ENGLAND TO HELP CANADA

Sentiment in London is to Aid the Fire Sufferers in Ottawa.

LONDON, April 27.—The newspapers are unanimous in expressing the opinion that it is the duty of Great Britain to promptly and substantially assist in repairing the losses incurred by the Ottawa fire.

The St. James Gazette voices the general view, saying: "At any time such a disaster to Canada would have appealed irresistibly to the sympathies of Englishmen and the present conditions strengthen the obligation. We have plenty on our hands with the South African war and the India famine, but we shall not be backward in doing all we can for our Canadian brothers till the bottom dollar is reached."

Foreign Insurance Men Losers.

NEW YORK, April 27.—American insurance companies will, it is believed, suffer little loss from the Ottawa fire. The Aetna of Hartford, Phenix of Brooklyn, Phoenix of Hartford, Connecticut Fire, Queen of America and the Insurance Company of Northern America do business in Canada, but of these one or two are said to confine their operations to Montreal risks exclusively.

Foreign companies will have to pay most of the claims, but as the business is controlled by their Canadian branches, little is known at the New York offices about the actual risk in the Hull territory. Coming at the time when the loss records in the United States show a disastrous fire waste, the Ottawa fire will, it is believed, have a depressing effect upon underwriting interests.

Government Votes Relief

OTTAWA, Ont., April 27.—The government at a cabinet meeting today decided to give $100,000 to relieve the sufferers of the Ottawa and Hull fire. Ten thousand dollars will be given for immediate use. The city council has decided to give $10,000.

Sympathy from Detroit.

DETROIT, Mich., April 27.—Mayor Maybury today telegraphed the mayor of Ottawa, Ont., extending sympathy and asking whether the people of Detroit can be of any assistance in aiding the homeless and destitute.

Subscription Started in Chicago.

CHICAGO, April 27.—Mayor Harrison today opened subscriptions for the Ottawa (Ont.) fire sufferers. The list was headed by Mrs. Cyrus McCormick and grew rapidly during the day.

Relief from Montreal.

MONTREAL, April 27.—The Bank of Montreal has telephoned $10,000 to the Ottawa fire sufferers.

Barrett Improvement Law Decision.

INDIANAPOLIS, April 27.—The supreme court of Indiana today affirmed the constitutionality of the Barrett improvement law under which improvements are paid for by the front foot assessment. There was one dissenting opinion.

The law also gives property holders ten years in which to complete installment payments on street improvements.

A large amount of bonds have already been disposed of under the law. The case came before the supreme court on an appeal from Shelbyville. There has been great interest centered in the decision, which settles a long-pending controversy.

GARDNER GETS THE DECISION

Joe Bernstein Disqualified for Fouling Him in the Sixteenth Round.

NEW YORK, April 27.—Oscar Gardner, the "Omaha Kid," gained the decision over Joe Bernstein of this city on a foul at the end of the sixteenth round of what was to have been a twenty-five-round fight at 124 pounds at the Broadway Athletic club tonight.

Gardner opened the fight, using a hard left jab, followed by right hooks to the body, and wore his opponent down with body blows. Time and time again Gardner feinted, his opponent to awkward corners, but Bernstein took his punishment gamely and the bell found his ready and willing.

Once in the eighth Gardner found the floor with his opponent on top. They struggled out and several short exchanges occurred, but the ninth Bernstein had a shade the better of the fight. In the tenth the western boy kept his honors well in hand. In the eleventh Bernstein rushed and landed his right three times on the wind, but Gardner countered heavily, and the round ended in a rally of which Bernstein had the better end.

They engaged in sparring tactics in the Twelfth round and both fell from a clinch, Bernstein being the under dog. White separated them quickly and got them to their feet, Bernstein's seconds. When they met again Gardner sailed in with right and left to jaw. Bernstein failed to counter. Bernstein showed good fighting from a technical standpoint, but up to the end of the Thirteenth round it was anybody's fight.

The fourteenth was particularly fierce, both doing serious damage to the face and body. Bernstein drew blood from Gardner's cheek and was on the floor twice from rapid work.

The pace continued during the fifteenth. Most of the fighting occurred during clinches with one hand free. The referee had to caution Bernstein for holding during the mixups. Bernstein had all the better of the sixteenth round, but was disqualified for fouling as the bell rang. He undoubtedly transgressed, as he held and hit after being cautioned several times by the referee.

Scully was a bit wild in the first two innings, and in those innings gave five men bases on balls. Four of these, with two singles and a two-bagger, gave Des Moines five scores in the second. McVicker put the ball over the fence twice again today and drove in one of Omaha's scores. Five of Des Moines' hits were made in the second and sixth innings and in the remainder of the game Scully was invincible. The score:

WEEKLY REVIEW OF TRADE

Different Conditions Make Money Unusually Low for This Time of Year.

REACTION COMES WHERE LEAST EXPECTED

Prices in Produce Market Remain About Stationary, Although Wheat Yields a Fraction and Corn Gains a Cent for the Week.

NEW YORK April 27.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Gold begins to go abroad and prices of iron products break sharply in the same week. Four months of the new year have passed and business does not so expand as to need the large increase of circulation which the new monetary bill has permitted, nor enough to sustain all the extraordinary advance in prices last year. The abundance of gold and of currency and the large disbursements by the treasury in exchange of bonds have rendered rates for money unusually low for the season here, while rare industrial and speculative activity in Europe with the war in South Africa have tended to make money dearer abroad. So new gold from Alaskans and the supply from the Transvaal and America builds up in credit abroad a breastwork against prostration in future here as in the past, caused by troubles in Europe.

The reaction in prices came where it was expected least, in the industrials is more fully organized than any other to check competition and in the branch which through contracts covering rod making and other machinery and through patents seemed more fully controlled than any other. Reduction of $20 per ton in wire nails, barbed wire and galvanized fence and $18 in smooth wire showed that no control can afford to hold prices so high as to check consumption. In a week the prices of iron products have declined 5.86 per cent, and since February 7 10.3 per cent. As the wire and nail prices have been relatively the highest, others in the iron and steel industry can be expected to fall in like measure. But pig iron is weaker. No. 1 local coke at Chicago $23.50 and southern pig is also lower.

Plates and bars can be obtained for 1.8 cents in good contracts, both at the east and at Pittsburg; the proposed advance in sheets to 3.4 has not been attempted and cut nail mills, which have gained much by selling at 7 cents per keg below wire nails, will now lower prices also. The stoppage of a dozen wire and nail mills besides rod mills at Joliet and another of the National Steel company indicates some change in the actual demand. In the minor metals the only change has been in tin, which declined rather sharply to $29.75 in sympathy with lower London quotations.

The tendency toward lower prices is strengthened by the idea that over-production may appear in other branches. In cotton goods, after the rise of about 30 per cent following the advance in cotton, it is asked whether the surprising increase in southern output has not cut off part of the demand which eastern mills find insufficient. In staple goods no change is seen, but in other lines and fancy goods irregularity is increasing and greater concessions are made for future delivery.

Cotton futures fell and recovered with good prospects for the next crop, northern mills having taken already what they will require until September, but Ellison's estimate is thought likely to stiffen the foreign demand. Nor has wool changed in quotations, though some sales of fair amount are reported at such prices at 31 cents for Ohio XX and 55 cents for cl
