Most Popular Man

Indianapolis News (ind.) There is no doubt that the nomination of Governor Roosevelt for vice president will add much strength to the ticket. He is probably the most popular man in the United States-and descrivedly so. He is a man of high integrity, of great political and personal courage, of inspiring person ality. He is afraid of nothing except wrong. A fighter and withal a man of sound sense, though a little radical in his views on war and expansion, he will command the support of many men who might otherwise have drifted away from the party

Mr. Softly is a populist, and not only an educated, but an experienced school man and president of the West Nebraska Teachers' association. He has lived in Nebraska a great many years, knows the Nebraska educational needs, has many acquaintances here in the eastern part and if the office falls to a western man, it could

not fall on more worthy shoulders. Auburn Granger (pop.): It is now urged that Governor Poynter has been very unfortunate with his appointees. Other national conventions have been held on July 4 and put in nomination candidates who never had a chance to shoot firecrackers off the White House porch.

Five New York men aspire to the democratic nomination for the vice presidency. When Boss Croker has spoken there will be not more than one, and perhaps none.

Trust the Kansas City people to see to it that the Fourth of July convention is drawn out long enough to destroy the train robbers' business on outgoing passenger conches.

According to good Jacksonian authority Colonel Moise has the wrong pointer if he expects to get his delegation recognized in the democratic state convention. This is a straight tip.

Colonel Bryan's complaint against the republican platform is that it does not include enough. From this we take it the Kansas City convention will practice platform expansion.

Kansas started the boom that landed Roosevelt in the republican national convention and now Arkansas wants to start a similar movement for David B. Hill in the democratic national convention.

Mayor Harrison of Chicago refuses to take the democratic nomination for the governorship. The mayor is wise in deciding that it is better to be mayor of Chicago than to be a defeated aspirant for the Illinois governorship.

The railroads insist upon cars being unloaded within forty-eight hours after being received. In these times of brisk business the railroads have trouble finding cars to handle their business without furnishing them for storage warehouses.

Candidates who have been favorably mentioned for nominations on the fusion state ticket are already beginning to issue letters of withdrawal. Evidently they do not believe the nominations would be an insurance policy payable on election.
