WEEKLY REVIEW OF TRADE

doing it regardless of the cost of them.

Crop Situation in Northwest Chief Feature of Market

EXTENSIVE INCREASE OF FOREIGN DEMAND

If Coming Crop Falls Below Expectations Demand for it May Be Surprising Even if Prices Average More Than Expected.

NEW YORK, June 22 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

Weekly Review of Trade tomorrow will say:

The damage to the wheat crop of the northwest is the event of chief importance. How extensive the loss may prove, in view of widely conflicting accounts, can only be judged from the speculative markets in which information gathered at the west has caused a remarkable advance, at Chicago 15c in ten days, and the price here has advanced lie per bu. though for the September option only 9c. The belief is that so large a part of the spring wheat has been killed as to reduce a yield expected to be close to the largest on record to considerably less than the world has required during the crop year now ending.

Until within the last three years it would have been reasoned that any material advance in price would neutralize the foreign conditions, which had caused exports of about 180,000,000 bu. of wheat flour included, in the closing year, after 222,000,000 bu. in the year 1828, besides exports of 213,000,000 bu. in the year 1828, besides exports of 213,000,000 bu. in the previous year. But the facts seem to indicate a more extensive and 1817ing. The United States continues to show enormous power to increase, if supported by prices which until recent years, would hard has been regarded remarkably high. If the coming crop falls much below expectations the demand for it may prove surprising, even though prices average more than has been expected.

The closing of manufacturing works at

been expected.

The closing of manufacturing works at this season usually has a double meaning. The labor organizations seek in the summer vacation a settlement of wages for the coming year. Last year the pressure for products was so great that concessions were readily made and others later, so that the rate of wages became the highest ever known since the currency was depreciated. This year extensive demands are being made without approach to settlement as yet in been expected. without approach to settlement as yet in many of the branches of business, so that the summer vacation may be more extensive and in some lines longer than usual. There will be time to work off excessive to a new basis for the latter half of the

In fron and steel progress toward that end was made when the structural oroducers a week ago reduced the prices of beams to \$1.50 and angles to \$1.50 at Pittsburg, leaving only rails and tin plates, which have not been reduced from the highest point. The rail works are crowded far ahead, and the question in tin plates depends largely upon wages. Eastern bar is reduced to 1.50 and steel bars to 1.50c at Pittsburg, with a general shutting down of works expected July 1. Hoops are quoted there at 2.25c and No. 27 black sheets at 3c, with buyers asking only for small lots. There is a wide range of quotations for merchant steel and the lower prices named for pipe have only started the demand a little, as buyers expect yet lower quotations. Minor metals are also quiet, with small transactions. The shipments of boots and shoes, only 23,741 cases in three weeks of June, are over 29 per cent smaller than in 1890 or 1856, and smaller by 10 per cent or more in other years. The jobbers still appear inclined to walt and some manufacturers deciline quotations recently named and have closed or reduced force. Of necessity the best economy in production cannot be reached under such conditions. Hides at Chicago are not changed for the week, as reported gains and losses balance.

Lower prices are again reported for several grades of cotton goods, and are expected for others, and buying is thereby retarded. Heavy brown goods and drills and denims are dull and without doubt the uncertainty of the material market had some influence. The price for raw cottons has year.
In fron and steel progress toward that end Minneapolis Detroit Los Angeles Toledo Memphis Peoria Rochester New Haven Worcester Atlanta Salt Lake City Springfield, Mass Fort Worth Portland, Ore Norfeld

denims are dull and without doubt the uncertainty of the material market had some
influence. The price for raw cottons has
again advanced a quarter during the last
week, but without clear indications of increased demand for the supply remaining
or sufficiency of that supply in woolen
goods also the manufacturers find that the
demand fails to answer expectations or to Fall River. goods also the manufacturers find that the demand falls to answer expectations or to support prices asked at the opening and some large works are now reported running part time or closing. At the three chief markets wool has been extremely dull, with sales of only 2.720.00 lbs. Even where considerable blocks are offered at low figures the condition of the goods market is by no means encouraging to buyers.

Fallures for the week have been 179 in the United States, against 178 last year, and 25 in Canada, against 18 last year.

Wilmington Fall River Chavel C

BRADSTREET'S REVIEW OF TRADE.

Advance in Agricultural Products.

NEW YORK, June 22—Bradstreet's tognorrow will say: Midsummer duliness in distributive trade and industry and further reduction of prices of manufactured goods, but a marked unward movement in nearly all agricultural products, are the leading features of the business situation this week. Wheat has advanced it cents per bushel since June 1 and 20 cents from the low point reached in November, a gain over the latter period of 27 per cent in price. Corn ctcp advances are still in a high degree encourasing, but that cereal has symutifized with wheat as have also oats, and hog products have in turn felt the quickening influence of high prices for cern. Improved demand for dairy products is reflected in slight advances this week.

Crep damage has been a moving cause for the advance in the price of cotton, though the danger of the short side on the old crep has been evident for some time past in the critical condition of the visible supply of cotton. Some weakness has been noted in cotton goods without, however, favorably affecting distribution. Retail trade in dry goods has been helped by warmer weather. Wool is lower and the woolen goods market is rather quiet, awaitsing the next London wool sale and the opening of the spring weight season.

Weakness of prices is still the leading feature of the fron trade and lower quotations are noted for pig iron. Structural material has also verified predictions in a decline from \$1 to \$2 per ton. Domestic orders for iron are perhaps slightly more numerous, but are for small quantities.

Talk of a systematic shut-down of the iron Bee, page 2. Reduction in Manufactured Goods and Idvance in Agricultural Products.

