OMAHA-TEXAS TARIFFS TO BE LOWERED

Railroad Commissioners Reduce Freight on Packing House Products from Texas to Texas Points.

By reason of a recent arbitrary ruling adopted by the railroad commissioners of Texas rates on packing house products from Omaha to Texas points have taken a decided tumble.

Official announcement of the new rate was first made by the Frisco line, which operates from Kansas City south into Texas.

For some time past there has been a feeling of uneasiness in the packing house circles of Omaha and in railroad circles that freight rates were in a chaotic condition.

That the situation in the east on business destined to Omaha is somewhat critical was admitted by a well-informed and interested freight official.

Ten Years in Business.

Ten years ago today Albert Edholm, the jeweler, at 107 North 16th street, began business for himself at the above location.

In 1879 he finished his trade as jeweler and diver, and from 1884 to 1890 was employed as head salesman for the firm of Edholm & Erickson.

When he first branched out for himself he had but a few hundred dollars capital—and comparatively no credit—and the obstacles to overcome were many.

His stock was small, and then came the general depression in business all over the country, but with all that he gradually increased his business, and now on his tenth anniversary the most gratifying conditions exist, he having one of the handsomest stores in the city and a stock of goods, the quality of which is the best produced.

His mercantile rating is high, he is discounting every dollar's worth of goods he buys.

Mr. Edholm has lived in Omaha all his life, and today his business is so gratifying that there is little fear of his ever leaving here.

His success is due to the fact that he has splendid business ability and is honest and upright in all his dealing.
