If the Douglas county democrats wish to show their sympathy for Aguinaldo and his supporters they could do it in no better way than by adopting their style of dress and their originality is to be commended. They may find their liberty much less than that of Aguinaldo, however, when the Kansas City police force catches sight of them.

Friend Telegraph: Colonel Edgar Howard has been nominated by fusion for congress up in the Second district. The colonel has had a sort of hankering for the loaves and fishes of fusion and there has been a growing desire that Howard ought to be sidetracked at some point or he was liable to be run over in the rush for office this fall. The colonel in accepting the nomination in opposition to Dave Mercer assumes the job whose wonderful proportions he will fully realize after the votes are counted in November and when the bleak winds begin to blow through his whiskers.

ECHOES OF OUR WAR

An army officer serving in the Philippines, writing to a friend in Rochester, N. Y., than the Cubana. "The common stateto the Cubans. It was spread by those whose only view of the Cubane was the most Cubans are negroes, and whose experience of this island has been confined to Ma nila. The benighted, stupid serf of the interior has few of the qualities, none of the aspirations, of a white man."

The writer also ridicules the stories of the "marvelous resources" of the islands and the trade they will develop. "There is very little lumber on these islands," ha writes. "Borneo, with her virgin forests, will absorb this trade. There is practically with these islands by the United States The Americans supply the army, that is ail. The hemp, sugar and tobacco trades are in the hands of foreigners, and remain so No line of steamers has been added from the United States to these islands in spite of the immense patronage that could be got from the government. The former trade of the islands amounted, imports and exports, to \$29,000,000. For this we are spending \$100,000,000 or more a year. Development as of an uninhabited country is impracticable. The land is practically all taken up. The population per square mile is twice that of Louisiana or Fiorida. The people are much less susceptible of provement or improvements."