WILL BE STRICTLY A PARTY AFFAIR SEEK TO CHANGE RIVER'S COURSE,

Honor Bryan's Nomination.

No Taint of "Local Pride" is to He Allowed to Tiacture the Purity of This Exclusively Demoeratic Function.

LINCOLN, June 22.-(Special.)-Elaborate maps, Bruigher's bend. There is great explans are being made by Lancaster county citement here and a violent clash is feared, democrats for a big ratification in this city between the two parties. the day after the national convention at | This movement on the part of South Da-Kansas City adjourns. The democratic kota men had its origin in McCook, S. D., state central committee will co-operate with a town at the extreme north end of the the local politicians and an effort will be bend. They have contended that if a chanmade to bring a number of the eastern dele- nel could be cut across the neck, making gations to this city to participate in the the river run straight instead of around a affair and swell the attendance. Chairman twenty-five mile bend, it would prevent the Hall of the state committee announced this spring floods which have so frequently overfterneon that he expected two trainloads flowed the southwestern portions of Union of Tammany Hall men to pass through this county. It is supposed the overflow is ity on their way east, and it is unofficially caused by the ice banking up at the bend ported that the Iroquois Marching club of in the river. The channel, if cut, would hicago, numbering 400 members, and a remedy this. band of sixty pieces, will also return via. This new course laid out for the river his city. Besides the visiting state dele- would also put 27,000 acres of choice Negations there will be the various demo-eratic clubs of Nebraska that attend the onvention and the uniformed Bryan Home Suards of this city, numbering possibly 200

The plans are yet in an immature form, done north and southwest of Pierce by owever, and the refusal of the eastern delegates to visit this city in the event of wind and hail. A small twister formed Bryan's nomination would of course result north of town about five miles, on the old in indefinitely postponing the celebration. Clark place. It moved toward the west. It It is not the intention of the Lancaster valuable windmill that had just been erected. ounty democrats to have a celebration uness a big attendance is assured, but the reports that reach this city from the east are very encouraging and it is not probable that a postponement will be necessary.

No Local Pride in It. furnaces producing for the open market comes chiefly from the south, but while this subject is under consideration the disease is finding a partial cure in the going out of blast of a number of less economical fur-naces and the summer shut-down of many mills. Export demand is good, but as for some time past walls upon the question of freight room. The other metals are steady and practically unchanged in price, with the exception of tin, which is slightly slower. The affair will be strictly democratic in nature and in this respect will be entirely ifferent from the reception accorded Bryan cial Telegram.)-A large attendance on his return from the Chicago convention reported at the Chautauqua today in 1896. The feeling of "local pride" at and many visitors from around the that time impelled people of all parties to state are coming in to go into camp during the session. John Dewitt Miller was get out and make all the noise possible. This year it is a question of politics and the lines will be tightly drawn.

be the principal entertainers. slower.

A heavy business is doing in refined sugar and the manufacturers are oversold. A good margin of profit exists in this trade. Reports from the boot and shoe industry are of rather unsatisfactory trade prospects and leather and hides are rather weak at the east, but strong at Chicago, where heary purchases for Philippine army purposes have strengthened the situation. Building demand for lumber is not active, but while pine is relatively firm, southern pine is in oversupply in a number of markets. Anthracite coal is in seasonable distribution, while the demand for bituminous continues active. Mr. Bryan's mail is beginning to assume enormous proportions. Charles W. Bryan, the candidate's brother, is acting as private secretary and his duties consist of opening and answering upward of 200 letters each three days' session to August 27. A divorce day. When in the city and not engaged in was granted to Albertine Bathke. Suit was other work Mrs. Bryan attends to her husbegun by her husband for the separation. band's private mail, the more unimportant but in her counter claim cruelty and noncommunications being referred to his her the decision and title to the homestead.

Democrats at County Gathering Beatrice Consider Themselves

BEATRICE, Neb., June 22 .- (Special Telegram.)-The democrats and populists held their conventions at the court house today. The silver republicans had also decided to hold a convention, but could not get enough members together to organize. so decided to cast their lot with the pops. The two conventions were wild and wooly and threatened to break up two or three times during the day. The populists were in the majority and early decided to do the

dictating for both parties. The state ticket nominated by the populists and endorsed by the democrats, somewhat against their will, was as follows: Senator, G. A. Wilkinson; representatives, Sherman Taylor, J. M. Meserve and E. B. Martindale. Martindale was the only

democrat allowed on the ticket. Resolutions to endorse Poynter and to instruct the state delegates for him were suppressed before they could be voted upon. The democrata presented the name of Judge Harley, an old wheel-horse, for county attorney, but the pops refused to have it so and nominated J. N. Rickards,

whom the democrats had to endorse. At the close of the convention, Chairman G. P. Marvin of the democratic convention move that a vote of thanks be tendered the populists for allowing the democrats to hold their convention in the

same building with the populists. One the main features of the convention was a frenzied speech by A. B. McCandless. a former republican, who had joined the pops owing to personal disappointments while in the republican fold. During his speech many delegates left the hall, as the talk he put up was too strong for even them. Great indignation at the action of the pops in taking the upper hand is felt by local democrats and many say they 'won't play."

Incendiaries at West Point.

The old frame livery barn which was

recently moved to make room for a brick stable on Main street, the property of Julius

Thiele, was destroyed by fire last night. The incendiary was seen by a citizen es-

caping from the barnyard a few minutes

before the fire started, but was not recognized. West Point has one or more firebugs.

whose hobby seems to be the burning of barns and warehouses, no attempts as yes having been made to fire dwelling houses.

The citizens have organized themselves

into a vigilance committee for the detection

of the perpetrators of these outrages and

are prepared to make it very warm for the
