

MAKING FUSION MEDICINE

Selection of Thurston as Delegate Fits the Popercorn Program.

AIDS THEIR PLAN OF CAMPAIGN GREATLY

Action of the Nebraska Republican State Convention Inspires Received Activities in Democratic Circles.

LINCOLN, May 8.—(Special.)—From the sentiment gathered through expressions of politicians who make Lincoln their clearing house, the action of the recent republican state convention seems to be moulding opinion in several new directions.

"Nothing better could have happened to us," said one of them, "than to have the republicans refuse all of the advice given them by their more far-sighted leaders to the effect that the endorsement of Senator Thurston would leave open to question the good faith of their platform declarations against trusts."

The popularists seem also to have drawn new encouragement recently in their quest for the capture of the governor for an appointive position, who was in the city recently, showed your correspondent a letter which he had written to a friend, in which he said that the democrats were going to make an extra effort to have democratic candidates instead of populists put on the legislative tickets in order that they might have a preponderance of fusion members of the legislature, should they succeed in securing the nomination of a republican thereby insure the election of at least one democrat to the United States senate and perhaps two.

Campaign for the Legislature.

The letter, which is on a World-Herald letter head and dated at Omaha, reads as follows:

Dear Sir: I am sending this letter to representative duty to have in mind the state and I will greatly appreciate it if you will give it your attention and favor me with a reply. In the first place, the legislature is the body that will make the laws that govern the people of this state. It is the body that will determine whether we shall have a republican government or a fusion government. It is the body that will determine whether we shall have a government that is controlled by the people or a government that is controlled by the moneyed interests. It is the body that will determine whether we shall have a government that is controlled by the people or a government that is controlled by the moneyed interests.

Opposition to Thompson.

Upon the other side, here in Lancaster county, the outcome of the republican state convention seems to have created a great deal of alarm which has felt by the opponents of D. E. Thompson over his threatened ascendancy as a senatorial candidate. Speaking of the situation one of the men close to Mr. Lambertson said today: "It is little faulted about Thompson a week ago, but has gotten over that now. Talking with the delegates to the state convention the fact was disclosed that the feeling against Thompson throughout the state is almost as pronounced now as it was during the Hayward campaign. Thompson made us believe that he could have the fire ax in the state convention and that he would make all the various candidates settle with him before they could receive favor at the hands of the delegates. It turned out, however, that Thompson was not in control even of his Lancaster delegation, because Lambertson, as a condition to his withdrawal, insisted that part of the Lancaster vote be thrown to Thurston and the vote showed that the parties Lambertson dealt with had no other alternative."

A GOOD COMPLEXION

Depends on Good Digestion.

This is almost an axiom although usually we are apt to think that complexion, face powder, lotions, fancy soaps, etc., are the secrets of securing a clear complexion. But all these are simply superficial assistants. It is impossible to have a good complexion unless the digestive organs perform their work properly, unless the stomach by properly digesting the food taken into it furnishes an abundance of pure blood, a good complexion is impossible.

Lightning Starts Big Fire.

ST. PAUL, Neb., May 8.—(Special.)—During the violent thunder storm Sunday night lightning struck the large new barn of John E. McNeil, the originator of homing pigeons in the practice of medicine. The fire started in the barn and spread rapidly, and in a short time the barn and a large granary, eleven bays and 1,200 bushels of grain was consumed. The house was also on fire, but Mr. Irvine succeeded in saving the house. Loss about \$2,500 with only \$100 insurance.

SMYTH FILES HIS ARGUMENT

Attorney General Puts in a Printed Brief in the Standard Oil Case.

LINCOLN, May 8.—(Special.)—A brief in support of the state's side of the Standard Oil case was filed in the supreme court today by Attorney General Smyth. It touches the constitutional phase of the litigation only and quotes copiously from court decisions to show that the Nebraska anti-trust law is not class legislation and that it does not discriminate against or in favor of any class. It was argued and submitted at the last sitting of the supreme court and the brief filed today will go directly before the judges.

It was argued by the attorneys for the Standard Oil company that the law under which the suit was instituted deprived persons of property without due process of law and that it permitted laboring men to unite together for the purpose of maintaining a fair wage while prohibiting other citizens from forming combinations for the benefit of their trade or business. The attorney general holds that labor unions are formed for public good and should therefore be exempt from the restrictions of the law. Other combinations, he asserts, injured the public good and should be restricted. From a legal standpoint these questions are considered very important and their decision will have considerable bearing upon the final outcome of the case.

The appointment by Governor Poynter of the following delegates to the national farmers' congress was announced today. H. P. Akney, Laurel; J. P. Bishop, Lincoln; J. H. Carson, Omaha; R. E. Heath, Omaha; James Hill, Falls City; E. S. Isham, Fremont; M. J. Morse, Brainard; Isaac Neyses, Waterloo; M. A. Senter, Bancroft; W. G. Whitmore, Valley; L. F. PERUNA CURES CATARRH OF KIDNEYS EVERY TIME.

PERUNA CURES CATARRH OF KIDNEYS EVERY TIME.

DANGEROUS KIDNEY DISEASES CURED

Person Creating a National Sensation in the Cure of Chronic Afflictions of the Kidneys.

Mr. John Vance, member of Company I, 71st Ohio Infantry, First Brigade, Second Division, Fourth Army Corps, who lives at Warren, Ohio, in a letter dated June 7th, 1890, says: "My kidney trouble is much better. I have improved so much that everybody wants to know what medicine I am using. I recommended Peruna to everybody and some have commenced to use it. The folks all say that if Dr. Hartman's medicine cures me it must be great." In a later letter he says: "I am still improving in health; people call me well now. I am still using your medicine. People want to know what has done me so much good and I can easily tell them."

Mr. J. Drake of Petrolia, Ontario, Canada, writes: "Four years ago I had a severe attack of Bright's Disease, which brought me so low that the doctor said nothing more could be done for me. I began to take Peruna and Mannin, and in three months I was a well man, and have continued so ever since."

The kidneys separate from the blood a peculiar salt known as urea. If this salt is allowed to accumulate in the blood it quickly produces blood poisoning (uraemia). But, if at the same time the kidneys allow the serum of the blood to escape, it forms a fatal drain upon the system (albuminuria). Catarrh of the kidneys will so derange them as to produce both of these disastrous results, for not only will the kidneys fail to excrete the urea from the blood, but will allow the serum of the blood to escape with the urine.

If the kidneys are healthy they will excrete the poison from the blood. The renal veins return the purified blood from the kidneys to the general circulation.

At the appearance of the first symptom of kidney trouble, Peruna should be taken. The remedy cures me it must be great."

Peruna cures catarrh of the kidneys simply because it cures catarrh wherever located. No other systemic catarrh remedy has as yet been devised. Insist upon having Peruna. There are no imitations that can be substituted.

A book on catarrh, written by Dr. Hartman, will be sent free to any address by The Peruna Medicine Co., Columbus, Ohio.
