waters. The Brooklyn lef Cavite June 27. She took 300 marines from the Philippines.

Advices from Canton and Fatshan (an important manufacturing town known as "the Birmingham of China," nine miles southwest of Canton) report that the anti-foreign feeling in those places is growing in intensity. A mob assembled yesterday about the Weslevan hospital in Fatshan, threatening to destroy that establishment and all other for-

sign property there. Highly inflammatory placards have been posted throughout the lown.

BERLIN'S THOUGHT IS CHINA

Officials and Newspapers Absorbed in Issues That Oriental Imbroglio May Make.

(Copyright, 1900, by the Associated Press.) BERLIN, June 30 .- A high foreign official said today: "The old theory of 'no war' is holes also through bottom of ship. still upheld. The understanding between the powers is still intact. No exchange of notes is going on. Japan some time ago asked the powers for their program, which Oregon. communication was answered. The press exaggerated the share which diplomacy has hitherto had in the matter. There has not been any talk of dismissing the Chinese ministers in Europe."

Lord Gough, the British charge d'affaires, said he thought the powers were keeping up going to its assistance. the fiction of no war as long as possible out of fear of the difficulties that might arise between themselves in China if war was once officially admitted. it struck. The Chinese minister, Lui Hai Houan,

"There has been no question hitherto

in Europe of handing the Chinese ministers | How Ke island and about a mile and a quartheir passports. No one knows where the foreign ministers to China are. If they Shan. The rock is encircled by a shoal and went to Shanghai Kwan, it was a step taken by the Chinese government for their protection and was not their dismissal.

"The sending of troops hence to China is useless. It will require six weeks to get them to Tien Tsin and Li Hung Chang will have suppressed the Boxers in three weeks."

There is growing dissatisfaction throughout Germany with the attitude of the government regarding China, especially because the government publishes little official news and even some of this is erroneous. It is certain, however, that the emperor could have all the volunteers for China he wanted for the army, if larger forces were needed there, for the popular sentiment against China is quite strong.

A number of papers, including the Tageblatt, express astonishment at the meagre and ill-considered reports from Vice Admiral Bendeman, saying the other nations have been better served in this respect

Regrets are expressed by the liberal newspapers that the Reichstag's summer adjournment deprives the nation of the chance of obtaining detailed information regarding the extent to which Germany means to participate in the Chinese adventure. Several leading papers demand that the Reichstag meet in extra session. The jingo newspapers advocate Germany's acquiring a large army for trans-marine uses. One of these papers, the Schlesiche Zeitung, justifies this demand by the argument that some time a massacre of Germans may occur in the United States, "in which case Germany would be forced to throw large

bodies of troops upon American soil." A leading diplomatic here, who has had an extensive experience in China, said that he condemned the present anti-Chinese course pursued by the powers, claiming that the naval demonstration with which the hostilities began was unjustified, as also was the marching of troops toward Pekin in time of actual peace. He considers the subjection of the Chinese nation impossible and says its pacification is also impossible.

(Continued on Second Page.)

with It.

WASHINGTON, June 30 .- The Navy department has received a cablegram from Captain Wilde of the Oregon, dated Chefoo yesterday, confirming the report that his ship is aground fifty miles from Taku. The Iris and another relief ship are now with Peck with a smile: "No wonder your people the Oregon.

The following dispatches were received at chunks." the Navy department this morning relative to the grounding of the Oregon: "CHEFOO, June 29 .- Secretary Navy:

FRENCH NOTIONS OF SPORT

Motor Cycle Contests, Balloon Ascensions Against Records and Steam Launch Competitions.

(Copyright, 1900, by Press Publishing Co.) PARIS, June 30 .- (New York World lablegram-Special Telegram.)-The Sport competition has continued all week.

favor of the French team against the Spanish. The motor cycle competition class was also of the dead.

won by a Frenchman, who made 800 kilometers (about 500 miles.)

The balloon prize for height of ascent was awarded to Tavaux, who went up 5,680 various merchandise on the docks has not meters (about three and one-half miles), as was testified by a sealed registering barometer. The record of 8,000 meters made by Zenith years ago, when two out of three aeronauts lost their lives, is seemingly unapproachable. Eight balloons took part, one landing in the center of Germany. The competition for length of time in the air was not remarkable, the longest being twenty-one hours.

The motor launch competition established new record for ten-footers, with Laiglon's performance of twenty kilometers (about twelve miles) an hour. His tiny craft used a ten-horse power petroleum automobile motor, which almost shook it to pieces.

YACHT SQUADRON AIR TIGHT Exclusive English Club Draws

Ite Lines Even Closer, Despite Wales' Wishes.

(Copyright, 1900, by Press Publishing Co.) LONDON, June 30 .- (New York World a house, revolves on a pivot so that its Cablegram-Special Telegram.)-The prince of Wales has experienced a severe snub from

the Royal Yacht squadron of which he is emmodore. The squadron is extremely exclusive, and the prince's nominees have fared no better in the balloting than have other unwelcome candidates.

The prince had a special meeting called to alter the rules, so that the next election would be by a club committee instead of by the whole membership, but the club not only negatived the prince's proposal, but made the conditions of election more stringent than ever by declaring that in future one freight and passenger steamship of 10,200 black hall in five shall exclude instead of one in ten.

WHY THE PROTECTION FAILED

Man Responsible Was Implicated in the Thing He Was to Guard Against.

(Copyright, 1900, by Press Publishing Co.)

