COMMERCIAL AND FINANCIAL

Dry Weather in the Northwest Advances July Wheat.

BEARS ARE SURPRISED BY CORN'S MOVE

Onts, Like Corp. Lags Early, but Closes Strong-Provision Market Firm in Sympathy with Wheat and Corn.

CHICAGO, June 8 .- Heavy general buying, caused by the dry weather in the northwest, advanced July wheat 25c today. Sympathy with wheat advance I the other markets. July corn closed Paulice and July corn %c higher. Provisions at the close were from 5c to 75c improved. wheat opened at 719/71%c, a flat jump from yesterday's close of 1552154c. Then began a trade which, in excitement and volume exceeded even yesterday's, when traders were referring to the days of the Leiter deal for comparisons. The advance was occasioned by the fact that the northwest was still without rain. Realizing sales were heavy, however, and July following the opening, declined to 70%c. Then the pressure of buying orders, bunches of which every man in the pit seemed to have in the greatest plenty. came to the aid of the market and the shot up to 71%. Lots which during the recent duliness would have caused a break in prices were absorbed without a fromot. At this point the weather bureau amount extension of showers for the recent duliness would have caused a break in prices were absorbed without a tromor. At this point the weather bureau announce ment of indications of showers for the morthwest on Saturday caused some cessation in the buying and the takers of profit forced July gradually back to 1945. The dip, however, merely gave the buyers a breathing spell, for at the price just quote they jumped into the pit with renewed vigor. Northwest interests bought enormous quantities, as did influential locals. Some who went short early upon the theory that the advance of yesterday would in the natural course of things be followed by a reaction, covered, this aiding in the advance. Trading during the last hour was very heavy. July climbed up to 1934, and closed 23c improved at 1934724c. Cables were strong and the situation in Indiana. Ohio and Michigan not improved but these considerations, as well as the immediate cash position, were far in the background as influences. The northwest had the center of the stage all to itself. Testimony from the spring wheat territory was nearly unanimous that the crop situation was becoming more critical. As a rule private advices from the northwest described yesterday as the worst which the crop has undergone so far. High winds and sauds yesterday, it is said, did further damage to the North Dakota crop. Throughout the entire session the northwest bought, persistently and heavy. Naturally, there was a great deal of liquidation, but the small part the northwest took in this was noticeable and was a factor in the small part the northwest took in this was noticeable and was a factor in the small part the northwest look in this was noticeable and was a factor in the small part the northwest look in this was noticeable and was a factor in the small part the northwest look in this was noticeable and was a factor in the small part the northwest look in this was noticeable and was a factor in the small part the northwest look in this was noticeable and was a factor in the small part the northwest look in thi and Duluth reported 450 cars, against 714 last week and 440 last year. Local receipts were 72 cars, two of contract grade. Corn was easy and dull during the first advance in wheat and gave no indication of the masked buttery it had prepared for the bears, and which it uncovered at a critical time and sent them rushing to over. The pit had been deserted in favor of wheat until some buying orders brought out the fact that there was little for sale, in a few minutes July went up over a

out the fact that there was little for sale. In a few minutes July went up over a cent a bushel. The condition disclosed in corn was due to the wheat strength and once started the shorts were not to be denied. July sold between 38% and 40% closing 15% improved at 40% 30% Lacut receipts were 484 cars. Country offerings Were small.

Outs, like corn, lagged early, but later, in sympathy with the corn and wheat strength, braced up and closed strong, although trade comparatively was not very active. Shipping business was slow, July sold between 21% and 22%722%, closing 3, better at 22%. Receipts were 157 cars. The provision market was firm, in sympathy with wheat and corn. The opening was firm on an advance at the yards, but hogs later eased off, but cousing as a built influence for the day. There was a fair demand, but offerings in the pit were fairly liberal. July pork sold between \$175 and \$11.95 and closed 7% over yesterday at \$11.95 and closed 5% figher at \$7.90, and July ribs between \$6.55 and \$6.90, with the close \$6.75c better at \$6.90.

Estimated receipts tomorrow: Wheat, 50 cars; corn, 300 cars; oats, 155 cars; hogs, 9.000 head. Oats, like corn, lagged early, but later,

the leading futures ranged as follows:

MOVEMENTS OF STOCKS AND BONDS.

grass tings, **Sirga, large, colored, 94,92%, small, white, \$\frac{1}{2}\$ small, white, \$\frac{1}{2}\$ small, colored, \$\frac{1}{2}\$ small, white, \$\frac{1}{2}\$ small, colored, \$\frac{1}{2}\$ small, white, \$\frac{1}{2}\$ small, colored, \$\frac{1}{2}\$ small, white, \$\frac{1}{2}\$ small, \$\frac{1}{2}\$ Strange Cubination of Bull and Bear There was a relaxation of the pressure on foreign markets due to apprehension over the trouble in China, and London bought stocks here to a moderate extent, causing some slight gains early in the day. The preliminary estimates of the bank statement figure out a small loss in cash owing to the week's heavy absorption by the subtreasury, which amounted to \$1.17,690, all on account of the call by the treasury of government denosits in the banks. The estimates of receipts from the interior are slightly in excess of those made last Friday's estimates fell short by \$1,500,000 of the actual receipts, so that a gain in cash in tornorrow's statement would not be surerising. The market closed active but weak at about the lowest.

