

CYCLONE NEAR WYMORE

Tunnel-Shaped Cloud Travels About in the State.

TEARS UP THE GROUND ON THE PRAIRIE

Hundreds of People from Wymore Witness the Movements of the Cloud—No Great Damage Has Been Reported.

WYMORE, Neb., April 24.—(Special Telegram.)—The most perfect cyclone cloud ever seen here spent its force in the heavens three miles southeast of here this afternoon. The cloud was a regular funnel-shaped twister, which seemed to form about five miles southeast of here. It traveled due north over the prairie, striking the ground at intervals, at which time it would plow the earth up in chunks and carry it along.

John Traulich, a German farmer living three miles east of here, was working in the field when he first noticed it. He ran for his home, about 20 yards distant, and warned his family, who went to the cave. He stood and watched the twisting monster approach his home, but when 150 feet in front of him it tore up the ground and carried dirt and debris high in the air over his head.

A report says that a windmill was carried over half a mile high in the air, but this cannot be verified and so far as known no person was injured and no serious damage done.

SHOWERS FALL IN THE STATE

Ground is Kept in Good Condition by Generous Nature.

Winter and spring wheat and oats are up out of the ground and look fine.

Muster in Company G. GENEVA, Neb., April 24.—(Special Telegram.)—Members of Company G, Nebraska National Guard, tonight. The following were mustered in: ...

AN OBJECT LESSON In a Restaurant. A physician puts the query: Have you ever noticed in any large restaurant at lunch or dinner time the large number of heavy, vigorous old men at the tables; men whose hair runs from 60 to 80 years; many of them bald and all perhaps gray, but none of them feeble or senile?

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of fine fangled health foods; on the contrary, they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon a fasting and an endeavor to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are rank poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The water in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not secrete, a "stomach of the dead" distress, one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty, because they supply just what every weak stomach lacks, pepsin, hydro-chloric acid, diastase and sux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus giving a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets, knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the traveling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opinion were asked, would say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

Foreigners Frightened by the Military Specter Conjured Up by the Populists.

State Senator F. M. Currie, a prominent Custer county ranchman, is in the city arranging freight rates for a shipment of 100 horses from Montana to his ranch near Sergeant. He leaves today for Kearney, where he will attend the congressional convention. Mr. Currie is one of the best known Republicans of western Nebraska and was endorsed as a suitable candidate for United States senator by his home county. He served last winter as a member of the state senate.

It is true that my name has been mentioned in connection with the United States senatorship," said he, "I do not consider the matter seriously, and doubt if my friends do. Of course, you know that Custer county is a hotbed of populism. The party has organized these ten years ago, and they've had things pretty near their own way ever since. With the single exception of county judge, I am the only republican who is holding office there now.

"I don't look for any material change in the political status of the county during the forthcoming campaign, though I think perhaps the fusion majorities will be somewhat reduced. The fusion agitators are working the standing army bogy for all it is worth, and more, and this has great weight with the foreign voters, and also with the large numbers in and about Custer county."
