Gus Rublin Knocks Out Sailor in Fifteen Terrific Rounds.

AKRON MAN OUTCLASSED HIS RIVAL

Californian Fights with Courage and Bull Dog Tenneity, but Superior Strength, Science and Stature Bear Him Down.

NEW YORK, June 26 .- For the first time in his pugifistic career Tom Sharkey went down to decisive defeat tonight in the historic Seaside Athletic club and big Gun Ruhlin, the Ohio pugilist, was his conqueror. It was a clean knockout after fifteen rounds of fighting that made a memorable ring battle. Save in the matter of aggressiveness Ruhlin led from the faceoff in every feature of the game and at all times had the fight well in hand. Sharkey did not give up his place in the line of firstclass heavyweights without a desperate struggle. No soldier ever gave more desperate battle, no man sinking to unconsciousness ever clung more determinedly to his vitality. Even at the end, when blinded by the blows of his powerful opponent and dulled mentally by the hattering of his for be clung instinctively to the massive frame of the man who was his master. The decisive battle and unexpected result were truly a surprise for the sporting public. No line of form that could be figured gave the Ohioan more than 1 to 1 chance. Sharkey had met and at least stood off all of the leading heavyweights in the ring. He was known to be a giant in strength, courageous to a point beyond discretion and aggressive. Rublin, on the other hand, had never made a particularly good showing against any man of reputation and was regarded as second-rater of a pronounced type. Hence there was apathy as to the fight and while there was some spirited betting Ruhlin never showed better than 10 to 7 and it was even money that he would not last ten rounds. The management, in fact, decided to put the general admission down to \$1. There was a big crowd on hand, however, and it was treated to a rattling good fight, with surprising results.

Were Glad to See Sharkey.

Sharkey was the first man to come and it was 10:06 p. m. when he appeared. The impatient crowd gave him a fair volley of applause and was not especially enthusiastic when Ruhlin came in a minute later. Ruhlin showed to great advantage from the spectators' viewpoint when the men stood up together. He had height and weight and reach and looked big and muscular. His condition seemed perfect and his work as the battle progressed showed that it was. Sharkey was not lacking in the matter of condition, either, and that cannot be urged in explanation or extenuation.

At 10:15, when the men answering the gong came to the center, speculators went through the crowd offering 2 to 1 on Sharkey. At these figures there was a heavy play and the talent did the paying.

As the men sparred to an opening it could be seen that Ruhlin showed improved footwork and greater cleverness in avoiding punishment. Ability in that respect, coupled with his natural advantages, gave him a superiority which he never waived. He also showed fierce punishing power and it was only Sharkey's superb vitality that kept him from defeat earlier in the battle. He used his right and left with equal facility and made them both count. He rather lacked in aggressiveness, and if he had gone in could have finished the battle much earlier than he work and greater cleverness in avoiding have finished the battle much earlier than he did. He allowed Sharkey to make the pace

siveness which has m puglistic career, made the pace from the square-off until he was helpless. He had met his master, however, and defeat, although slow, was inevitable.

Sharkey's Face Bathed in Blood.

Each round brought him closer to it. Kuhlin kept away from his wild swings and desperate leads and kept hammering his left and right into face and body. He hit the sallor's face until it was bathed in blood and marked his chest and sides where he planted his powerful punches. They clashed in desperate clinches and were broken time and again. Sharkey showed an inclination to rough it and wrestle in the clinches and the unsympathetic crowd hissed and hooted at him. Cries of "Foul" rang from the crowd, but the referee refused to interfere.

The finish was dramatic. Sharkey had struggled through the fourteenth round with desperate effort and was but little revived when he came up for the fifteenth. He made a wild try with his left and when he missed Ruhlin caught him on the jaw with his left. Rublin sprang in and beat the Irishman down to the floor with a vol'ty of punches. The resolute fighter struggled to his fest and when Ruhlin came in clutched him around the waist. Ruhlin shook him off and dropped him again. A thousand men, frenzied in their excitement, surrounded the ring and there was a din of hoarse yells. Sharkey scrambled up again and then staggered against the rones. and then staggered against the topes Ruhlin seemed unable to finish him, which would have been a charity. Sharkey went down for the third time, but with dogged determination staggered to his feet. He was blind and unsteady and a punch put bim down. The referce stepped in and ended the contest

NATURE'S OWN SKIN PURIFIER.

UNLIKE ANY OTHER SOAP MANUFACTURED.

Made from the Fresh Green Leaves of the Tasmanian Blue Gum Tree.

During the past twenty years there has been a great improvement in the makeup of almost every article of ordinary use except skin and toilet soaps, and while every now and then new soaps have been placed on the market, these differ from their predecessors only in smell. The base of all is made from the ame old formula; fats and oils combined with an alkali. These fats are generally extracted from the refuse collected by scavengers, and the oils come from incinerating plants which burn the refuse of our large cities. The result has been that nine-tenths of all the persons afflicted with skin diseases owe their suffering and distigurement to the use of toilet soaps made with a base of such dangerous ingredients.

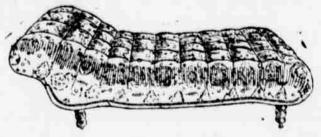

A delightful experience awaits those who have never used Hyomei Antiseptic Skin Soap. Made from the fresh green leaves of the Tasmanian Blue Gum Tree, it contains all their well-known healing, refreshing and antiseptic qualities, and but for its beautiful creamy lather one would doubt if they were using soap of any description.

Hyomei Skin Soap is nature's own skin purifier. There is no soapy smell, no overpowering perfume, no dangerous ingredients used in its manufac ture. No smarting of the eyes or tender skin results from its use. Instead, the skin is thoroughly cleansed and invigorated, all disease germs are destroyed, and all obstruction to the perfect action of the pores removed. The skin soon becomes soft, smooth and free from blemish. In fact, skin diseases cannot exist where the new soap is used.

Try it, and no other soap will ever again be found among your toilet requisites. Sold by all druggists or sent by mail. Price, 25 cents, Sample cake, 5 cents, THE R. T. BOOTH CO., Ithaca, N. Y.

NEW SERIAL STORY "The

Unspeakable Turk"

A REALISTIC AND THRILLING ROMANCE OF THE CRETAN UPRISING AND MASSACRE BY THE TURKS

-BY-

CEORCE HORTON

Author of "The Fair Brigand," Etc.

The First Installment Will Appear in The Bee.

Illustrated from Photographs Taken by Mr. Horton.

Sunday, July 1.

R. HORTON has taken for his theme the thrilling events in Crete leading to the Cretan rebellion, and eventually to the Greco-Turkish war. The author has related the events that followed the shooting of the British marines, and has portrayed with a graphic pen the terrible deeds of murder, rapine and arson carried on by the Bashi Bazouks in their desperate and fiendish desire to wipe out the Christians; how homes were entered and innocent women and children ruthlessly slaughtered or made to witness the murder and desecration of those held dear, is told with a realism that compels the reader to say with the author, "and this is The Unspeakable Turk." Mr. Horton's qualifications for writing this story are such that we can rely upon his statements of fact. He was for six years United States consul at Athens and visited Canea the day following these massacres. Mr. Horton made a close study of the language and conditions, habits and customs of the Greeks, and his work shows that he knows his ground