The bond toarket was very dull and price changes were remarkably small. Total sales, bar value, \$1,0000 United States bands were unchanged in bid quotarily.

The Commercial Advertiser's London

The Commercial Advertiser's London The Commercial Advertiser's London financial caolegram says: The markets here today were during most of the session a repetition of yesterday's, closing, however, with a firmer tone on the belief that the powers will act harmoniously in China. Consols were sold for hedging purposes. London stiffened Americans readily by buying a few Union Paclacs, but New York decreased the list in the street. Corper shares were weak early, but railied later in response to fluctuations in metal prices. The bank lost £200.60 gold to the Cape and bought £35.60 bars. Payment of the war loan installment due falled to disturb the money market.

Following are the closing prices on the money market.

Oneses buyYork of the highest to the lowest the active operations showed a range of only 4 points the highest to the lowest the active operations showed a range of only 4 points that the highest to the lowest the active operations, and the summer months, which fluctuated 56:10 points. The market opened was the case of the summer months, which fluctuated 56:10 points. The market opened was the property of the summer months, which fluctuated 56:10 points. The market opened was the property of the lowest that two prominent of the for southern account. Rumor gained circulation to the effect that two prominent property is a particularly oversold July parties. It was given the particularly oversold July parties. It was given reported that there was to be a like two prominent particularly as the repent course of summer months here. These reports kept the bear faction in an aneasy frame of mind. Darticularly as the repent course of summer months here and the south has been upward, with today's advance reaching 14 points on July. Conservative parties were eventical, however, and disposed to ridicule the news. The warehouses were poorly sumplied with business and new spoculation in general failed to develop on a liberal scale. Toward the close the views of both branches of the trade seemed to favor procrastination until the government report has been thoroughly considered and the holiday season in Liveronol is closed. The marticular was finally quiet and steady at a net given of 1 to 14 points.

NEW YORK, June S.—COTTON—Futures closed quiet and steady. June 8.45c; July, 344c; Aug 181, 8.16c; September, 7.8c; October, 7.8c; April, 7.8c; May, 7.8c; March, 7.8c; Ma

CATTLE—Receipts today were small as compared with some of the big runs we have been having of late. Still there was a fair showing for a Friday. The market as a whole was in satisfactory condition and without material charge. The demand for cornfed steers seemed to be good and buyers were all looking for supplies, although the market was not particularly active. The prices paid were fully steady and in spots, stronger.

STOCKERS AND FEEDERS the week so far, but to offset that there was a good local demand, and at the same time favorable advices from eastern markets. Under these influences the market bere was fairly active at prices that were 5200c higher, or to nut it a little more definitely. The higher than yesterday. The general run of the good mixed loads, such as brought \$4.35 yesterday, sold at \$5.020c tokey. The ton, \$5.070c was fairly active at the advance, so that the most of the horse changed hands early in the morning. Later on, after orders were pretty well filled, and after later messages from Chicago reported an easier close there, the market here slowed up and the last thirty loads were rather duil sale and the closing easier.

It will be noted from the table of average prices above that the hogs today sold just about 15c higher than one week ago, and

610 2 25 1 960 1 00 2

only a shade lower than two weeks ago it will also be noted that this is the firs time since May 25 that the hogs have averaged over \$5.00.

CHICAGO LIVE STOCK MARKET.

polies, although the market was not particularly active. The prices paid were fully steady and, in spots, stronger.

Cows and helfers were also in good demand and the supply was soon wheel out it inder the influence of the good demand. As was the case with cornfed steers, values sold in practically the same notches as yesterday.

There were only a few stockers and feeders in the rards and the market on it that kind of cattle was unchanged. In fact there have not been enough stock cattle here this week to cut much figure with the last little change in any direction. Representative sales:

Sold by Kuhn & Co., 18th and Douglas, and J. A. Fuller & Co., 14th and Douglas. ALABASTINE Is a our control coment-

base wall coating. in 5 lb, paper packages, made ready for use in white and fourteen beautiful tints by mixing with cold water. It is a cement that goes through a process of setting, hardens with age, and can be coated and recoated without washing off its old coats before renewing.

ALABASTINE different from all the various kalsomines on the market, being durable and not stuck on the wall with glue. Alabastine customers should insist on having the goods in packages properly labeled. They should reject

ALABASTINE

Prevents much sickness, particularly throat and inng difficulties, attributable to unsanitary coatings on walls. It has been recommended in a paper published by the Michigan State Board of Health on account of its sanitary Board of Health on account of its sanitary features; which paper strongly condemned kalsomines. Alabastine can be used on either plastered wals, wood ceilings, brick or canvas, and any one can brush it on. It admits of radi-cal changes from wall paper decorations, thus securing at reasonable expense the latest and best effects. Alabastine is manufactured by the Alabastine Company of Grand Rapids, Michigan.
