PUEBLO, Colo. May 2—(Special Tele-gram.)—St. Joseph fell before the Indians this afternoon in the closing game of the first series and honors were even on the four games. The play today was at times snappy and sharp, four double plays, many hits and the small error column indicating the quality of the playing. Davis, the visitors' first baseman, was ruled out of the game for kicking at Umpire Woodcock's decisions, which have been far from satisfactory to the fans here. Parroit, signed yesterday by Hulen, appeared for the first time today on Fueblo's second bag. Omaha opens here tomorrow for four games. Attendance, 500. Score:

Kearney Has Ball Fever.

KEARNEY, Neb., May 9—(Special.)—An epidemic of base ball fever has broken out in Kearney. Last year a few of the more enthusiastic citizens made an effort to place a team in the field and met with fair success. They started with nothing, not even a site and now a seven-foot fence surrounds a block in the heart of the city, bleachers and a grandstand were erected, suits and all the necessary paraphernalia were bought and when the season ended there was some money still in the treasury Great enthusiasm was manifest after the first two games were played and the season ended with everybody taking part in the meetings. This season Kearney has secured the Redmond brothers for its battery and the Redmond brothers for its battery and capects to be in the game at all times. LARKSPUR RUNS A PRETTY RACE. Captures the Mademoiselle Stakes

Captures the Mademoiselle Stakes

After She is Seemingly Beaten.

LOUISVILLE. Ky.. May 2.—Robinson & Leach's shifty little filly, Larkspur, proved herself of more than fair class this afternoon by the impressive way in which she romped off with the Mademoiselle stakes, seven furlongs, for 3-year-old fillies. The race was a selling sweepstakes, worth \$1,250. Several times during the race Larkspur was shut off and at one time it looked as though she was hopelessly out of it, but she came again and seventy yards from the wire was galloping, while the rest were all dizzy and stopping. She romped in an easy winner by about four lengths, in 1:32, good time for the condition of the track, which was muddy. Results:

First race, four furlongs: Silverdale won, Cluster second, Luego third. Time: 9:594, Second race, six and one-half furlongs; Kentucky Babe won, Sarilla second, Wilkerson third. Time: 1:25.

Racing at Morris Park.

NEW YORK, May 9.—The threatening and showery weather was responsible for a small attendance at Morris park today, but the racing was quite up to the standard. The Hoquet stakes for 2-year-olds and the St. Nicholas hurdle races were the features. The first resulted in a pretty race, with Educate, Fake and Lanceman heads apart at the finish. Fake was the favorite and showed the way for the greater part of the journey, but Educate and Lanceman passed him. He came again, however, but could not quite get up. Educate getting the decision by a short head. Results:

The death of Gordon, he continued, had been avenged. Perhaps it was too soon to say the great humiliation of Majuba had been effaced or that the great wrong had been righted, but they felt they were on the road to accomplish that end. Under the brilliant guidance of Lord Roberts, 200,000 soldiers, a larger army than had ever before been sent across the same expanse of sea, was now he said, "and I want to tell you Mr. Bryan engaged in reducing to obediency to the was nearer the presidency in 1896 than he queen those territories which ought never

I ceed to business and added he would speak have learned something from the South later. A motion was, at 4:25 p. m., carried African war-how a disloyal government, in spite of warnings, could accumulate armaments against the most powerful combatant and thus secure a terrible advantage. We now know better than we did ten years ago what a risk it would be if we gave a disloyal government in Ircland the power of accumulating forces against this country.

"Hereafter external affairs will occupy a considerably larger place among the prob lems we have to solve. Not necessarily be cause in themself they are more important, but if we look around we can see the clements and causes of menace and perils accumulating and they may accumulate to such an extent as to require our earnest and most active efforts to repel them.

"I am nervous at using language of such a kind, lest it should be thought I am indicating something that is not known to the foreign office, by pointing out this possible danger. But I wish most emphatically to say I have no idea of that kind. The state of affairs, as I know it and so far as the government is concerned, is peaceful. It is impossible to speak too highly of the careful. calm neutrality which has been observed by all the governments of the world," The premier's remarks were greeted with

loud cheers. Continuing Lord Salisbury Enid:

May Unite Against England. "A certain section of our subjects, not, I hope, a very large, though noisy one, has at the present moment a great prejudice against this country. It does not, however, follow that we have no precautions to take. Governments may come and go and feelings may change from year to year. That root of bitterness against England which I am upable to explain may be mere caprice to satiefy the exigencies of journalists today or it may indicate a deep-seated feeling which later we may have to reckon with. Everywhere the power of defense is increasing and who knows but all these things may be united in one great wave to dash upon our shores?

The premier then urged the necessity of precaution in time, remarking that the material for military aggression was yearly increased in power and efficiency among every one of the great nations, adding:

"In every case in history the great maritime power has been paralyzed-killed. Miss Mary Yoder will leave this week to make her future residence in Chicago. This statement was also greeted with loud applause. After a resolution urging British subjects

to prepare in times of peace so as to be ready to play their part in time of imperial emergency had been carried by acclamation, the meeting adjourned. Grand Army Bill Approved.

Marriage for Women

Marriage is a serious affair for a woman. It involves many new and serious duties for which none but a well woman is fitted. Too often a young woman, who is weak in the organs which make her a woman, enters into wifehood, without considering the consequences. Then her troubles multiply, and she becomes a burden to herself, and to her husband. Her children, if she have any, are sickly and puny. The relation that began so happily, ends disastrously. But there is a way to avoid all these troubles. Wine of Cardui, that wonderful medicine which builds up and strengthens the womanly organs, fits a woman for the married state. It is no experiment. It has been curing suffering women for generations. It is a remedy that always does the same thing-builds up the weakened female organs and makes menstruation painless and regular. A trial of

Wine of Cardui

will convince any woman of its wonderful power. Dr. W. W. Ward, of Concord, Ark., wrote Sept. 3rd, 1899: "I have used Wine of Cardui in my practice in female disorders and have had brilliant results with it." Try the Wine. You will soon notice the improvement. It is the best medicine made for every female disorder.

My health was not good when I was married two and a half years ago, and since then it has been much worse. My physician says I have displacement and ulceration of the womb. I suffer terribly at my monthly periods. Lately I have been using Wine of Cardui and Thedford's Black-Draught, and you wouldn't believe there could be such improvement in so short a time. I suffer so much less, am very much stronger and am gaining flesh.
