THE OMAHA DAILY BEE: SUNDAY, JUNE 17, 1900.

-Coming in Quite Freely for This Month.

Trade conditions in this section of the country continue most prosperous. There is no particular rush of business, but at the same time there is a good, steady demand for practically all lines of seasonable goods, and when comparisons are made with last year it is found that there is no cause for complaint with the present state of trade. Retailers are perhaps rather heavily stocked, but not what might be called over stocked, for in most cases the 1871 goods they have on hand are good pron-They have done more business this year than ever before, but on account of their having bought heavily early in the season they are not sending in as many duplicate orders as in some years past when advance business was only of normal when advance business was only of normal size. Local jobbers, however, are greatly pleased with the general trend of events and see nothing but encouragement in the future. Fall business so far has also been entirely satisfactory, and the continued favorable outlook for big crops is having a wonderful influence on future pushess. The feeling throughout the country esems to be that prosperity has only begun, and as long as that is the case little difficulty need be expected in getting merchants to anticipate their wants to a reasonable ex-tent.

anticipate their wants to a reasonable ex-tent. The markets are in just about the same position they have been in for the past few weeks. In hardware and dry goods the readjustment of prices is still going on, but still there is nothing that might be called a slump. There is a decidedly firm under-tone to the markets and local jobbers figure that in a short time prices will settle down to a fairly strady basis. The grocery market is very firm all along the line and some sharp advances have taken place since last report.

Sugar Again Advances.

Sugar Again Advances. The principal excitement on the grocery market last week was the advance in sugars amounting to be per 100 pounds. This affects all lines. The demand is still unusually heavy for even this season of the year, and it is thought will continue so for the next twenty or thirty days. Refineries are oversoid from ten days to two weeks, so there is a good prospect for a shortage. Local jobbers are advising their patrons to anticipate their wants and buy now, as there is no chance of the market going down for the present, and it may advance still higher. Besides that a little later on it may not be a question of price, but a question of getting stock at any figure.

The coffee market is also very strong, and easter advices report prices advancing as a result of the reduced estimate of the coming crop. The demand continues very heavy and still higher prices are being pro-dicted. The decrease in the visible supply last month amounted to about \$3:000 bags. The principal feature to the canned goods situation was the failure in the Baltimore pea pack. The pea louse made his ap-pearance this year, the same as last and entirely destroyed the vines. As a result the market advanced 10000c per dozen. It is impossible as yet to tell what the outcome of the western market and there are very few packers who now have anything to offer. The market on spot tomatoes is firmer in the east, but prices advanced 10000 at all cheese boards in Wisconsin the early part of last week, and New York state markets also advanced their prices a corresponding amount. In the dried fruit line there is little change except in evaporated apricots, which are being quoted a little lower. The decline is owing to the near approach of the 1950 rected on the market early in July. The california Fuilt Canners' association mamed the opening prices on their products last week. The quotations are considered they ser, as compared with last, on th cans, boxes, labels, etc.

Local receipts were 12 cars, one of con-tract grade. Corn was firm, in sympathy with wheat, being a number of desertions from that pir to wheat. Country acceptances of last night's bids were small, which was also a help. The Argentine corn surplus avail-able for export was put at 12,000,000 bu, a condition to which the bulls called atten-tion. Local receipts were 631 cars. July sold between 35c and 35%c, closing $\frac{1}{2}$ cup at 35%c.

work good buyers of both July and September, while the best selling came from No. Pacinal profit-takers. The northwest took profits iberally on their September stuff around 22% c. September opened at 22% 25% c. sold between 22% c and 20, closing $\frac{1}{2}$ over yesterday at 22% c. Receipts were 256 cars. The provisions market was fairly active and strong. The strength was because of light hog receipts, higher prices at the yards and to a degree on the grain strength do 154 pfd. St. L & S. F. do 24 pfd. St. L & S. F. do 24 pfd. St. L & Suff.

at 16.70. Estimated receipts for Monday: Wheat, St. L Southw 95 cars; corn, 740 cars; oats, 500 cars; hogs, St Paul head.

St. Joseph Live Stock.

SOUTH ST. JOSEPH, Mo., June 18 .- (Spe

cial.)-The Journal quotes: CATTLE-Receipts, 100 head. Market

Stock in Sight.

Following are the receipts at the four principal western markets for June 16: Cattle, Hogs Sheap

boxes, labels, etc.

Hardware Market Unsettled.

The hardware market is still in rather an unsettled condition. There also seems to be considerable difference of opinion as to the future course of the market. Some hold that the present flutterings are only temporary, and that in a short time prices will again start upward. Others, on the contrary, are of the opinion that the pres-ent disturbed condition is more on the surface, and that there will be some farther weakening. But whichever may be the weakening. But whichever may be the case, no one is looking for anything re-sembling a general slump, and the feeling is that hardware is good property. The high points will doubtless be cut down, but the market as a whole is in too healthy a condition to take a drop.

weakening. But whichever may be the case of case. So on one is looking for anything resembling a general slumn, and the feeling affort state, 30 c. 1. 6. The local dry goods market is in a very satisfactory condition. Jobbers renort a state and are not worrying for a big demand in the fall, and the way having a good trade and are not worrying for a big demand in the fall, and the way they will not before Serie tenort considerable confidence at any price. Manufacturers are not offer for the linkes of next summer on the market, and say they will not before Serie tenort. Underwards is nother line that fracturers are not offer for the linkes of next summer on the market, and say they will not before Serie at any price. Manufacturers are not offer for the linkes of next summer on the market, and say they will not before Serie at any price line linkes for next summer on the market, and say they will not

Fall Business Coming Along.

The boot and shoe situation is much the time as it has been for several weeks ast. Jobbers are not being rushed with usiness, but at the same time they are boing fully as much as they could rea-brably expect taking everything into con-deration. Fail business to monotonic for the severation of the sideration. Fall business is unusually good and the prospects are that before the sea-son is over jobbers will be able to make a very favorable showing as compared with previous years.

The hide market is just about in the

same position it was a week ago. The market is not very firm, but still no marked decline is looked for at present.

Fruit and Produce.

Fruit and Produce. Last week was another busy time for fuilt and produce men. There was a fairly libral supply of strawherries on the market, but the season is now practically at an end, only a few berries from nearby points coming in. Blackberries are begin-nic, to come and are cuoted at \$250 per second case. Both red and black rash-berries are also on the market, the former selling at \$3.00 per 24-mart case, and the latter at \$2.50 per 24-mart case, and the are also to be had at \$5.00 per 24-mart case. The quotations on California fruit are de-clining slightly, as the samply increases Peaches are worth \$1.60 pt 4 anticots \$1.55 There is nothing particularly new in the generate line excent that prices are still going down, especially on new potates. The surply of old stock is setting pretty well cleaned un, and although the new

The surply of old stock is setting pretty well cleaned up and although the new polatoes are coming from pretty well south they are of good quality. The err market eased off a tride last week owing to heavy receipts. This mar-ket has been high in comparison with sur-rounding poluts, and as a result this mur-fet is heavily supplied. Builter is queted board the sums as it has been how that Fet is beauly supplied. Butter is quoted about the same as it has been, but that, too, is rather like as commared with other claces, and receipts are fairly liberal. Poultry, however, is firmer than it has been. The supply of fish is also ourse theral, for which there is a good steady demand.
