No praise can be too extravagant of the artistic and historical value of these photographs and the splendid manner in which they have been reproduced. These include pictures of the people and their homes and homelife, noted places, the marvelously beautiful scenery of the tropics, historic localities, famous battle grounds, celebrated fortifications, public buildings, cathedrals, views of towns, villages, farms, mountains, rivers, valleys, lakes, waterfalls, etc. There are also a number of actual battle scenes, taken under fire and showing war in its tragic and thrilling reality."-Globe-
