to in said answer and also refer to the knowledge of said Silas A. Holcomb, now a judge of this court, prior to his election as such judge and while governor of the state of Nebraska, to-wit, on or about January 12, 1898, fully, carefully and conscientiously considered and determined all the questions involved in this action adversely to these respondents and did publicly make known and give to the public his views and opinion concerning all of said questions, which views and opinion were published on the following day, to-wit, on January 14, 1898, in the Omaha World-Heraid and in The Omaha Bee, as will more fully and at large appear by reference to said newspapers, which were then in general circulation in the State of Nebraska, and by the affidayit, with copies of said papers hereto att

2. That said Silas A. Holcomb, now a judge of this court, by reason of his direct and personal interest in the questions involved in this action and by reason of the volved in this action and by reason of the consideration and investigation of said questions at such time and by reason of forming a positive and fixed opinion regarding said questions adverse to these respondents and by reason of having publicly proclaimed and made known such opinion to the world, now has such an interest in this controversy and in the questions involved in this controversy as to render it impossible for him fairly and without bias or prejudice to now judicially consider and determine said questions.

Wherefore, The said respondents most respectfully but urgently request Hon. Silas A. Holcomb to refrain from hearing this case or determining or participating in the deliberation or determining of any of the questions involved herein.

ATTACKS LAW FROM NEW POINT.

Burlington Attorney Raises Undecided Question Against Railroad Statute. LINCOLN. April 17 .- (Special.)-The validity of the legislative act of 1887, creating the State Board of Transportation, is to be ettacked by Attorney W. D. McHugh of Omaha on behalf of the Burlington railroad, on grounds that have never been brought to the attention of any court. This act has been the subject of repeated attacks from telephone, express and railroad companies ever eince its passage, but all of the litigation involved simply the constitutionality of the offices held by the secretaries and members of the Board of Transportation. Mr. McHugh claims to have discovered several errors in the title of the bill, as it was passed by the legislature, and will base his

Why the Medical Specialist Often Fails.

There are two great fundamental systems which make up the Fuman body, the NERVOUS SYSTEM and the MUSCULAR SYSTEM, each having to distinct functions to perform, yet both must work together in harmony to preserve life and health. Either of these systems is liable to certain diseases. Medical treatment is more effective in diseases of the muscular system, while electrical treatment is more beneficial in diseases of the nervous system. There are very few diseases of the nervous system but what sooner or later become complicated with diseases of the muscular system, or vice versa, and become nervo-muscular in their nature; thus both electrical and medical treatment are required to effect a cure. You can readily understand why our combined ELECTRO-MEDICAL TREATMENT, as administered by the able Specialists of this institute, will promptly cut diseases, which cannot be cured or even benefitted by the medical specialist or electrical treatment alone. If you cannot plainly see the advantages in this treatment we stand ready to prove it to you at once.

WARNING —The sick are cautioned that certain medical specialists, having warning learned of our great success, are attempting to copy our Electro-Medical treatment. Don't be deceived. Our successful combined Electro-Medical treatment can be had only at the State Electro-Medical Institute, 1208 Farnam Street, Omaha, Neb. NOTE THE NUMBER.
