City Hall is Safe.

Under instructions from the mayor Building Inspector Carter and Superintendent Bugh of the city hall have made a careful inspection of the roof and gables of the city building. The inquiry had been called forth by the falling of a large piece of sandstone at the feet of City Attorney Connell as he stood at the entrance. After a careful examination the officials pronounced the building perfectly safe. The latest theory as to the cause of the incident is that the sandstone chip had been originally broken from some part of the ornamentation by a careless mason. In the attempt to restore it to its former place with cement the workman left it as a menace to those who passed beneath.

Dr. SANDEN ELECTRIC BELT The use of Galvanic Electricity,

as applied under my personal direction, has become universal for the cure of nerve, glandular, organic weaknesses, rheumatism, sciatica, lumbago, varicocele, etc. Nature demands a certain sup-

ply of natural Electricity, and if this supply is reduced by excesses, overwork, exposure, etc., weakness and debility are the results. To repair this weakness, nature must be paid. I pay nature by returning to her storehouse that which has been wasted and dissipated-this is electricity-which is the very essence of life itself.

Electric Suspensory for Men; with all Belts.

Why should suffering ones hesitate to try this cure by natural means?-a cure based on nature's laws. Of course there are thousands who are as yet unacquainted with the value of my great discovery, and to these I say I have decided for a time to allow my latest and most improved 190.