LONDON, June 30 .- (New York World lablegram-Special Telegram.)-The recent failures among attorney firms of high standing involving heavy embezzlement of trust funds have greatly shaken confidence in the legal fraternity. This week the failure is announced, with Habilities of \$1.500,000, of

Benjamin Greene Lake, one of the most respected members of the profession in Eng-PARIS, June 50 .- (New York World land. Lake was president of the Incor-Cablegram-Special Telegram.)-One of the porated Law Society and chairman of its discipline committee, intrusted with the distracted by homesickness, refused to duty of keeping the profession clean by takmaneuver. On being punished he struck his ing proceedings to remove from its rolls discipline committee is now explained.

While Ronning from the probably never will be known how many men perished in the ships, as the flame

were so fierce they would leave but few, if

any, remnants of the human body. Fearful Loss of Life.

The greatest loss of life appears to have been on the Saale. It carried 450 people and was to have sailed for Boston this afterbodies lying all about the deck. The steamship Bremen carried a crew of 300 men, the Main 250 and if as many lives were lost on the Bremen and Main as on the Saale the number of lives lost will be very great. Then also many perished on the plers, the canal boats and lighters.

The burning or smouldering remains of canal hoats, lighters and barges are scat- throat. After a chase of three blocks the The Pelot Basque games were concluded in tered all the way down the river and bay to Staten Island and Governor's Island, Each blood. But he fought the gendarmes fiercely of these craft will add something to the list It took six men to hold him. While the sur

The loss to the North German Lloyd docks

alone is placed at \$2,000,000. The value of the great quantities of cotton, oil and been estimated. The loss to the German Lloyd Steamship company alone will probably come close to \$10,000,000, as the Bre men, the Main and the Saale were almost totally destroyed. The Kaiser Wilhelm der Grosse was somewhat damaged. The five storehouses of the Campbell company were greatly damaged, the loss on one building alone being placed at \$1,500,000. The value of the Hamburg-American line steamer Phoenicia is not known, but this will swell the amount of damage.

The Thingvalla pier was burned and th dock of the Hamburg-American line suffered greatly. A number of small buildings in Hoboken were destroyed along the wharves, with their contents, but no idea of the value of these can be obtained.

Started in a Bale of Cotton.

From what can be learned tonight the flames started among a large pile of cotton bales on Pier 2 of the North German Lloyd Steamship company and spread with such remarkable rapidity that in fifteen minutes the entire property of the company, taking in over a third of a mile of water front and consisting of three great piers, was completely enveloped in flames.

The flames started so suddenly and gained such headway that many of the people or the piers and on the numerous vessels there dosked were unable to reach the street. As all means of exit were cut off by the flames they were forced to jump overboard and in is believed a great number were drowned. At the docks of the North German Lloyd were the Saale, a single screw passenger steamship of 4,965 gross tons; the Bremen, a twin-screw passenger and freight steamer of 10,526 tons, and the Main, a twin-screw gross tons. They all caught fire and were burned to the water's edge. The Kalser Wilhelm der Grosse, which had just come

at the dock that escaped. The loss of the crews of these vessels is

The fire was first discovered by a watchman at 4 o'clock. He saw a small streak of flame shoot from a bale of cotton on Pier

2, at which was docked the steamer Saale He immediately sent in an alarm. In a few minutes the flames had extended

to the steamship and were communicated to the adjoining pler on the north. Here were docked the Kaiser Wilhelm der Grosse and the Main. Tugs werd immediately made fast to the big Kaiser Wilhelm der Grosse and she was gotten out into midstream with safely, although badly scorched at the bows. The steamship Main, however, was doomed. as the flames had already become so flerd on the north side of the pier that no tug

could approach the vessel. Then, by a shift in the wind, the flames

Character of Business Changed.

The character of the lumber business has geons of the ambulance station, to which he changed with changing conditions in other lines and today Omaha is practically the only Missouri river point having wholesale inserting his hand in the wound, tore the lumber dealers and is the only town where vital portions. The physicians say this the wholesalers carry stock in local yards. The reason for this is that the sawmill operators have to a large extent gone into the jobbing trade and less firmly established bouses than those of this city have been forced out of business. The Omaha nouses have had an established trade for years and have not only held it, but have increased, in spite of the competition of the mills.

Interviews with the managers of local **GIRLS TAKING BOYS' PLACES** ouses show that the outlook of the wholesale lumber trade is better than it has been for years. The year of 1892 was their highwater mark in Omaha, but it has almost been overtaken, and the lumber men are naturally nthusiastic over their prosperous condi-

What the Lumber Men Say.

W. J. Foye of the George A. Hoagland Lumber company said: "Trade this year was almost double what it was for the year 1896. The price has advanced somewhat, of the dearth of boys, the greater difficulty but it is kept down by the crop failures in the Dakotas and Minnesota with the conexperienced in keeping boys in order and the superior reliability of girls. Their hours sequent shortage in the demand. Our Colorado trade has probably equaled any six years' previous business."

"Our business is getting back to what t should be," said O. W. Dunn for C. N. Dietz. "We probably will not in years equal the trade of 1892, as general conitions have changed, but we will approximate it. Our trade in Wyoming is the best that it ever has been in the history of the house and we are looking forward to a good fail trade."

H. N. Jewett for C. L. Chaffee said: "We are having much larger sales now than we have had for several years. Trade conditions have changed somewhat and we are more accidents on the rolling side- working on a narrower margin, but our sales are now reaching a place where we can begin to compare them with good times in the past.
