Americans Fight at Tien Tsin.

LONDON, June 23.-3 a. m.-The stience of Pekin continues unbroken. Four thousand men of the allied forces were having sharp defensive fighting at Tien Tsin Tuesday and Wednesday, with a prospect of being reinforced on Thursday. This is the situation In China as set forth in the British government dispatch.

"Eight hundred Americans are taking part in the fighting at Tien Tsin," says the Shanghai correspo dent of the Daily Express in his cable of last evening, "and they apparently form a part of a supplementary force, arriving with Germans and British after the conflict started. It is impossible to stimate the number of the Chinese there, but they had a surprising number of guns, brought by the United States gunboant Nash.

and clamoring for the death of all foreigners. The English consulate at Shanghai is said to have received from influential natives reports of a tragedy in the palace at Pekin, though precisely what it is is not defined. The consulate thinks that Admiral Seymour. commander of the international relief column, was misled by information from Pekin, and consequently underestimated the difficulties in his way and the Chinese power of resistance with Maxim guns and Mausers. The consuls at Shanghai still believe the foreign ministers at Pekin safe, although Japspesse reports received at Shanghet allege there and American interests. More troops for the international forces at Tien Tsin that up to June 15 100 foreigners had been than those already detailed will be sent to killed in Pekin.

Whether the powers interested in China will ultimately reach an agreement regarding concerted action seems to be uncertain judging from the results of investigations made today by the correspondent of the Associated Press, that no such an agreement has yet been reached. The same scries of questions was put successively the German foreign office and to the Rus-

sian and French embassies. The German foreign office said: "The powers just now are agreed as to three oints only, the relief of Tien Tsin and Pekin, adequate satisfaction for the injuries sustained and the establishment of guarantees against the repetition of such outrages. The Bacon resolution received the subport of nearly every democratic senator
and was adopted by a democratic caucus
in the house. This resolution provided for
independence. If it had been accepted and
acted upon when it was first introduced
there would have been no Filipino war. If
it had been adopted at the time the war
vote was taken it would have stopped the
war. Very truly yours.
