LONDON LIES AWAKE FOR NEWS OF RELI'F

All Eyes Turned Toward the Hamlet of the Plains for Tidiugs of Succor that Do Not

Come.

LONDON, May 18.-3:30 a. m.-England still waits with intense and almost breathless interest for news of the relief of Mafeking. A crowd remarkable for the number of men in evening dress and including many women were around the War office, even after midnight, hoping for some announcement. Only reluctantly did the peodisperse when the lobbies of the War office were finally cleared with the word that nothing had been received. One thing seems clear, the town still holds out.

Were it not so the Boer wires laid to the camps of the beleaguered garrison would have pussed the news.

Announcement that Was Premature. In the committee room of the House of Commons this morning Sir James Kitson. SURVEYING THE CANAL ROUTE member for Yorkshire, West Riding, Colne Valley division, announced that Mafeking Work Being Done in a Most Thorough had been relieved.

The War office, however, is unable to confirm the announcement.

Replying to a question in the House of Commons, at 4:30 o'clock this afternoon, the parliamentary secretary of the War office, Mr. Wyndham, said he regretted that

The latter part of Mr. Wyndham's reply is generally accepted as an intimation that the government is expecting the relief of Colonel Baden-Powell and his garrison would occur at about the precent time.

The Free Staters says the question of the disputed territory in are surrendering on all sides. One of President Stevn's brothers, who is prisoner of General Brabrant, easys that the Free Staters will accept annexation. Those who took up arms the second time, he explains, had to do so under threats of instant death if they refused.

Five hundred rifles have been surrendered at Kroonstad in excess of the number of Boers who have taken the oath of allegiance. Lord Roberts has directed the British commanders to receive all comers in a good spirit and to issue to them passes to go to their farms.

General Buller is pressing straight ahead without opposition. He has only lost five wounded during the movement. Apparently be is aiming at Laing's nek, which is the direct road to the Transvaal, although he may diverge to Botha's pass.

General Hunter's movements in the Western Transvaal are rather puzzling. He has returned to Fourteen Streams with one brigade leaving another, General Barton's Christiania. Lord Methuen is said to be advancing along the south bank of the Vaul Colonel Kekewich is with him. The bridge across the Vaal is fast nearing completion The probability is that General Hupter took back a brigade to Fourteen Streams owing to the scarcity of transport,
