Wheat Ricovers Some Lat Ground and Closes Higher.

STRONG BULL FACTORS KEEP CORN UP

Oats Open at a Decline, but Recover Loss Later-Provision Market is Strong and Active, Helped by Grain Strength.

CHICAGO, June 27.-Wheat was active and firm, closing 1%c over yesterday. The recovery was due principally to a cessation of liquidation. A big cash business helped corn futures. July finishing the session 15, improved. Oats closed a shade higher and provisions strong, July pork 521gc. July lard 200 and July ribs 225c better.

The liquidation which set in Monday had not quite spent itself last night and some fag ends of it tumbled into the wheat pit at the beginning of business today. This, together with some decline in Liverpool cables, caused ensiness early. July opened unchanged to be up at \$2982be and quickly sold off to size. At this point the liquida-tion took the form of scattered selling. The demand was excellent from the northwest and the scaboard and sold-out bulls were also active in replemishing their stocks. The remainder of the session consequently was strong. Compared with recent sessions trade remainer of the seasons trade was quiet the rally was gradual and the best brice was not reached till afternoon, when July perched at 84%. The buige brought out profit-seeking stuff and a dip to 83% of followed, but the market quickly recovered to 83% and closed firm, July 1% over yesterday at 85%. August wheat sold between 82% and 85%, closing 1% up at 84%. Liverpool, following its opening weakness, turned strong and was in this way of some influence in the recovery here. The erop situation was not materially changed, according to private messages. There were light rains in the northwest. There were light rains in the northwest. They were a factor in the drop from sitze to 13 the but the recovery which followed this showed the prevalence of the online that the northwest crop is cractically beyond hope. New York reported 40 loads taken for export and there was some export inquiry here. Clearances at the seaboard in wheat and flour were count to 360,000 bu. Primary receipts were 40,000 bu., compared with 572,000 bu. last year. Minneapolis and Duluth reported 24 cars. against 35 last week and 481 a year ago. Receipts here were 50 cars, 3 of contract grade.

Con did not share in the early weakness of wheat, but readily responded to its interstrength. The fear of possible damage to growing corn from excessive heat or some other cause was aggravated by reports of

growing corn from excessive heat or some other cause was aggravated by reports of extremely high temperatures in parts of Kansas, Oklahoma and Missouri; the loss of the hay crop in the northwest and an ex-cellent shipping demand were likewise strong bull factors, Receipts here were 51s cars. Country acceptances were light and Liverpool was strong. July sold between 41%4419c and 455c, closing 1%c up at 42%c. Oats were strong, opening at a decline. 41% 41½ and 45% c, closing 1% c up at 42% c.
Oats were strong, opening at a decline, but recovering it. Trade was rather quiet and the other grains were the chief influences. July sold between 24% c and 25% c. closing a shade over yesterday at 25% c. Receipts were 220 cars.

Provisions were strong and fairly active, helped some by the grain strength, but chiefly by a good outside demand. July pork sold between \$12.40 and \$12.80 and closed 52% c over yesterday at \$12.80. July

pork sold between \$12.50 and \$12.80 and closed 52½ over yesterday at \$12.80; July lard, between \$6.90 and \$7.02½, closing 22½ better at \$7.02½, and July ribs between \$7.05 and \$7.20, with the close 22½ improved at \$7.20. Trade is gradually shifting to the September delivery and in these options took closed 55c higher at \$3.02½; lard 20c better at \$7.17½ and ribs 20c up at \$7.273247 7.20. Estimated receipts tomorrow: Wheat, 166

Prices Fail to Hold and Market Suffers Downward Movement.

