Report of His Wedding in America Causes a Sensation in London.

LONDON, April 18 .- The cabled announcement in the marriage columns of the Times this morning of the wedding of Earl Russell to Mollie Cooke, at Reno, Nev., April 15, has created a sensation here, as it appears that Earl Russell, according to the English law, is still legally married to the first Countess Russell, who is now performing at the Tivoli Music hall,

The Star thinks the announcement, which also appeared in this morning's Standard, may, be a hoax, for, it says, by marrying another woman the head of the noble house would render himself liable to imprisonment for bigamy on his return to England. The marital troubles of the Russells commenced in the courts in 1891, when the countees, who is a daughter of the well known Lady Scott, applied for a separation from her husband on the ground of cruelty, which was refused. Four years later the same petition resulted in the defendant nobleman being granted a judicial separation; but further litigation and cross-petitions followed. The litigation was ended by the court of appeals refusing relief to both parties, so they are still legally married.

Lady Scott said she and her daughter knew the earl had been in America about a year, but they had heard nothing from him. She added: "Lady Russell has placed the matter in the hands of her solicitor and is not at all inclined to resign herself to the acceptance of her noble husband's family motto, which is: 'What will be, will be.'

firming the announcement of the earl's marriage, adds: "For some time Lord Russell felt that his years of suffering and annoyance had released him from all obligations, moral and otherwise, connected with his first marriage and, therefore, that he was free to do as he desired. I do not believe the question of bigamy will be raised, but at any rate Lord Russell and his Irish bride are returning to England next month. **BID ON RUSSIAN RAILROAD**
