#### ITS TRUE CHARACTER.

Cainrrh is Not a Local Disease. Although physicians have known for years that catarrh was not a local disease but a it is simply a local trouble and try to cure snuffs, ointments and inhalers.

These local remedies if they accomplish anything at all, simply give a very temporary relief and it is doubtful if a permanent cure of catarrh has ever been accomplished by local sprays, washes and inhalers. They may clear the mucous membrane from the excessive secretion but it returns in a few hours as bad as ever, and the result can hardly be otherwise because the blood is loaded with catarrhal poison and it requires no argument to convince anyone that local washes and sprays have absolutely no effect on the blood.

Dr. Ainsworth says, "I have long since discontinued the use of sprays and washes pelled to be confined to her home for many for catarrh of head and throat, because they weeks. simply relieve and do not cure.

"For some time past I have used only one treatment for all forms of catarrh and the results have been uniformly good, the remedy I use and recommend is Stuart's Catarrh Tablets, a pleasant and harmless preparation sold by druggists at 50 cts., but my experience has proven one package of Stuart's Catarrh Tablets to be worth a dozen local treatments.