NEW YORK, June 27.—Prices failed to hold in today's stock market and after an early period of advance turned generally downward until the average level had failed in the below that of last night. There was some irregularity in the movement amongst the industrials and railroads, but the tone of the market during the latter part of the day was undeniably heavy. The irregularity consisted in the better resistance to the depression offered by some stocks. This was true of the steel stocks and of the coalers, the latter being affected by a good showing of earnings for May by the Erie and the Reading companies, by announcement of an advance in the price of coal by the Erie company and by reports that other companies would follow suit. Some of the soft coal roads were also strong on the good conditions in that trade. But the railroad list as a whole gravitated downward quite heavily. The buying demand which was in evidence yesterially and the day before and from which much had been hoped in raillying intres showed increasing indifference and lassitude at the higher level attained. The course of the market was a striking testimony of the dominance of the crop prospects as an influence on prices.

London and the European bourses were

was a etriking testimony of the dominance of the crop prospects as an influence on prices.

London and the European bourses were all higher on the reports published abroad of the rescue of the foreign legations by Admiral Seymour's force at Pekin and the opening here was atteng in sympathy. But this and the growing need of money did not avail to hold prices in face of the rally in the wheat market, which was accepted as a plain intimation that the reaction in that market was nurely technical in its enuses and that there was no subsidence of apprehension of extensive damage to the crop. The May statement of not earnings of the St. Paul company had a cumulative effect on sentiment in connection with the crop damage reports and all of the grain carrying roads fared badly. Northern Pacilic was most affected and showed an extreme decline of nearly 2 points. Great Northern preferred lost 1½ net. St. Paul's increase in operating expenses for May of over 27 per cent was a discouraging evidence of the imposts made by higher prices of material upon the cost of operating railroads.

The growing case of the money market

of material upon the cost of operating railroads.

The growing ease of the money market
in face of the pending July 1 settlements
is an agreeable surprise to the speculative
world. Not only do call loans continue
easy, but time loan rates were quotably
lower today, notwithstanding the fact that
the subtreasury has absorbed nearly 2.006,
con from the market since last Friday and
that the dividend and interest disbursements which must be arranged for at the
beginning of the fiscal year approaching are
the largest in the history of the country.
The total is estimated at over \$100,00,000.

The course of the exchange market indicates the presence in the market of large
available supplies of bills of exchange and
uneasiness over the course of foreign money
markets is correspondingly diminished.

Business in bonds was small, but prices
were much better held relatively than in
stocks. Total sales, par value, \$1,00,000.
United States bonds were unchanged in the
bid quotations.

The Commercial Advertiser's London
financial cablegram says: It took only
half an hour at the

bid quotations.

The Commercial Advertiser's London financial cablegram says: It took only half an hour at the opening of the markers here today to exhaust the buoyancy caused by the news from China and during the remainder of the session dealings were on a small scale, with an inclination in prices toward heaviness. London continued to buy Americans quietly, but stopped these operations on noticing the steady sales by New York. The bank sold £19,600 gold in French coin and lost £3,000 for export. A good business in loans and discounts was done by the bank later, the rates being 242 315 ner cent, which is reasserting its control of the market. of the market. Dry Goods Market. Dry Goods Market.

NEW YORN, June 27—DRY GOODS—
The market for all kinds of cotton goods continues very good. The advance in raw cotton is not stimulating buyers, but makes some sellers more careful. No business in print cloths at yesterday's reductions. Men's woolens and worsteds slow and irregular. Dress goods dull and generally in favor of buyers.

week was the warmest of the season to

date. Maximum temperatures for the weet

ranged from 80 to 99 degrees, the latter

general market. Some of the heaviest packers held back, apparently having no faith in the future of the market and being unwilling to pay more than \$5. One house did not buy any hogs at all. Still there was a good demand, sufficient to take everything on sale, and the bulk of the receipts changed hands in good season. The general run of good mixed loads, such as sold for \$5.00 yesterday, brought \$5.02\cdots today Later on in the merning the market seemed to grow a little stronger and some of the better londs brought \$5.05. Sellers were pretty firm toward the last and were holding on for better prices, so that the extreme close was a little slow.

The hogs today sold on an average close to be higher than one week ago and little ship in the market and weeks ago. Representative sales:
