STORY OF BEATRICE BATTLE STATE TEACHERS IN SESSION HOLIDAY AT HEMINGFORD PLATTE TAKES ANOTHER LIFE NEW NEBRASKA LAWYERS

Followers of Lang Defend the Institute Against Dearing Forces.

NUMBER OF CASUALTIES ARE REPORTED

Dr. Dearing Quoted as Saying He is Tired of the Struggle and Prefers an Office Without Fights and Law Suits Attached.

BEATRICE, Neb., June 16 .- (Special.)-Further investigation of the trouble at the Institute for Feeble Minded yesterday afternoon shows that the attack was a premeditated and well arranged one, and had it not been for the alarm given by one of the inmates the scheme to secure possession of the records of the institute might have been successful.

Dr. Dearing, Steward Stewart and Clerk McEntee, together with Constable Grimes and a posse sworn in for the occasion, went out to the institute about noon yesterday, arriving there while Superintendent Lang and his force of assistants were at dinner, and approaching from the east side of the main building by way of the engine house attempted to gain entrance without arousing Lang.

The alarm was given by one of the inmates, who notified Mrs. Lang, who at once went to the office, and seeing that some kind of a move was on called for the doctor. Dr. Lang at once ran to the main office, where he found Stewart, McEntee and the posse already in possession. Running through the party in the office, the doctor placed his back against the door leading to the private office and asked the intruders what they wanted. He was informed that they had come after the records of the institute in the name of ing is from 85 to 95, the second from 77 to Stewart as steward, and the constable then produced a writ of replevin, which was read to the doctor. Dr. Lang says that immediately after reading the writ to him the conrest. Dr. Lang then asked why and was told in all classes would be better. that it was for resisting an officer.

from the building. While the doctor was in assisted by Mrs. Alvord and Mrs. De Wolf, threw her arms around his neck and tugged away in opposition to Constable Grimes, while Mrs. Alvord tried to unclasp Grimes' hands from around the doctor's throat. During the melee someone handled Mrs. Alvord rather roughly, fracturing the little finger on her left hand. McEntee, it is claimed. grabbed Mrs. Lang by the shoulders and tried to force her to the floor, and in the struggle her ankle was severely wrenched. Stewart was said to be armed with a fourtonged ice chisel and during the mix-up it came in contact with Lang's wrist, scratching it enough to draw blood, but not seriously

Prof. Waterhouse of Omaha Tells His Plans for the Next School Year. AURORA, Neb., June 16 - (Special.) -

The annual teachers' institute of Hamilton ounty, under the management of County Superintendent McCarthy, began in the Aurora High school building, Monday, June it will, as usual, continue for two weeks.

The instructors for the present station are: Prof. Waterhause of Omaha, who was here last year; Prof. Hiestman of Lincoln and Mrs. Gable of the Aurora High sch ol, who has been in the work in Hamilton

county for a number of years. The enrollment began early Monday morning, but by 9:30 o'clock only sevent; teachers were enrolled, this being le s than the general attendance. Prof. Wate house, who has charge of the work in didactics, spoke of his recent experience with celfgovernment in the Omaha High school and admits that it was not an entire success in mest of the grades, but this he said was not the fault of the plan, but the failure was the result of the previous conditions and management of the pupils and he declared his intentions to carry it into effect in his next year's work, as he said he knew the idea to be right. Prof. Hiestman gave an interesting talk

on history

In Wednesday's arithmetic class, Prof. Waterhouse spoke at length upon the plan he had laid out and that he expected to put in operation at the beginning of next year in the Omaha schools. He said he had found great difficulty in his work this year, from the fact that it was impossible to keep the bright and dull pupils together. To avoid this he has asked all of his teachers to divide their classes into groups first group consisting of those whose stand-85 and the third to contain all with a grade from 70 to 77. By this plan each pupil could be retained in his proper sphere and it would give the bright pupils a chance to stable informed him that he was under ar- advance without interruption and the work

To put this plan into operation, Prof. Dr. Lang says that he stated to the officer | Waterhouse said it would be easy in a city that he had not to his knowledge resisted the size of Omaha. The experiment will be anybody, and that if the books were what watched with interest by -all teachers, as they were after they would be found on top well as patrons. By this method a student of the safe. He, however, refused them en- may finish his course at any time, according trance to the private office, where his own to his ability. The speaker then took up doctor away from his captors. Mrs. Lang and not enough attention paid to developing the ability of the pupil. The attendance this week has been small,

but the superintendent hopes for a much larger attendance the coming week. ORD, Neb., June 16 .- (Special.)-The twentieth annual teachers' institute of Valley county is now in session, with good attendance. Superintendent Blessing's choice of instructors is proving highly matisfactory, all of them being teachers of wide and successful experience. Superintendent C. R. Atkinson of York and Superintendent C. L. Anderson of Ord have charge of the institute work proper, while Mrs. Alice Trimble of Ord instructs in primary

methods. Superintendent Atkinson has proven himself a teacher of excellent ability. He gave a lecture on Tuesday evening, which was well received. An informal and Miss Bradburn, the stenographer. Town Celebrates Second Anniversary of Ettablishment of Creamery.

GOVERNOR POYNTER IS SPEAKER OF DAY

Addresses Are Made by a Number of Prominent State People and Program Draws Crowds from surrounding Country.

HEMINGFORD, Neb., June 16 .-- (Special.) -Tuesday was a gala day in Hemingford occasioned by the celebration of the second anniversary of the establishment of the Hemingford creamory, the banner skimming station of the world. The morning dawned brightly and by 10.30 a. m. several hundred people had gathered and headed by the Hemingford cornet hand, the forester team of the Modern Woodmen in uniform and the Ladies' Progressive club, marched to the depot to meet Governor Poynter and the Lincoln delegation, consisting of Prof. Haecker and Dr. Peters of the State university, Mr. and Mrs. W. W. Marple and Miss Holmes. From the depot the large assemblage proceeded to the pavilion on Box Butte avenue where the celebration was held. The meeting was called to order by John

Armstrong, president of the local organization, who introduced Hon. A. Sherwood as president of the day. Governor W. A. Poynter was then introduced and stepped to the front of the platform. He was found to be a ready and entertaining speaker. He said the more he traveled over Nebraska the more. The commencement season of the academy he was pleased with the beauties of the came to a close this evening and marks the state and the intelligence of its people. State Electro-Medical Institute Which Combines All the Curative Powers of Both Medicine and Electricity in Our System of Electro-Medical Treatment.

Specialists for Diseases of MEN. Specialists for Diseases of WOMEN.

DOCTOR TOLSON. Of the State Electro-Medical Institute. Specialist in the Diseases of Men

Specialist in the Diseases of Men The statement that "an ounce of gold is worth more than a pound of brass" may be variously applied. As an instance, the true specialist, who has given his life and labor to a particular branch of his profession, thereby becoming supreme in it, is worth more in the treatment of cases within his speciality than a dozen ordinary doctors who pretend to care all diseases; worth more than burrels of patent med-clines and free trial samples; worth more, too, than all the belts, secret appliances and similar devices in existence. Such inferior treatment I discarded more than a score of years ago, and since then have concentrated all my professional en-ergies on male maladies alone-have originated and perfected various forms of treatment for VARICOCELE, STRICTURE, SYPHILITIC BLOOD POISON, SHAT-TERED NERVES and associate discuses and weaknesses of men which make their cure an unqualified and absolute certainty. If you are thus afflicted I carnestly invite you to call upon or wrife to me for full information. A private consultation, a careful personal examination, together with an honest and scientific opinion of your case, will be absolutely free to you, and a perfect cure. If you decide to take it, will not cost you more than you will be willing to pay for the benefits conferred.

VARICOCELE AND ITS NEW REMEDY.

Whatever may be the cause of Varicocele, its injurious effect is well known. It de-presses the mind, weakens the body, racks the nervous system and ultimately leads to a complete loss of sexual power. If you are a vicilin of this dire disease come to my office and let me explain to you my process of treating it. You will then not wonder why I have positively cured more than 500 cases of Varicocele during the past twelve months. Under my treatment the patient improves from the very be-sinning. All pain instantly ceases. Soreness and swelling quickly subsided. The pools of stagnant blood are forced from the dilated veins, which rapidly assume their normal size, strength and soundness. All indications of disease and weakness vanish completely and in their stead come the pride, the power and the pleasures of perfect health and restored manhood.

STRICTURE PAINLESSLY REMOVED.

It matters not how long you have suffered from Stricture, nor how many different doctors have disappointed you. I will cure you just as certainly as you come to me for treatment. I will not do it by cutting or dilating. My treatment is new, en-tirily original with me and perfectly painless. It completely dissolves the stricture and permanently removes every obstruction from the urinary passage. It stops every unnatural discharge, allays all inflammation, reduces the prostate gland when enlarged, cleanses and heals the bladder and kidneys when irritated or congested, invigorates the sexual organs, and restores health and soundness to every part of the body affected by the disease.

ALL REFLEX DISEASES DISAPPEAR.

In curing an ailment of any kind I never fail to remove all reflex complications or associate diseases. If the case is Varicocele the weakness caused by it disap-pears. If it is structure and has developed into Prostatic, Biadder or Kidney af-fections the injured organs are all restored to a perfectly healthful condition. If it is Syphilis, any and all Skin, Blood and Bone Diseases arising from the taint are entirely and permanently eliminated from the system. If it is Impotency the many distressing symptoms following in its train and indicating a premature decline or physical, mental and sexual power are totally removed and rapidly replaced by the youthful energy of robust manhood. Hence all resulting like and reflex compli-cations, which may be properly termed associate diseases, and which, in fact, are often more serious than the original alignent that gives rise to them—all, I say, disappear completely and forever with the cure of the main malady.

WOMEN DO YOU KNOW that our combined Electro-Medical Treatment will acute or chronic aliments avail yourself at once of this most successful and life-riving combined treatment. Backaches, headaches, painful menstruation and leuchor-rhea are permanently and quickly cured. Don't consent to that operation until you have investigated this system.

The Electro-Medical Specialists of the Different Departments

showers in northeastern portions Sunday; Nose, Throat and Lungs, Head, Heart, Stomach and Bowels, Liver, Kidneys, Sherman, Mystic, Conn.; Rev. T. J. Van- Monday, cooler, with showers; west to Rheumatism, Catarra, Paralysis, Piles, etc. All Diseases Peculiar to Women, Private Diseases, Contagious Blood Polson, Rupture, Stricture, Varicoccie, Hydrocele, Shattered Nerves, and all Allied and Associate Discases of Men.

CORRESPONDENCE.

Most cases can be treated successfully at home. One personal visit is prefer-red, but if it is impossible or inconvenient for you to call at our office, write a full and unreserved history of your case, plainly stating your symptoms. Physicians having stubborn cases to treat are cordially invited to consult us. We make no charge for private counsel, and give to each patient a legal contract in writing, backed by abundant capital to hold for our promises. Address all letters to
