RUMORS OF CONSOLIDATION

Motor Company Said to Be on the Point of Coming Together.

REASONS FOR THINKING IT IS TRUE

Suburban Company Has Made Promises and Old Company is Under Obligations that Point to a Union.

Although the officers of both corporations decline to either deny or affirm it, it is not without foundation, there seems to be little doubt but that an important deal is pending between the Omaha & Council Bluffs Illinois and Bridge Company and the Omaha, Council Bluffs & Suburban Railway company. That both companies have made offers to sell out to the other is an open secret. What the price demanded by the old company is not known, but it is reported to be in the neighborhood of \$1,000,000. The new company, it is said, places a figure of \$250,000 on the line as far as it is completed at present, together with the resort at Lake Manawa.

It is also reported that a deal is pending between the rival companies whereby the city would purchase the right to use the old company's tracks on Broadway between Thirteenth street and Pearl street and on Pearl and South Main streets from Broadway to Sixteenth avenue. That this is the case is firmly believed by those who have closely watched the progress of the company. So far the new company has laid its tracks from the Terminal company's bridge to the Illinois Central passenger depot and from Sixteenth avenue to Lake Manawa, but has made no effort to connect the two pieces of track at Sixteenth street and distributing ties and a certain amount of rails. The officers of the Suburban company have stated that the resort at Lake Manawa would be opened to the public July 1 and that cars would be running by that date. These in position to know that under no circumstances could the company lay its track on Sixth street and connect with its track on Avenue C and Thirteenth street by that date. Again it is said that the rolling stock ordered by the new company will not be ready until September 1 and that in the meantime the company will be compelled to use the old rolling stock of the East Omaha Motor company.

The courts have given the new motor company the right to "straddle" or overlap the tracks of the old company on Broadway and south Main street, but no attempt to lay any steel has been made as yet. It is said rather than have the new company build its tracks in this manner, the old company is willing to enter into an arrangement whereby the new company can use its tracks on Broadway and south Main street, but no attempt to lay any steel has been made as yet. DID YOU EVER STOP TO THINK Why all the other dealers in Shoes roast Sargent. You don't hear him roast them. Its because he insists on selling GOOD SHOES too cheap. They say he has no sense, but he has found that selling nothing but solid Shoes and selling them at a small profit has made him hold his business. That's the reason. Look for the Bear. That's Sargent's
